The Light Of The Mind St Augustines Theory Of Knowledge:

The Light of the Mind Ronald H. Nash,1969 St Augustine is the bridge that links ancient philosophy and early Christian theology to the thought patterns of the Middle Ages But the influence of Augustine s philosophy in general and his epistemology in particular extends far beyond medieval philosophy Such modern philosophers as Descartes and Malebranche carry the stamp of Augustinism upon their philosophies What is not so well known is that even some of the most original ideas of Berkeley and Kant can be found anticipated in Augustine **The Light of the Mind** Ronald H. Nash,1989

Access to God in Augustine's Confessions Carl G. Vaught,2012-02-01 This is the final volume in Carl G Vaught s groundbreaking trilogy reappraising Augustine s *Confessions* a cornerstone of Western philosophy and one of the most influential works in the Christian tradition Vaught offers a new interpretation of the philosopher as less Neoplatonic and more distinctively Christian than most interpreters have thought In this book he focuses on the most philosophical section of the *Confessions* and on how it relates to the previous more autobiographical sections A companion to the previous two volumes which dealt with Books I IX this book can be read either in sequence with or independently of the others Books X XIII of the *Confessions* begin after Augustine has become Bishop of Hippo and they are separated by more than ten years from the episodes recorded in the previous nine books of the text This establishes the narrative in the present and speaks to the believing sons of men Augustine explores how memory time and creation make the journey toward God and the encounter with God possible Vaught analyzes these conditions in order to unlock Augustine s solutions to familiar philosophical and theological problems He also tackles the frequently discussed problem of the alleged disconnection between the earlier books and the last four books by showing how Augustine binds experience and reflection together

Augustine's Philosophy of Mind Gerard J. P. O'Daly,1987-01-01 *The Reality of the Mind* Ludger Hölscher,2013-05-02 Among the various approaches to the question of the nature of the mind or soul Augustine s philosophical arguments for the existence of an incorporeal and spiritual substance in man and against materialism are here thoroughly examined on their merits as a source of insight for contemporary discussion This book originally published in 1986 employs Augustine s method of introspection and argues that as a philosopher Augustine can teach the modern mind how to detect the reality of such a spiritual subject in and through basic human acts and faculties such as imagination memory knowledge free will and self knowledge It presents a critical dialogue with various materialistic anthropologies directly addressed by Augustine himself or those which have arisen at later periods including epiphenomenalism mind brain identity theory Marxism and others **To Know God and the Soul** Roland J. Teske,2008-02 *To Know God and the Soul* presents a collection of essays on Augustine of Hippo written over the past twenty five years by renowned philosopher Roland Teske *The T&T Clark Companion to Augustine and Modern Theology* C.C. Pecknold,Tarmo Toom,2013-08-15 A companion to the influence of St Augustin on modern theology and the response to his work from contemporary thinkers

Boccaccio the Philosopher Filippo Andrei, 2017-10-07 This book explores the tangled relationship between literary production and epistemological foundation as exemplified in one of the masterpieces of Italian literature Filippo Andrei argues that Giovanni Boccaccio's Decameron has a significant though concealed engagement with philosophy and that the philosophical implications of its narratives can be understood through an epistemological approach to the text He analyzes the influence of Dante Petrarch Thomas Aquinas Aristotle and other classical and medieval thinkers on Boccaccio's attitudes towards ethics and knowledge seeking Beyond providing an epistemological reading of the Decameron this book also evaluates how a theoretical reflection on the nature of rhetoric and poetic imagination can ultimately elicit a theory of knowledge

The Mystery of Union with God Bernhard Blankenhorn, 2015 The Mystery of Union with God offers the most extensive systematic analysis to date of how Albert and Thomas interpreted and transformed the Dionysian Moses who knows God by unknowing It shows Albert's and Thomas's philosophical and theological motives to place limits on Dionysian apophatism and to reintegrate mediated knowledge into mystical knowing The author surfaces many similarities in the two Dominicans mystical doctrines and exegesis of Dionysius This work prepares the way for a new consideration of Albert the Great as the father of Rhineland Mysticism The original presentation of Aquinas's theology of the Spirit's seven gifts breaks new ground in theological scholarship Finally the entire book lays out a model for the study of mystical theology from a historical philosophical and doctrinal perspective

