## **The Legacy Of Paradise Marriage Motherhood And Woman In Carolingian Edifying Literature:**

The Legacy of Paradise Katrien Heene, 1997 Within the framework of the Carolingian religious and moral reform 750-900 various measures were taken which had direct or indirect implications for the experience of sexuality among the laity as well as among the religious. Those and other measures also influenced the position of women both in the Church and in the world. Taking the Church Fathers as points of reference, this book offers a detailed analysis of the view of marriage, sexuality, motherhood and women as constructed in Latin edifying writings of the time, i.e. hagiographical texts, moral treatises and sermons. By studying the ideas and opinions of the male religious authors of these texts, the author aims to examine whether and if so to what extent the attitude of the Carolingian Church was inspired by feelings of misogyny and misogamy. In writings addressing the lay public, such feelings may have been hidden for pastoral reasons. Therefore, attention was more particularly paid to the presence of misogyny and misogamy in texts which were chiefly written for religious readers. In the last analysis, the overall attitude towards women-related matters turns out to be different and in many respects more positive than the one found in the writings of the Fathers and of many medieval male religious authors. To explain this phenomenon, the author puts forward a number of socio-cultural and psychological arguments.

Images of Medieval Sanctity Debra Higgs Strickland, 2007-01-01 This volume's essays together provide a rich investigation of the idea of sanctity and its many medieval manifestations across time, fifth through fifteenth centuries and in different geographical locations: England, Scotland, France, Italy, the Low Countries, from multiple disciplinary perspectives.

Women and Aristocratic Culture in the Carolingian World Valerie Garver, 2012-04-20 Despite the wealth of scholarship in recent decades on medieval women, we still know much less about the experiences of women in the early Middle Ages than we do about those in later centuries. In *Women and Aristocratic Culture in the Carolingian World*, Valerie L. Garver offers a fresh appraisal of the cultural and social history of eighth and ninth-century women. Examining changes in women's lives and in the ways others perceived women during the early Middle Ages, she shows that lay and religious women, despite their legal and social constrictions, played integral roles in Carolingian society. Garver's innovative book employs an especially wide range of sources, both textual and material, which she uses to construct a more complex and nuanced impression of aristocratic women than we've seen before. She looks at the importance of female beauty and adornment, the family and the construction of identities and collective memory, education and moral exemplarity, wealth, hospitality and domestic management, textile work and the lifecycle of elite Carolingian women. Her interdisciplinary approach makes deft use of canons of church councils, chronicles, charters, polyptychs, capitularies, letters, poetry, exegesis, liturgy, inventories, hagiography, memorial books, artworks, archaeological remains and textiles. Ultimately, *Women and Aristocratic Culture in the Carolingian World* underlines the centrality of the Carolingian era to the reshaping of antique ideas and the development of lasting social norms.

**Motherhood, Religion, and Society in Medieval Europe, 400-1400** Lesley Smith, Conrad Leyser, 2016-04-22 Who can concentrate on thoughts of

Scripture or philosophy and be able to endure babies crying Will he put up with the constant muddle and squalor which small children bring into the home The wealthy can do so but philosophers lead a very different life So according to Peter Abelard did his wife Heloise state in characteristically stark terms the antithetical demands of family and scholarship Heloise was not alone in making this assumption Sources from Jerome onward never cease to remind us that the life of the mind stands at odds with life in the family For all that we have moved in the past two generations beyond kings and battles fiefs and barons motherhood has remained a blind spot for medieval historians Whatever the reasons the result is that the historiography of the medieval period is largely motherless The aim of this book is to insist that this picture is intolerably one dimensional and to begin to change it The volume is focussed on the paradox of motherhood in the European Middle Ages to be a mother is at once to hold great power and by the same token to be acutely vulnerable The essays look to analyse the powers and the dangers of motherhood within the warp and weft of social history beginning with the premise that religious discourse or practice served as a medium in which mothers and others could assess their situation defend claims and make accusations Within this frame three main themes emerge survival agency and institutionalization The volume spans the length and breadth of the Middle Ages from late Roman North Africa through ninth century Byzantium to late medieval Somerset drawing in a range of types of historian including textual scholars literary critics students of religion and economic historians The unity of the volume arises from the very diversity of approaches within it all addressed to the central topic Religious Women in Early Carolingian Francia Felice Lifshitz, 2014-05-01 Religious Women in Early Carolingian Francia a groundbreaking study of the intellectual and monastic culture of the Main Valley during the eighth century looks closely at a group of manuscripts associated with some of the best known personalities of the European Middle Ages including Boniface of Mainz and his beloved abbess Leoba of Tauberbischofsheim This is the first study of these Anglo Saxon missionaries to Germany to delve into the details of their lives by studying the manuscripts that were produced in their scriptoria and used in their communities The author explores how one group of religious women helped to shape the culture of medieval Europe through the texts they wrote and copied as well as through their editorial interventions Using compelling manuscript evidence she argues that the content of the women's books was overwhelmingly gender egalitarian and frequently feminist i.e. resistant to patriarchal ideas This intriguing book provides unprecedented glimpses into the feminist consciousness of the women's and mixed sex communities that flourished in the early Middle Ages *Morality and Masculinity in the Carolingian Empire* Rachel Stone, 2011-10-20 What did it mean to be a Frankish nobleman in an age of reform How could Carolingian lay nobles maintain their masculinity and their social position while adhering to new and stricter moral demands by reformers concerning behaviour in war sexual conduct and the correct use of power This book explores the complex interaction between Christian moral ideals and social realities and between religious reformers and the lay political elite they addressed It uses the numerous texts addressed to a lay audience including lay mirrors secular poetry political polemic historical

writings and legislation to examine how biblical and patristic moral ideas were reshaped to become compatible with the realities of noble life in the Carolingian empire This innovative analysis of Carolingian moral norms demonstrates how gender interacted with political and religious thought to create a distinctive Frankish elite culture presenting a new picture of early medieval masculinity

