Read to Succeed Joy Court, 2011-08-31 Concern about children's reading is an international issue highlighted by continuing OECD research. Government actions such as the priority given to reading in the review of the National Curriculum reflect current UK concern. Reading is an essential life skill not only for an individual's development and life chances but for social cohesion and a developed democracy. In an era of public spending cuts it is important to reflect upon the impact that libraries can have in growing readers for the future. This much needed book provides valuable evidence of successes so far both nationally and internationally and offers ideas for future development as well as inspiration for current practice. An edited collection contributed by expert practitioners it covers all aspects of promoting reading to and with children and young people from birth right through to teenage years including the following key topics: the importance of Bookstart; how children begin to read; creating young readers; literacy libraries and literature in New Zealand; the Summer Challenge in libraries; Stockport does Book Idol; restoring reading to the classroom; promoting excellence; shadowing the CILIP Carnegie and Kate Greenaway medals; local book awards; the sport of reading; libraries and partnerships; the hard to reach reader in the 21st century; creative reading; Readership; Offering future scoping for managers and aiming to inspire partnership and cooperation; this will be invaluable reading for practitioners and students of librarianship in both the public and school sectors. It will also be of great interest to all teachers, consultants and educators concerned with literacy and reading and to policy makers in both the school and library sectors. Encyclopedia of American Popular Fiction Geoff Hamilton, Brian Jones, 2015-04-22 Provides information on American authors and their works who have been ignored by most literary guides.

What's Black and White and Reid All Over? Rob Reid, 2012-01-27 Reid shows you how to share humor with children in order to connect them to literature and imagination. The programs and the books he uses are kid tested and ready for you to share. *Humor in Contemporary Junior Literature* Julie Cross, 2010-12-14 In this new book Julie Cross examines the intricacies of textual humor in contemporary junior literature using the tools of literary criticism and humor theory. Cross investigates the dialectical paradoxes of humor and debunks the common belief in oppositional binaries of simple versus complex humor. The varied combinations of so called high and low forms of humor within junior texts for young readers who are at such a crucial stage of their reading and social development provide a valuable commentary upon the culture and values of contemporary western society making the book of considerable interest to scholars of both children's literature and childhood studies. Cross explores the ways in which the changing content forms and functions of the many varied combinations of humor in junior texts including the Lemony Snickett series reveal societal attitudes towards young children and childhood. The new compounds of seemingly paradoxical high and low forms of humor in texts for developing readers from the 1960s onwards reflect and contribute to contemporary society's hesitant and uneven acceptance of the emergent paradigm of children's rights, abilities, participation and empowerment. Cross identifies four types of potentially subversive

transgressive humor which have emerged since the 1960s which coupled with the three main theories of humor relief superiority and incongruity theories enables a long overdue charting of developments in humor within junior texts Cross also argues that the gradual increase in the compounding of the simple and the complex provide opportunities for young readers to play with ambiguous complicated ideas helping them embrace the complexities and contradictions of contemporary life