Prayer after Augustine Jonathan D. Teubner, 2018-01-05 The influence of the theology and philosophy of Augustine of Hippo on subsequent Western thought and culture is undisputed Prayer after Augustine A Study in the Development of the Latin Tradition argues that the notion of the Augustinian tradition needs to be rethought and that already in the generation after Augustine in the West such a rethinking is already and richly manifest in more than one influential form In this work Jonathan D Teubner encourages philosophical moral and historical theologians to think about what it might mean that the Augustinian tradition formed in a distinctively Augustinian fashion and considers how this affects how they use discuss and evaluate Augustine in their work This is exemplified by Augustine's reflections on prayer and how they were taken up modified and handed on by Boethius and Benedict two critically influential figures for the development of Latin medieval philosophical and theological cultures Teubner analyses and exemplifies the particular theme of prayer and the other topics it constellates in Augustine and to show how it already forms a distinctively Augustinian concept of tradition that was to prove to have fascinatingly diverse manifestations Part I traces the development of Augustine's understanding of prayer Patience and hope as articulated in prayer sit at the centre of Augustine's understanding of Christian existence In Part II Teubner turns to suggest how this is picked up by Boethius and Benedict

Six Modern Authors and Problems of Belief Patrick Grant, 1979-06-17

Descartes' Meditative Turn Christopher J. Wild, 2024-03-19 Why would Ren Descartes the father of modern rationalist philosophy choose meditations a term and genre associated with religious discourse and practice for the title of his magnum opus that lays the metaphysical foundations for his reform of all

knowledge including mathematics and sciences Why did he believe that the immortality of the soul and the existence of God which the *Meditations on First Philosophy* set out to demonstrate can only be made self evident through meditating These are the question that Christopher Wild's book answers Descartes discovered the foundations of a marvelous science through a dramatic conversion in southern Germany in the winter of 1619 The spiritual and cognitive exercises derived from ancient philosophy and the Christian meditative tradition which Descartes deployed in the *Meditations* enable readers to discover metaphysical truths with the same degree of self evidence with which Descartes did during his own conversion Descartes meditative turn Wild argues brings to a culmination a lifelong preoccupation with the practice or craft of thinking known as Cartesian method By joining meditation to method the *Meditations* becomes the founding document for a Cartesian art of turning a new practice of both thought and life

The Stoic Tradition from Antiquity to the Early Middle Ages Marcia L. Colish, 1990 Volume one Stoicism in classical Latin literature 09327 3 approaches its subject from the standpoint of intellectual history examining how Stoicism was used by Roman thinkers for what purposes and how they correlated it with their other sources Volume two Stoicism in Christian Latin thought through the sixth century 09328 1 focuses on how a particular Latin Christian author used Stoic ideas to what ends and how they were associated in his mind with the other doctrines he had to work with Annotation copyrighted by Book News Inc Portland OR

Augustine and Academic Skepticism Blake D. Dutton, 2016-02-25 Among the most important but frequently neglected figures in the history of debates over skepticism is Augustine of Hippo 354 430 CE His early dialogue *Against the Academics* together with substantial material from his other writings constitutes a sustained attempt to respond to the tradition of skepticism with which he was familiar This was the tradition of Academic skepticism which had its home in Plato's Academy and was transmitted to the Roman world through

the writings of Cicero 106 43 BCE Augustine and Academic Skepticism is the first comprehensive treatment of Augustine's critique of Academic skepticism In clear and accessible prose Blake D Dutton presents that critique as a serious work of philosophy and engages with it precisely as such While Dutton provides an extensive review of Academic skepticism and Augustine's encounter with it his primary concern is to articulate and evaluate Augustine's strategy to discredit Academic skepticism as a philosophical practice and vindicate the possibility of knowledge against the Academic denial of that possibility In doing so he sheds considerable light on Augustine's views on philosophical inquiry and the acquisition of knowledge