**Women in the Piast Dynasty** Grzegorz Pac, 2022-03-07 This book analyses the role of women in the Polish Piast dynasty from c 965 to c 1144 It discusses gender expectations and the literary topoi employed to describe rulers wives and daughters as well as showing their importance in religious donations the creation of dynastic memory and naming patterns as well as examining Piast women's involvement in female monasticism Pac takes a comparative approach to these themes analysing Polish sources alongside sources from other areas of early and high medieval Europe

Carolingian Catalonia Cullen J. Chandler, 2019-01-10 Drawing on a range of evidence related to royal authority political events and literate culture this study traces how kings and emperors involved themselves in the affairs of the Spanish March and examines how actively people in Catalonia participated in politics centred on the royal court Rather than setting the political development of the region in terms of Catalonia's future independence as a medieval principality Cullen J Chandler addresses it as part of the Carolingian experiment In doing so he incorporates an analysis of political events alongside an examination of such cultural issues as the spread of the Rule of

Benedict the Adoptionist controversy and the educational programme of the Carolingian reforms This new history of the region offers a robust and absorbing analysis of the nature of the Carolingian legacy in the March while also revising traditional interpretations of ethnic motivations for political acts and earlier attempts to pinpoint the constitutional birth of Catalonia

**Medieval Families** Carol Neel, Medieval Academy of America, 2004-01-01 The collection reveals how scholars of the 1970s through the 1990s argued the importance of previously unconsidered questions about the shape of medieval familial experience and how their mutual information and criticism has refined and added to this investigation in the intervening period

Reading Gender Felice Lifshitz, 2023-04-25 This collection brings together twelve essays published between 1988 and 2014 two of which are here translated into English from respectively their original French or German All the essays use gender as the main category of analysis whether of late ancient or early medieval texts or of modern medievalist films The historical studies of medieval Europe emphasize the use of manuscript level evidence that is actual sources from the period in question arguably this approach provides a more accurate understanding of the period than does work done on the basis of printed and edited sources Furthermore many of the manuscript based essays specifically exploit liturgical or liturgy adjacent materials this is an area of research and a type of manuscript that has rarely been approached through a gendered lens Meanwhile the

cinematic medievalism essays focus on the processes of remediation and adaptation searching specifically for points at which filmmaking teams diverged from their sources as evidence for the main goals of the films while also attending to production contexts and to reception The juxtaposition in a single collection of scholarship on medieval manuscripts and modern movies illustrates how period specialists can contribute to conversations in the field of historical film studies The book will be of interest to historians of women gender Christian liturgy medieval Europe medievalism and historical film CS 1110

*Representations of Eve in Antiquity and the English Middle Ages* John Flood, 2010-12-14 As the first woman Eve was the pattern for all her daughters The importance of readings of Eve for understanding how women were viewed at various times is a critical commonplace but one which has been only narrowly investigated This book systematically explores the different ways in which Eve was understood by Christians in antiquity and in the English Middle Ages and it relates these understandings to female social roles The result is an Eve more various than she is often depicted by scholars Beginning with material from the bible the Church Fathers and Jewish sources the book goes on to look at a broad selection of medieval writing including theological works and literary texts in Old and Middle English In addition to dealing with famous authors such as Augustine Aquinas Dante and Chaucer the writings of authors who are now less well known but who were influential in their time are explored The book allows readers to trace the continuities and discontinuities in the way Eve was portrayed over a millennium and a half and as such it is of interest to those interested in women or the bible in the Middle Ages

**Intersections of Gender, Religion and Ethnicity in the Middle Ages** C. Beattie, K. Fenton, 2010-11-24 This collection of essays focuses attention on how medieval gender intersects with other categories of difference particularly religion and ethnicity It treats the period c 800 1500 with a particular focus on the era of the Gregorian reform movement the First Crusade and its linked attacks on Jews at home [Making Early Medieval Societies](#) Kate Cooper, Conrad Leyser, 2016-01-21 Examines the fundamental question of what held the societies of the post Roman world together [Paradigms and Methods in Early Medieval Studies](#) C. Chazelle, F. Lifshitz, 2016-04-30 The articles in this volume by scholars all pursuing careers in the United States concern the theoretical approaches and methods of early medieval studies Most of the issues examined span the period from roughly 400 to 1000 CE and regions stretching from westernmost Eurasia to the Black Sea and the Baltic This is the first volume of essays explicitly to reassess the heuristic structures and methodologies of research on early medieval Europe Because of its geographic chronological thematic and methodological diversity and scope the collection also showcases the breadth of early medieval studies currently practiced in the United States
