The Iliad New Age Illustrated Series:

The Emperor's New Clothes - The Golden Age of Illustration Series Hans Christian Andersen, 2013-04-16 This volume of the Golden Age of Illustration Series contains Hans Christian Andersen's *The Emperor's New Clothes* first published in May of 1837. This classic fairy tale has been continuously in print in different editions since its first publication with many many different artists illustrating the story over the years. This edition features a beautiful collection of the best of that art taken from the likes of Arthur Rackham, W. Heath Robinson, Harry Clarke, Milo Winter, Anne Anderson, Edmund Dulac among others. This series of books celebrates the Golden Age of Illustration. During this period the popularity, abundance, and most importantly the unprecedented upsurge in the quality of illustrated works marked an astounding change in the way that publishers, artists, and the general public came to view this hitherto insufficiently esteemed art form. The Golden Age of Illustration Series has sourced the rare original editions of these books and reproduced the beautiful art work in order to build a unique collection of illustrated fairy tales.

Children's Books on Ancient Greek and Roman Mythology Antoine Brazouski, Mary J. Klatt, 1993-11-23 The classical heritage continues to impact modern culture in many ways. This bibliography lists and describes those books on Greek and Roman mythology from the mid 19th century to the present which are useful for introducing children to the classical world. The volume begins with a brief history of children's books on classical mythology in the United States. A chapter then discusses the various techniques through which classical myths were adapted for children. The annotated bibliography follows with each entry including a critical annotation on how closely the work adheres to the original myth. Each entry also includes an indication of the grade level of each book. Indexes allow the user to locate sources according to title, illustrator, time period, myth, and subject.

The Global Histories of Books Elleke Boehmer, Rouven Kunstmann, Priyasha Mukhopadhyay, Asha Rogers, 2017-07-26 This book is an edited volume of essays that showcases how books played a crucial role in making and materialising histories of travel, scientific exchanges, translation, and global markets from the late eighteenth century to the present. While existing book historical practice is overly dependent on models of the local and the national, we suggest that approaching the book as a cross-region travelling and therefore global object offers new approaches and methodologies for a study in global perspective. By thus studying the book in its transnational and inter-imperial textual, inter-textual, and material dimensions, this collection will highlight its key role in making possible a global imagination shaped by networks of print, material, readers, publishers, and translators.
