Ragland,2022-04-19 How did medical students become Galenic physicians in the early modern era Making Physicians guides the reader through the ancient sources textbooks lecture halls gardens dissecting rooms and patient bedsides in the early decades of an important medical school Standard pedagogy combined book learning and hands on experience Professors and students embraced Galen s models for integrating reason and experience and cultivated humanist scholarship and argumentation which shaped their study of chymistry medical botany and clinical practice at patients bedsides in private homes and in the city hospital Following Galen s emphasis on finding and treating the sick parts professors correlated symptoms and the evidence from post mortems to produce new pathological knowledge Knowledge and Cosmos Robert K. DeKosky,2023-10-10 In Knowledge and Cosmos Development and Decline of the Medieval Perspective 2nd Edition Robert K DeKosky focuses on issues in astronomy cosmology physics matter theory philosophy and theology vital to the Copernican Revolution This book describes efforts among individuals advocating different world views to fit new ideas compatibly into broad perspectives reflecting four traditional patterns of interpretation teleological mechanical occultist and mathematico descriptive These four modes had guided medieval accounts of heavenly phenomena material process and

motion The teleological explanation prevalent in Aristotle's natural philosophy posited final causes ends or goals toward which objects strove or attempted to become Ancient classical atomists had emphasized strictly mechanical explanations invoking direct material contact and collision of moving matter as agents of physical change Traditions of astrology magic and alchemy embraced an occultist pattern of interpretation citing hidden forces opaque to both sensual detection and rational understanding as explanations of various phenomena Finally the mathematico descriptive approach interpreted natural phenomena according to geometric or arithmetic relationships unlike the other three this did not involve causal explanation of a process Part I discusses development of the four patterns in the ancient period and their uneasy medieval relationships with each other and with basic Judaeo Muslim Christian exigencies of faith Theory of the heavens follows including the mathematico descriptive approach of Ptolemaic astronomy the teleological and mechanical cosmology of Aristotle and occultist interpretations of astrologers and magicians Part I then turns to matter and materiality discussing differences among the mechanical philosophy of classical atomism teleological emphases in Aristotle's material theory and occultist assumptions of some alchemists Finally Part I analyzes conceptions of motion focusing on Aristotelian interpretations and critical commentaries thereon during the Middle Ages Part II relates struggles of leading early modern figures to adapt new concepts e.g. Copernicus heliocentric astronomy cosmology Galileo's inertial theories of motion and Kepler's elliptical planetary orbit to an allegiance to two or more of the four patterns of interpretation By this approach it identifies decreasing dependence on teleological explanation of physical phenomena as crucial to decline of medieval interpretations of those phenomena followed by rejection of teleology in the natural philosophy of Descartes and subsequent fruitful confluence of the mechanical mathematico descriptive and occultist patterns in the physics and cosmology of Isaac Newton

**Kabbalistic Revolution** Hartley Lachter, 2014-11-01 The set of Jewish mystical teachings known as Kabbalah are often imagined as timeless texts teachings that have been passed down through the millennia Yet as this groundbreaking new study shows Kabbalah flourished in a specific time and place emerging in response to the social prejudices that Jews faced Hartley Lachter a scholar of religion studies transports us to medieval Spain a place where anti-Semitic propaganda was on the rise and Jewish political power was on the wane Kabbalistic Revolution proposes that given this context Kabbalah must be understood as a radically empowering political discourse While the era's Christian preachers claimed that Jews were blind to the true meaning of scripture and had been abandoned by God the Kabbalists countered with a doctrine that granted Jews a uniquely privileged relationship with God Lachter demonstrates how Kabbalah envisioned this increasingly marginalized group at the center of the universe their mystical practices serving to maintain the harmony of the divine world For students of Jewish mysticism Kabbalistic Revolution provides a new approach to the development of medieval Kabbalah Yet the book's central questions should appeal to anyone with an interest in the relationships between religious discourses political struggles and ethnic pride

**Transhumanism** Scott D de Hart, Joseph P. Farrell, 2012-11-06 The ultimate question

is no longer who am I or why am I here These questions were answered in the earliest civilizations by philosophers and priests Today we live in an age of such rapid advances in technology and science that the ultimate question must be rephrased what shall we be This book investigates what may become of human civilization who is setting the agenda for a trans humanistic civilization and why The modern Victor Frankenstein holds a high political office carries diplomatic immunity and is most likely funded by the largest corporations worldwide His method is ancient alchemy His fraternities are well known and their secrets are well kept but his goal of times past and present is the same he dares to become as god genetically manipulating the seeds of the earth the beasts on the fields and to claim legal ownership over humanity by re creating it in his own image This is no fairy tale science fiction or conspiracy theory it simply is Transhumanism a Grimoire of Alchemical Agendas by Dr s Joseph P Farrell and Scott D de Hart lifts the veil from the macabre transhumanistic monster being assembled and exposes the hidden history and agenda that has set humanity on a collision course for the Apocalypse Joseph P Farrell is the author of the best selling Genes Giants Monsters and Men The Surviving Elites of the Cosmic War and Their Hidden Agenda **Chemical Heritage** ,2006 *The Black Books* C. recognition Beckh writes about such topics as Isis the Golden Fleece traditional fairy stories and Wagner's Parsifal in a way that enables the reader to catch glimpses of the Mystery of Substance to share the writer's authentic experience of the divine substantia the living reality of Christ in the world Beckh's Alchymy set an entirely new standard and went on to become his most popular publication This is the first time that it has been translated into English along with updated footnotes making his ideas and insights accessible to a wide readership In addition this edition features translations of Beckh's The New Jerusalem where theology could best be expressed in verse his exemplary essay on Snow white observations on Allerleirauh and a substantial excerpt from Gundhild Kaer Bock's biography of Beckh     The Book of Splendor Frances
