The Last World With An Ovidian Repertory:

The Lives of Ovid in Seventeenth-century French Culture Helena Taylor, 2017 Helena Taylor explores responses to the life of the ancient Roman poet Ovid within the charged atmosphere of seventeenth century France. She investigates how the figure of Ovid was used to debate literary taste and modernity and in doing so offers a fresh perspective on classical reception, its paradoxes, uses and quarrels.

The Last World Christoph Ransmayr, 1996 A man goes in search of the Roman poet Ovid banished to the end of the world. He finds that Ovid's personality and stories have undergone a sea change and have fragmented themselves into lots of clues, people, bizarre events, odd stretches of landscape and a story emerges.

Ovid and the Moderns Theodore Ziolkowski, 2005 The reasons for the conspicuous popularity of Ovid, his life as well as his works at the turn of the new millennium bear investigation. This book speaks of the new bodies assumed in the twentieth century by the poems and tales to which Ovid gave their classic form, including prominently the account of his own life which has been hailed by many writers of our time as the archetype of exile. I intend to suggest some of the reasons for Ovid's appeal to different writers and different generations from the Preface.

Theodore Ziolkowski approaches Ovid's Latin poetry as a comparatist, not as a classicist, and maintains that the contextualization of individual works helps place them in a larger tradition. Covering the period 1912-2002, *Ovid and the Moderns* deals with the reception of Ovid and of Ovid's works in literature. After beginning with a discussion of Giorgio de Chirico's Ariadne paintings of 1912 and the Hofmannsthal Strauss opera *Ariadne auf Naxos*, Ziolkowski considers European literary landmarks from the High Modernism of Joyce, Kafka, Mandelstam and Pound by way of the mid-century exiles to postmodernism and the century's end, when a surge of interest in Ovid was fueled by a new generation of translations. One of Ziolkowski's conclusions is that the popularity of Ovid alternates in a regular rhythm and for definable reasons with that of Virgil.

Milton and the Metamorphosis of Ovid Maggie Kilgour, 2012-02-02 Contributing to our understanding of Ovid, Milton and more broadly the transmission and transformation of classical traditions, this book examines the ways in which Milton drew on Ovid's oeuvre and argues that Ovid's revision of the past gave Renaissance writers a model for their own transformation of classical works.

The A to Z of Postmodernist Literature and Theater Fran Mason, 2009-07-23 Postmodernist literature embraces a wide range of forms and perspectives, including texts that are primarily self-reflexive, texts that use pastiche, burlesque, parody, intertextuality and hybrid forms to create textual realities that either run in opposition to or in parallel with an external reality, fabrications that develop both of these strategies, texts that ironize their relationship to reality, works that use the aspects already noted to more fully engage with political or cultural realities, texts that deal with history as a fiction, and texts that elude categorization even within the variety already explored. For example, in fiction a postmodernist novel might tell a story about a writer struggling with writing, only perhaps to find that he is a character in a book by another writer struggling to write a book. *The A to Z of Postmodernist Literature and Theater* examines the different

areas of postmodernist literature and the variety of forms that have been produced This is accomplished through a chronology an introductory essay a bibliography and several hundred cross referenced dictionary entries on individual postmodernist writers the important postmodernist aesthetic practices significant texts produced throughout the history of postmodernist writing and important movements and ideas that have created a variety of literary approaches within the form By placing these concerns within the historical philosophical and cultural contexts of postmodernism this reference explores the frameworks within which postmodernist literature of the late twentieth and early twenty first century operates
