The British Country House Revival Ben Cowell, 2024 British country houses have experienced a renaissance since the early 1970s A new accord is needed today recognising the increasingly contested contribution of country houses to British cultural life Fifty years ago the future for country houses in Britain looked bleak The Victoria Albert Museum's exhibition *The Destruction of the Country House* which opened in October 1974 charted the loss of over a thousand country houses in the preceding century The makers of the exhibition warned that history could be about to repeat itself because of the threats besetting mansion properties principally from higher taxation Houses faced the prospect of having to be stripped of their collections and sold for use as offices hotels or hospitals with their parks and gardens turned into golf clubs Government might afford to save just a handful of the most significant of these places working in tandem with charities such as the National Trust The rest would be consigned to history This book traces the history of country houses in Britain from the *Destruction* exhibition to the present day The wave of country house losses anticipated in 1974 never

actually happened. Instead over the next five decades Britain's country houses experienced a renaissance. Fiscal rules changed in the mid 1970s to make it easier for owners to hold on to their assets. Economic improvements in the 1980s and 1990s allowed many houses and estates to develop profitable commercial businesses. All of this was achieved only after dedicated campaigning from heritage organisations in support of the country house cause. The book argues that a new accord is needed today to recognise and value the ongoing if increasingly contested contribution of country houses to British life and culture in the twenty first century.

Country houses and the British Empire, 1700-1930 Stephanie Barczewski, 2017-02-01 Country houses and the British empire 1700-1930 assesses the economic and cultural links between country houses and the Empire between the eighteenth and twentieth centuries. Using sources from over fifty British and Irish archives it enables readers to better understand the impact of the empire upon the British metropolis by showing both the geographical variations and its different cultural manifestations. Barczewski offers a rare scholarly analysis of the history of country houses that goes beyond an architectural or biographical study and recognises their importance as the physical embodiments of imperial wealth and reflectors of imperial cultural influences. In so doing she restores them to their true place of centrality in British culture over the last three centuries and provides fresh insights into the role of the Empire in the British metropolis.

[The Story of the Country House](#) Clive Aslet, 2021-09-14 The fascinating story of the evolution of the country house in Britain from its Roman precursors to the present. The Story of the Country House is an authoritative and vivid account of the British country house exploring how they have evolved with the changing political and economic landscape. Clive Aslet reveals the captivating stories behind individual houses, their architects and occupants and paints a vivid picture of the wider context in which the country house in Britain flourished and subsequently fell into decline before enjoying a renaissance in the twenty first century. The genesis, style and purpose of architectural masterpieces such as Hardwick Hall, Hatfield House and Chatsworth are explored alongside the numerous country houses lost to war and economic decline. We also meet a cavalcade of characters, owners with all their dynastic obsessions and diverse sources of wealth and architects such as Inigo Jones, Sir John Vanbrugh, Robert Adam, Sir John Soane and A. W. N. Pugin who dazzled or in some cases outraged their contemporaries. The Story of the Country House takes a fresh look at this enduringly popular building type.
