## **The Law And Older Persons Is Geriatric Jurisprudence Therapeutic Paperback:**

**The Law and Older Persons** Marshall B. Kapp, 2003 Therapeutic Jurisprudence TJ is a way of exploring the ways in which the law in practice as opposed to theory can exert positive or negative effects on real people in actual situations This book applies the inquiries of TJ to the areas of geriatrics and gerontology focusing on facets of laws pertaining specifically to older persons in the United States Through a series of thoroughly referenced chapters mixing analytic discussion and case examples Kapp asks such questions as Is legal involvement and intervention in the lives of older persons a good thing for both the intended beneficiaries and society as a whole What is therapeutic jurisprudence and why is it relevant to older Americans What is the intent of the laws pertaining to older persons in such contexts as nursing home and home health care regulation end of life medical decision making regulation of research involving older persons as human subjects the role of consumer choice and control for older persons in selecting among health plans and directing their own long term care guardianship and other interventions for the incapacitated aged employment retirement age discrimination and the professional liability tort system Most importantly when regulation fails what are our best alternatives as advocates for the elderly and for our future selves This book should be a must read for legislators and policy makers dealing with the elderly Advocacy groups for the elderly would also be well served to read this book Margaret Davino Care Management Journals

Handbook of Theories of Aging Merrill Silverstein, Vern L. Bengtson, Vern L. Bengtson, PhD, Norella Putney, Daphna Gans, 2008-10-27 The field of gerontology has often been criticized for being data rich but theory poor The editors of this book address this issue by stressing the importance of theory in gerontology While the previous edition focused on multidisciplinary approaches to aging theory this new edition provides cross disciplinary integrative explanations of aging theory The contributors of this text have reached beyond traditional disciplinary boundaries to partner with researchers in adjacent fields in studying aging and age related phenomena This edition of the Handbook consists of 39 chapters written by 67 internationally recognized experts in the field of aging It is organized in seven sections reflecting the major theoretical developments in gerontology over the past 10 years Special Features Comprehensive coverage of aging theory focusing on the biological psychological and social aspects of aging A section dedicated to discussing how aging theory informs public policy A concluding chapter summarizing the major themes of aging and offering predictions about the future of theory development Required reading for graduate students and post doctoral fellows this textbook represents the current status of theoretical development in the study of aging *Capacity Assessment and the Law* Kelly Purser, 2017-05-22 This book discusses theoretical issues standards and professional considerations arising when legal and health practitioners undertake legal capacity assessments in the context of wills enduring powers of attorney and advance health directives The potential loss of cognition can erode autonomy as individuals lose the ability to make their own legally recognised decisions This is an inescapable problem with significant legal social health and policy repercussions This work synthesises and critically

analyses the existing literature including some of the best assessment models and guiding principles internationally to generate a new methodology and understanding of what capacity assessment best practice means This includes the impact of assessments on individual autonomy the ideal method building upon respect for both autonomy as well as fundamental human rights The triggers to assess capacity who to involve in the assessment process as well as how to conduct that assessment process are discussed The crucial relationship between the legal and health professionals involved in assessments including growing concerns around practitioner liability is also explored This analysis is undertaken through the innovative use of a therapeutic jurisprudence lens the effect of which is to contribute new knowledge to this complex field

**Theories on Law and Ageing** Israel Doron, 2008-09-25 This book is about trying to answer questions These questions were well introduced by Prof Margaret Hall in the opening of her chapter in this book The fundamental idea of law and aging as a discrete category of legal principle and theory is controversial how and why are older adults or seniors or elders the very terminology is controversial and fraught with difficulties a discrete and distinct group for whom special legal thought and treatment is justified For some a category of law and aging is inherently paternalistic suggesting that older persons are like children especially in need of the protection of the law In this sense the argument continues the category itself internalizes ageist presumptions about older adults and is therefore inherently flawed and even harmful If certain older adults are because of physical or mental infirmities genuinely in need of an enhanced level of legal protection this entitlement should be conceptualized in terms of their disability older adults are not a distinct group but an arbitrarily delineated demographic category which contains within it any number of groups that are legitimately distinct for the purposes of legal theory the disabled women persons of colour Aboriginal persons rich and poor etc Indeed the artificial category of older adults may be seen as obfuscating submerging these more meaningful distinctions
