Pitt Byrne, 1869 *Krishna-cult in Indian Art* Sunil Kumar Bhattacharya, 1996 The place of Krishna in Indian Art has remained obscured for many years until a parallelism was made by J Kennedy in the years 1913 17 in the Journal of the Royal Asiatic Society in which the similarity of Krishna and Christ was suggested However this book explodes that theory and expounds the myth of the legendary Krishna and establishes the

origin and development of the most important God of the Hindu Pantheon Thus the iconography and stylistic development of Krishna explodes all the prevalent theories and categorically proves the importance of Krishna in Indian art The subject of the book is explicitly the representation of Krishna in Indian sculpture and painting However such an art historical study has necessitated a good deal of discussion of the legend itself for the sake of understanding the iconography

*The Legend of Guy of Warwick* Velma Bourgeois Richmond,2021-11-18 First published in 1996 This lavishly illustrated study is a comprehensive literary and social history which offers a record of changing genres manuscript book production and cultural political and religious emphases by examining one of the most long lived popular legends in England Guy of Warwick became part of history when he was named in chronicles and heraldic rolls The power of the Earls of Warwick especially Richard de Beauchamp inspired the spread of the legend but Guy's highest fame came in the Renaissance as one of the Nine Worthies Widely praised in texts and allusions Guy's feats were sung in ballads and celebrated on the stage in England and France The first Anglo Norman romance of Gui de Warewic a Saxon hero of the tenth century was written in the early 13th century the latest retellings of the legend are contemporary Examples of Guy's legend can be found in two English translations that survived the Middle Ages a new French prose romance a didactic tale in the *Gesta Romanorum* and late medieval versions in Celtic German and Catalan as well as English Guy remained a favorite Edwardian children's story and was featured in the Warwick Pageant an historical extravaganza of 1906 The patriotism of World War II sparked a resurgence of interest that produced several new versions mostly folkloric

Power and Image in Early Modern Europe Jessica Goethals,Valerie McGuire,2009-05-27 Are images and spectacles fundamental mediators of power relationships in the West This book draws upon the language of cultural studies to investigate a contemporary hypothesis in the shifting ideological landscape of early modern Europe Apparently aesthetic choices by artists may also have been the means to consolidate and subvert institutionalized or non institutionalized bodies of power Meanwhile communities in Europe reacted to the intrinsic power of the image in literature and letters commenting upon both its use and abuse Both diachronic and geographic connections are made among disparate but important moments of image making in the twelfth

through seventeenth centuries The influence of Descartes is traced from La Rochefoucauld and the communal spectacles of the Ancien Régime salon to the Netherlands and Rembrandt's sketch *Death of the Virgin* Shakespeare bears similar anxieties about Joan of Arc's transgression of gender boundaries in *Henry VI* as does Castiglione's *Courtier* when serving the Renaissance Prince Spenser's dilemma about the non difference between fiction and history resolves itself in the same way as does the Byzantine rejection of iconoclasm Other articles in the collection examine anomie in Vatican frescoes by Giorgio Vasari corporeal decay and the supernatural as spectacle on the early modern English stage and affective self perception and subjectivity in the scoring of Italian opera not as just a conference volume but as an organic group of essays on early modernity The essays span an impressive number of cultures from Byzantium to England Italy and Spain to the Netherlands and theorize the image from a number of disciplinary vantage points Not surprisingly art history and theatre are well represented but so are music history and literary studies Most of the essays are short but sufficiently developed to allow for thoughtful arguments on the status of the visual in early modern culture on the stage on the page and as artistic and musical representation they do deliver fine close readings and leave me sufficiently intrigued to want to return to or familiarize myself with the original texts I come away from this collection encouraged about the state of graduate studies in Europe and North America Jane Tylus Professor of Italian and Comparative Literature and Vice Provost for Academic Affairs New York University The essays are interdisciplinary and touch upon many themes that lie outside my own field of specialization I was therefore surprised and pleased to find them not only original and instructive but also inviting and accessible to the non specialist Although they range far with respect to chronology and theoretical suppositions they are coherently united in their concern for the functioning of the image in the conservation revision or critique of socio political power in their respective cultural contexts I will mention three essays representing three different fields as striking examples of disparate images used to consolidate reconstruct or overthrow the dominant powers of their times Kathryn Falzareno's essay *Mother's Milk and Deborah's Sword* is a close reading of Shakespeare's portrayal of Joan of Arc in *Henry VI* It is a close analysis of the paradoxical status of Joan Saint of the French strumpet for the English Christian warrior maiden contrasting with Deborah in the Ancient Testament The dominant and totally unexpected image which brings together the contradictions embodied by Joan are the breasts the source of nurture in the figure of Mary but an encumbrance for the mythological amazons who removed one breast to facilitate their use of the bow Ljubica Ilic's *Echo and Narcissus Labyrinths of the Self* is an elegant reading of echo music the apparently impossible translation of the Ovidian story into music and opera Ovid's story represents the nymph Echo as the auditory equivalent of Narcissus reflection echoing sound as reflecting light Ovid's echo myth undoubtedly influenced opera by Jacopo Peri during the time of the Medici and then Monteverdi in the musical setting of *Orfeo* Finally Elissa Auerbach's *Taking Mary's Pulse Cartesianism and Modernity in Rembrandt's Death of the Virgin* is a brilliant commentary on the Dutch painter's rendering of an ancient theme the dormition of the Virgin but at the center of

the painting is the figure of a physician taking the pulse of her limp hand The intrusion of this scientific element in the ancient iconography of the event of Mary's death is the unmistakable sign of the wave of modernity that swept over the Netherlands with the popularity of Cartesian philosophy and science John Freccero Professor of Italian and Comp Lit NYU
