Ibn ‘Arabī’s Religious Pluralism Faris Abdel-hadi, 2024-12-20 This book marks a significant contribution to the debate around Ibn Arab’s religious pluralism focusing on his multifaceted approach to non Abrahamic religions For nearly eight hundred years the writings and ideas of the great Spanish Sufi master Ibn Arab have shaped Islamic intellectual and spiritual culture from North and West Africa and France on the one hand to Iran the Levant Central Asia and the Far East on the other Modern scholarship on the Greatest Master is consequently at an all time high This book weighs in on a well known aspect of his religious worldview namely his perspective on religious pluralism but does so from an entirely different angle Offering a very close reading of his major works newly translated by the author and paying particular attention to a highly developed celestial metaphor prompted by his encounter with a group of pagan sun worshippers the book offers new insights into the nature and scope of Ibn Arab’s understanding of Islamic inclusivism Ultimately the book contributes to our understanding of both interfaith dialogue and the history of world religions through the prism of Ibn Arab’s work The book will be of particular interest to students and scholars working in a range of fields including Islamic philosophy Sufism and intellectual history [Historia Religionum, Volume 2 Religions of the Present](#)

F. E. Peters, 2009-04-11 The world’s three great monotheistic religions have spent most of their historical careers in conflict or competition with each other And yet in fact they sprung from the same spiritual roots and have been nurtured in the same historical soil This book an extraordinarily comprehensive and approachable comparative introduction to these religions seeks not so much to demonstrate the truth of this thesis as to illustrate it Frank Peters one of the world’s foremost experts on the monotheistic faiths takes Judaism Christianity and Islam and after briefly tracing the roots of each places them side by side to show both their similarities and their differences Volume I The Peoples of God tells the story of the foundation and formation of the three monotheistic communities of their visible historical presence Volume II The Words and Will of God is devoted to their inner life the spirit that animates and regulates them Peters takes us to where these religions live their scriptures laws institutions and intentions how each seeks to worship God and achieve salvation and how they deal with their own orthodox and heterodox and with others the goyim the pagans the

infidels Throughout he measures but never judges one religion against the other The prose is supple the method rigorous This is a remarkably cohesive informative and accessible narrative reflecting a lifetime of study by a single recognized authority in all three fields The Monotheists is a magisterial comparison for students and general readers as well as scholars of the parties to one of the most troubling issues of today the fierce sometimes productive and often destructive competition among the world's monotheists the siblings called Jews Christians and Muslims *Ibn 'Arabî - Time and Cosmology* Mohamed Haj Yousef, 2014-04-04 This book is the first comprehensive attempt to explain Ibn Arabî's distinctive view of time and its role in the process of creating the cosmos and its relation with the Creator By comparing this original view with modern theories of physics and cosmology Mohamed Haj Yousef constructs a new cosmological model that may deepen and extend our understanding of the world while potentially solving some of the drawbacks in the current models such as the historical Zeno's paradoxes of motion and the recent Einstein Podolsky Rosen paradox EPR that underlines the discrepancies between Quantum Mechanics and Relativity **The Arabic Freud** Omnia El Shakry, 2017-08-29 The first in depth look at how postwar thinkers in Egypt mapped the intersections between Islamic discourses and psychoanalytic thought In 1945 psychologist Yusuf Murad introduced an Arabic term borrowed from the medieval Sufi philosopher and mystic Ibn Arabî al la shu'ur as a translation for Sigmund Freud's concept of the unconscious By the late 1950s Freud's Interpretation of Dreams had been translated into Arabic for an eager Egyptian public In The Arabic Freud Omnia El Shakry challenges the notion of a strict divide between psychoanalysis and Islam by tracing how postwar thinkers in Egypt blended psychoanalytic theories with concepts from classical Islamic thought in a creative encounter of ethical engagement Drawing on scholarly writings as well as popular literature on self healing El Shakry provides the first in depth examination of psychoanalysis in Egypt and reveals how a new science of psychology or science of the soul as it came to be called was inextricably linked to Islam and mysticism She explores how Freudian ideas of the unconscious were crucial to the formation of modern discourses of subjectivity in areas as diverse as psychology Islamic philosophy and the law Founding figures of Egyptian psychoanalysis she shows debated the temporality of the psyche mystical states the sexual drive and the Oedipus complex while offering startling insights into the nature of psychic life ethics and eros This provocative and insightful book invites us to rethink the relationship between psychoanalysis and religion in the modern era Mapping the points of intersection between Islamic discourses and psychoanalytic thought it illustrates how the Arabic Freud like psychoanalysis itself was elaborated across the space of human difference **Contemplation of the Holy Mysteries and the Rising of the Divine Lights** Muhyiddin Ibn 'Arabî, 2008 A major work of mystical literature this account focuses on 14 visions in the form of dramatic conversations with the divine interspersed with dazzling visionary episodes regarding the nature of existence humans relationship with reality and the way to achieve true happiness The introduction presents a resume of Ibn Arabî's life and examines in detail the style and symbolism of the contemplations Presented for the first time in English this work is a superb example of Ibn Arabî's

Christ Child Stephen J. Davis,2014-05-13 Little is known about the early childhood of Jesus Christ But in the decades after his death stories began circulating about his origins One collection of such tales was the so called Infancy Gospel of Thomas known in antiquity as the Paidika or Childhood Deeds of Jesus In it Jesus not only performs miracles while at play such as turning clay birds into live sparrows but also gets enmeshed in a series of interpersonal conflicts and curses to death children and teachers who rub him the wrong way How would early readers have made sense of this young Jesus In this highly innovative book Stephen Davis draws on current theories about how human communities construe the past to answer this question He explores how ancient readers would have used texts images places and other key reference points from their own social world to understand the Christ child s curious actions He then shows how the figure of a young Jesus was later picked up and exploited in the context of medieval Jewish Christian and Christian Muslim encounters Challenging many scholarly assumptions Davis adds a crucial dimension to the story of how Christian history was created
