Additions to the Rhaeto-Romantic Collection Cornell University. Libraries,1896 From Oligarchy to Republicanism
Forrest A. Nabors,2017-12-19 On December 4 1865 members of the 39th United States Congress walked into the Capitol Building to begin their first session after the end of the Civil War They understood their responsibility to put the nation back on the path established by the American Founding Fathers The moment when the Republicans in the Reconstruction Congress remade the nation and renewed the law is in a class of rare events The Civil War should be seen in this light In From Oligarchy to Republicanism The Great Task of Reconstruction Forrest A Nabors shows that the ultimate goal of the Republican Party the war and Reconstruction was the same This goal was to preserve and advance republicanism as the American founders understood it against its natural existential enemy oligarchy The principle of natural equality justified American republicanism and required abolition and equal citizenship Likewise slavery and discrimination on the basis of color stand on the competing moral foundation of oligarchy the principle of natural inequality which requires ranks The effect of slavery and the division of the nation into two opposite systems of civilization are causally linked Charles Devens a lawyer who served as a general in the Union Army and his contemporaries understood that slavery s existence transformed the character of political society One of those dramatic effects was the increased power of slaveowners over those who did not have slaves When the slave state constitutions enumerated slaves in apportioning representation using the federal three fifths ratio or by other formulae intra state sections where slaves were concentrated would receive a substantial grant of political power for slave ownership In contrast low slave owning sections of the state would lose political representation and political influence over the state This contributed to the non slaveholders loss of political liberty in the slave states and provided a direct means by which the slaveholders acquired and maintained their rule over non slaveholders This book presents a shared analysis of the slave South synthesized from the writings and speeches of the Republicans who served in the Thirty Eighth Thirty Ninth or Fortieth Congress from 1863 1869 The account draws from their writings and speeches dated before during and after their service in Congress Nabors shows how the Republican majority charged with the responsibility of reconstructing the South understood the South Republicans in Congress were generally united around the fundamental problem and goal of Reconstruction They regarded their work in the same way as they regarded the work of the American founders Both they and the founders were engaged in regime change from monarchy in the one case and from oligarchy in the other to republicanism The insurrectionary states governments had to be reconstructed at their foundations from oligarchic to republican The sharp differences within Congress pertained to how to achieve that higher goal **Our Library** Library Association (Portland, Or.),Library Association of Portland,1913 **Bulletin** ,1896 **The Library Bulletin of Cornell University** ,1896 Library Bulletin of Cornell University Cornell University. Lincoln's Way Richard Striner, 2010-09-16 The debate is as old as the American Republic and as current as this morning's headlines Should a president employ the powers of the federal government to advance our national development and increase the influence and power of the United States around the world Under what circumstances What sort of balance should the president achieve between competing visions and values on the path to change Over the course of American history why have some presidents succeeded brilliantly in applying their power and influence while others have failed miserably In *Lincoln's Way* historian Richard Striner tells the story of America's rise to global power and the presidential leaders who envisioned it and made it happen From Abraham Lincoln to Theodore Roosevelt within the Republican Party the legacy was passed along to FDR the Democratic Roosevelt who bequeathed it to Harry S Truman Dwight D Eisenhower and John F Kennedy Six presidents three from each party helped America fulfill its great potential Their leadership spanned the huge gulf that exists between our ideological cultures they drew from both conservative and liberal ideas thus consolidating powerful centrist governance No creed of mere government for government's sake their program was judicious it used government for national necessities But it also brought inspiring results thus refuting the age old American ultra libertarian notion that the government that governs best governs least In a forceful narrative blending intellectual history and presidential biography Striner presents the legacy in full An important challenge to conventional wisdom *Lincoln's Way* offers both an intriguing way of looking at the past and a much needed lens through which to view the present As a result the book could change the way we think about the future
