The Intelligence Of Animals And Other Papers A Theory Of Learning:

The Intelligence of Animals and Other Papers David A. O. Williams, 1992-01-01 **Animals in Tillich's Philosophical Theology** Abbey-Anne Smith, 2017-10-02 This book explores how Paul Tillich's systematic theology focusing on the concepts of being and reason can benefit nonhuman animals while also analysing how taking proper account of nonhuman animals can prove immensely beneficial. The author first explains the body of Tillich's system examining reason and revelation, life and the spirit and history and the kingdom of God. The second section undertakes a critical analysis of Tillichian concepts and their adequacy in relation to nonhuman animals addressing topics such as Tillich's concept of technical reason and the multidimensional unity of life. The author concludes by discussing the positive concepts in Tillich's systematic theology with respect to nonhuman animals and creation including the concept of universal salvation and Tillich's interpretation of nonhuman animals and the Fall in Genesis.

Animal Theologians Andrew Linzey, Clair Linzey, 2023 Many people who have thought about God have not thought about animals or about the relationship between the two. But among those who have are some of the most celebrated religious thinkers including Michel de Montaigne, Thomas Tryon, John Wesley, John Ruskin, Leo Tolstoy, Mohandas K. Gandhi, Albert Schweitzer and Paul Tillich. This volume comprises 24 scholarly studies that detail challenges to the dominant anthropocentrism of most religious traditions. The editors have brought together Jewish, Unitarian, Christian, transcendentalist, Muslim, Hindu, Dissenting, deist and Quaker voices, each offering a unique theological perspective that counters the neglect of the nonhuman. *Animal Theologians* is divided into three parts starting with the pioneers who first saw a relationship between animals and divinity, those who contributed to the expansion of social sensibility to animals, and ending with the work of contemporary theologians. The essays in this volume use contextual and historical background to describe what led animal theologians to their beliefs and then pave way for further developments in this expanding field. This volume is an act of reclaiming different religious traditions for animals by recovering lost voices.
