The Influence Of Ausias March On Early Golden Age Castilian Poetry:

The Influence of Ausiàs March on Early Golden Age Castilian Poetry Kathleen McNerney, 2025-02-03 **Humanism and Christian Letters in Early Modern Iberia (1480-1630)** Alejandro Coroleu, 2010-05-11 Even though humanism derived its literary moral and educational predilections from ancient Greek and Roman models it was never an inherently secular movement and it soon turned to religious questions Humanists were of course brought up with Christian beliefs regarded the Bible as a fundamental text and many of them were members of the clergy either regular or secular While their importance as religious sources was undiminished biblical and patristic texts came also to be read for their literary value Renaissance authors who aspired to be poetae christianissimi naturally looked to the Latin Fathers who reconciled classical and Christian views of life and presented them in an elegant manner The essays offered in this volume examine the influence of Christian Latin literature whether biblical patristic scholastic or humanistic upon the Latin and vernacular letters of the Iberian Peninsula in the period 1480 to 1630 The contributions have been organized into three thematically coherent groups dealing with transmission adaptation and visual representation Contrary to most studies on the Iberian literature of the period in which practically no essays are devoted to texts other than in Spanish this volume successfully accommodates authors writing in Portuguese and Catalan Likewise a significant part of the pieces presented here is concerned with literary texts written in Latin Moreover it shows how the interests and preoccupations of the better known authors of the Iberian Renaissance were also shared by contemporary figures whose choice of language may have resulted in their exclusion from the canon **The Influence of Ausiàs March on Castilian Golden Age Poetry** Kathleen McNerney, 1977 **Imperial Lyric** Leah Middlebrook, 2009-05-13 Present scholarly conversations about early European and global modernity have yet to acknowledge fully the significance of Spain and Spanish cultural production Poetry and ideology in early modern Spain form the backdrop for Imperial Lyric which seeks to address this shortcoming Based on readings of representative poems by eight Peninsular writers Imperial Lyric demonstrates that the lyric was a crucial site for the negotiation of masculine identity as Spain's noblemen were alternately cajoled and coerced into abandoning their identifications with images of the medieval hero and assuming instead the posture of subjects The book thus demonstrates the importance of Peninsular letters to our understanding of shifting ideologies of the self language and the state that mark watersheds for European and American modernity At the same time this book aims to complicate the historicizing turn we have taken in the field of early modern studies by considering a threshold of modernity that was specific to poetry one that was inscribed in Spanish culture when the genre of lyric poetry attained a certain kind of prestige at the expense of epic Imperial Lyric breaks striking new ground in the field of early modern studies Dreams of Waking Vincent Barletta, Mark L. Bajus, Cici Malik, 2022-12-22 In this anthology Vincent Barletta Mark L. Bajus and Cici Malik treat the Iberian lyric in the late Middle Ages and early modernity as a deeply multilingual transnational genre that needs to break away from the old essentialist ideas about language geography

and identity in order to be understood properly More and more scholars and students are recognizing the limitations of single language nationalist and period bound canons and are looking for different ways to approach the study of literature The Iberian Peninsula is an excellent site for this approach where the history and politics of the region along with its creative literature need to be read and studied together with the way the works were composed by poets and eventually consumed by readers With a generous selection of more than one hundred poems from thirty three poets *Dreams of Waking* is unique in its coverage of the three main languages Catalan Portuguese and Spanish and lyrical styles employed by peninsular poets It contains new translations of canonical poems but also translations of many poems that have never before been edited or translated Brief headnotes provide essential details of the poets lives and a general introduction by the volume editors shows how the poems and languages fruitfully intersect With helpful annotations to the poetry as well as a selected bibliography containing the most important editions and translations from all three of the main Iberian languages this volume will be an indispensable tool for both specialists and students in comparative literature **Medieval Iberia** E. Michael Gerli,2013-12-04 First published in 2003 **Routledge Revivals: Medieval Iberia (2003)** E Michael Gerli,2017-07-05 First published in 2003 *Medieval Iberia* An Encyclopedia is the first comprehensive reference to the vital world of medieval Spain This unique volume focuses on the Iberian kingdoms from the fall of the Roman Empire to the aftermath of the Reconquista and encompass topics of key relevance to medieval Iberia including people events works and institutions as well as interdisciplinary coverage of literature language history arts folklore religion and science It also provides in depth discussions of the rich contributions of Muslim and Jewish cultures and offers useful insights into their interactions with Catholic Spain With nearly 1 000 signed A Z entries and written by renowned specialists in the field this comprehensive work is an invaluable tool for students scholars and general readers alike *Catalog of Copyright Entries.