Contemplation and Classical Christianity John Peter Kenney, 2013-11-22 After resolving to become a Catholic Christian Augustine spent a decade trying to clarify his understanding of contemplation the interior presence of God to the soul That long struggle yielded his classic account in the Confessions This study explores Augustine's developing understanding of contemplation beginning with his earliest accounts written before his baptism and ending with the Confessions Chapter One examines the pagan monotheism of the Roman Platonists and the role of contemplation in their theology Augustine's pre baptismal writings are then considered in Chapter Two tracking his fundamental break from pagan Platonism Chapter Three then turns to Augustine's developing understanding of contemplation in these pre baptismal texts Chapter Four concentrates on Augustine's thought during the decade after his baptism in 387 a period that encompasses his monastic life in Thagaste and his years first as a presbyter and then as a bishop in Hippo Regius This chapter follows the arc of Augustine's thought through these years of transition and leads into the Confessions giving a vantage point to survey its theology of contemplation Chapter Five concentrates on the Confessions and sets its most famous account of contemplation the vision at Ostia from Book IX into a larger polemical context Augustine's defence of his transcendental reading of scripture in Confessions XII is analysed and then used to illuminate the Ostian ascent narrative The book concludes with observations on the importance of Augustine's theology of contemplation to the emergence of Christian monotheism in late antiquity

Worldviews in Conflict Ronald H. Nash, 2010-08-10 This world is a battlefield in the arena of ideas The prize is the heart and mind of humankind In this book Ronald Nash outlines the Christian way of looking at God self and the world He holds that worldview up against the tests of reason logic and experience particularly discussing the problems of evil and the alleged nonsense of the historic Christian doctrines and of Jesus incarnation and resurrection He finds the Christian worldview sound and urges Christians to equip themselves intellectually to defend the faith on that battlefield He particularly hits the attractions to our generation of naturalism and the New Age movement pointing out their weaknesses and pitfalls as well as those of older worldviews Christian theism he writes is a system that commends itself to the whole person but he stresses that a great difference exists between belief that and belief in

Theology and the Problem of Evil Kenneth Surin, 2004-10-29 One of the most profound problems that theologians are called on to address is the presence of evil and suffering in the world and how this can be reconciled with the assertion of an omnipotent and morally perfect God This book

begins by showing how the problem of evil has been inextricably bound up with the problematic deity created by the philosophical theism of the Enlightenment and perpetuated ever since demonstrating how contemporary theodacists have failed to perceive the historical and cultural determinants which affect their theorizing Dr Surin argues that thinking on the problem of evil consists of two fundamental perspectives He labels these the theoretical and the practical approaches and examines the work of a number of theologians who typify each Alvin Plantinga Richard Swinburne the process theologians and John Hick exemplify the theoretical approach Dorothee Soelle Jurgen Moltmann and P T Forsyth the practical He uses the views of Dostoevsky's character Ivan Karamazov and the protagonists in Elie Wiesel's writing as a paradigm for evaluating the two approaches and concludes that only the practical approach has the merit of both rooting itself in the realities of human suffering and grounding itself in the fundamental rule of what he calls an adequate grammar of salvation namely that God justifies himself by justifying sinners on the cross Finally Dr Surin explores this grammar of the notion of an incarnate salvation with particular reference to the need for a messianic and practical solidarity with those who are afflicted This thought provoking book will serve both as an introduction to those new to the ideas of theodicy and as a stimulating essay for those dissatisfied with conventional studies of theology and the problem of evil *Augustine and Psychology* Sandra Dixon, John Doody, Kim Paffenroth, 2012-12-21 The essays in *Augustine and Psychology* edited by Sandra Lee Dixon John Doody and Kim Paffenroth relate St Augustine to the modern theory and practice of psychology in several ways The contributors analyze Augustine's own examination of himself and occasionally others to see to what extent he himself was a doctor or practiced therapy in ways that we can recognize and appreciate they find connections between his theories of memory and mind and modern theories of the same they consider the influences and context in which he worked and how those affected him and his ideas of the mind and soul and lastly the contributors subject St Augustine to the scrutiny of modern psychoanalysis and critique such scrutiny where appropriate **Reason, Authority, and the Healing of Desire in the Writings of Augustine** Mark J. Boone, 2020-01-14 In *Reason Authority and the Healing of Desire in the Writings of Augustine* Mark Boone explains Augustine's theology of desire in a cross section of his writings He shows that Augustine's writings consistently teach a Platonically informed yet distinctively Christian theology of desire
