The Indefatigable Mr Woodcroft The Legacy Of Invention:

The Indefatigable Mr. Woodcroft John Hewish, 1980-01 *The Indefatigable Mr. Woodcroft* John Hewish, 1980 *The Making of Modern Intellectual Property Law* Brad Sherman, Lionel Bently, 1999-07-08 One of the common themes in recent public debate has been the law's inability to accommodate the new ways of creating distributing and replicating intellectual products In this book the authors argue that in order to understand many of the problems currently confronting the law it is necessary to understand its past This is its first detailed historical account In this book the authors explore two related themes First they explain why intellectual property law came to take its now familiar shape with sub categories of patents copyright designs and trade marks Secondly the authors set out to explain how it is that the law grants property status to intangibles In doing so they explore the rise and fall of creativity as an organising concept in intellectual property law the mimetic nature of intellectual property law and the important role that the registration process plays in shaping intangible property **Parliament, Inventions and Patents** Phillip Johnson, 2018-04-19 This book is a research guide and bibliography of Parliamentary material including the Old Scottish Parliament and the Old Irish Parliament relating to patents and inventions from the early seventeenth century to 1976 It chronicles the entire history of a purely British patent law before the coming into force of the European Patent Convention under the Patents Act 1977 It provides a comprehensive record of every Act Bill Parliamentary paper report petition and recorded debate or Parliamentary question on patent law during the period The work will be an essential resource for scholars and researchers in intellectual property law the history of technology and legal and economic history *The Crystal Palace and the Great Exhibition* Hermione Hobhouse, 2002-03-05 The Great Exhibition of 1851 and the Crystal Palace which housed it together became a British icon a symbol of free trade and a national success funded not only by taxes but by public subscription Though the Palace itself was banished to Sydenham to leave Hyde Park free for Londoners the Commission was re-invented under Prince Albert to spend the profits for the advancement of British industry The Commissioners first established South Kensington with its Museums and Colleges of Art and Science the Albert Hall and the Royal College of Music and then moved into the training of scientists and artists They assisted in the expansion of the British School at Rome and for over a century 1851 Scholars have been contributing to British scientific discoveries This book celebrates 150 years of the Commission's work fired by the application of art and science to productive industry a story of some success and permanent record yet a pilgrimage not without its episodes of dissension and controversy *Francis Watkins and the Dollond Telescope Patent Controversy* Brian Gee, edited by Anita McConnell, 2016-04-15 Francis Watkins was an eminent figure in his field of mathematical and optical instrument making in mid eighteenth century London Working from original documents Brian Gee has uncovered the life and times of an optical instrument maker who at first glance was not among the most prominent in his field In fact because Francis Watkins came from a landed background the diversification of his assets enabled him to weather particular business storms discussed

in this book where colleagues without such an economic cushion were pushed into bankruptcy or forced to emigrate He played an important role in one of the most significant legal cases to touch this profession namely the patenting of the achromatic lens in telescopes The book explains Watkins s origins and how and why he was drawn into partnership with the famous Dollond firm who at that point were Huguenot incomers The patent for the achromatic telescope has never been satisfactorily explained in the literature and the author has gone back to the original legal documents never before consulted He teases out the problems lays out the evidence and comes to some interesting new conclusions showing the Dollonds as hard headed and ruthless businessmen ultimately extremely successful The latter part of the book accounts for the successors of Francis Watkins and their decline after over a century of successful business in central London History of Technology Volume 21 Graham Hollister-Short,2016-09-30 The technical problems confronting different societies and periods and the measures taken to solve them form the concern of this annual collection of essays Volumes contain technical articles ranging widely in subject time and region as well as general papers on the history of technology In addition to dealing with the history of technical discovery and change History of Technology also explores the relations of technology to other aspects of life social cultural and economic and shows how technological development has shaped and been shaped by the society in which it occurred **British Patents of Invention, 1617-1977** Stephen Van Dulken,1999 This Unique Guide Explains how Researchers can Use Patents as a source of historical information Covering the British patents system from 1617 until the 1977 patents Act the guide is an invaluable resource for anyone researching the history of science and technology or looking for information on the people behind inventions Sections include the historical background of the patent system patenting procedure people in the patent system the patent specification searching for patents information **Bell's Comet** P. J. G. Ransom,2012-08-15 P J G Ransom s new study of Bell and the Comet and their place in history written to mark the Comet bicentenary in 2012 **Naval History 1680-1850** Richard Harding,2017-11-30 This collection of essays sets out to present a sample of the rich diversity of writings on naval history in this period The collection covers subjects ranging from strategy operations and tactics to administration technology and the maritime economy Within this volume the reader will be able to see essays that influenced the development of modern naval history through to samples of some of the latest research
