The Metaphor Of God Incarnate Christology In A Pluralistic Age:

The Metaphor of God Incarnate John Hick, 1993-01-01 Debating Christian Theism J. P. Moreland, Chad V. Meister, Khaldoun A. Sweis, 2013-08-15

Comprising groundbreaking dialogues by many of the most prominent scholars in Christian apologetics and the philosophy of religion this volume offers a definitive treatment of central questions of Christian faith. The essays are ecumenical and broadly Christian in the spirit of C. S. Lewis's *Mere Christianity* and feature lucid and up to date material designed to engage readers in contemporary theistic and Christian issues. Beginning with dialogues about God's existence and the coherence of theism and then moving beyond generic theism to address significant debates over such specifically Christian doctrines as the Trinity and the resurrection of Jesus. *Debating Christian Theism* provides an ideal starting point for anyone seeking to understand the current debates in Christian theology.

Jesus in History, Thought, and Culture Leslie Houlden, 2003-12-08

This unique multidisciplinary study views Jesus as one of the most central figures in history with a wide ranging impact on society, literature, art and philosophy. *Jesus in History, Thought and Culture* distills 2 000 years of thinking about Jesus into two intriguing volumes. In more than 200 A-Z entries internationally recognized scholars summarize views of Jesus from the Gospel writers to contemporary theologians. Not only does the book explore Christian liturgy and worship including the long lasting 4th and 5th century schisms over whether Jesus is human or divine but it examines the position of Jesus in the traditions of other world religions such as Judaism, Islam and Hinduism. Even outside religion little has been untouched by Jesus's influence. Jesus affected social and political theory in his time and continues to do so today. The encyclopedia also explores his changing image in art, sculpture, music and literature, pulling disparate fields of study into one powerful resource. Scholars, students of theology and world religions and other interested readers will all welcome this unique resource.

Heavenly Bodies Ola Sigurdson, 2016-07-30

Deep and wide study of 2 000 years of Christian thought on the human body. Does Christianity scorn our bodies? Friedrich Nietzsche thought so and many others since him have thought the same. Ola Sigurdson contends to the contrary that Christianity understood properly in fact affirms human embodiment. Presenting his constructive contributions to theology in relation to both historical and contemporary conceptions of the body, Sigurdson begins by investigating the anthropological implications of the doctrine of the incarnation. He then delves into the concept of the gaze and discusses a specifically Christian gaze of faith that focuses on God embodied in Jesus. Finally he weaves these strands into a contemporary Christian theology of embodiment. Sigurdson's profound engagement with the whole history of Christian life and thought not only elucidates the spectrum of Christian perspectives on the body but also models a way of thinking historically and systematically that other theologians will find stimulating and challenging.

Why Jesus Matters George W. Stroup, 2011-01-01

Perhaps no topic is more central to Christianity than the fundamental study of who Jesus Christ is and what he has done. This illuminating and necessary book on Christology considers why Jesus matters. It offers a thoroughly accessible discussion of central issues about Jesus Christ. The

author takes into account important issues from the last three decades incorporating new and diverse voices of theologians and thinkers from around the globe who all consider from their own unique perspectives does Jesus matter

Contemporary Muslim and Christian Responses to Religious Plurality Lewis E Winkler, 2012-04-26 In our rapidly changing and progressively globalized world Christians and Muslims are faced with the prospect of directly encountering and responding to people of other faiths and cultures This has pushed us all to address the vital question of how best to live with work beside and love one another as fellow citizens of our planet Using resources from Christian theologian Wolfhart Pannenberg Muslim ethicist Abdulaziz Sachedina and several others Winkler argues that we must continually dialogue with one another not only about the beliefs and practices held in common between us but also about the ways in which we are distinctively different Only then can we take the opportunity more comprehensively to understand appreciate and cooperate with each other to build just moral and cohesive communities of hope in our often uncertain and unsettling times **Christ Alone---The Uniqueness of Jesus as Savior** Stephen Wellum, 2017-04-18 Professor of theology Stephen Wellum considers Christ's singular uniqueness and significance biblically historically and today in our pluralistic and postmodern age Christ Alone is a much needed study and defense of the doctrine that provides coherency to the Christian faith If the church is to proclaim the same Christ as the Reformers we must understand and embrace solus Christus with the same clarity conviction urgency and abundance of joy as the Reformers To that end Wellum Recovers the Reformers basic insights by focusing first on two teachings the exclusive identity of Christ and his sufficient work Follows the historical roots of the doctrine and its developments to show how the uniqueness of Christ has come under specific attack today Retraces the storyline of Scripture from Christ's unique identity and work as prophet priest and king to the application of his work to believers and our covenantal union with him Christ Alone seeks to recover a robust biblical and theological doctrine of Christ's person and work and a renewed understanding that apart from Christ there is no salvation in the face of today's challenges unpacking why a fresh appraisal of the Reformation understanding of Christ alone is so important today THE FIVE SOLAS Historians and theologians have long recognized that at the heart of the sixteenth century Protestant Reformation were five declarations often referred to as the solas These five statements summarize much of what the Reformation was about and they distinguish Protestantism from other expressions of the Christian faith that they place ultimate and final authority in the Scriptures acknowledge the work of Christ alone as sufficient for redemption recognize that salvation is by grace alone through faith alone and seek to do all things for God's glory The Five Solas Series is more than a simple rehashing of these statements but instead expounds upon the biblical reasoning behind them leading to a more profound theological vision of our lives and callings as Christians and churches *Revelations of Humanity* Richard Schenk (o.p.), Richard Schenk, OP, 2022-03-11 *Revelations of Humanity* brings together essays into the history and actuality of how our searches for God and for our own humanity are interwoven They argue that the revelation of God is possible only when accompanied by a revelation of what it

means to be a human being Revelation implies that the truth is not fully evident in either case This quest is aided in many of the essays by a recollection of the thought of Thomas Aquinas As opposed to simple memory recollection implies that memory has been lost or become clouded here by the misrepresentation of Thomas view of humanity s relation to God as harmonistic at best semi Pelagian often even naturalistic This difficult recovery is made possible by historical research that alone can escape the easy systematic alienation that supporters and critics of Thomas have often brought to their interpretation of his works Thomas s sense of a real but finite capacity of human beings for God his grace and revelation anticipates in more ways than is commonly known much of contemporary suspicion about human capacities but in ways that are open to God That programmatic insight into the historical Thomas keenly aware of human entanglements limits and hopes offers on many contemporary issues a ressourcement of systematic thought Revelations of Humanity revolves around three clusters of issues The first asks about the reality and limits of the human capacity for truth in metaphysical moral and political matters and in relation to the disputed issues of analogous reason and faith The second cluster is structured around the four involvements that the Second Vatican Council identified as the human face of genuine Christian existence participation in the legitimate joys hopes sorrows and fears of the contemporary world These are refracted in the broken light of the human proprium of risibility the abiding uncertainty addressed by hope the disputed question of a suffering God and the recollection of Christ s anxiety in the face of death The final cluster brings together anthropological dimensions of current ecumenical and interreligious disputes the need to complement affirmation with admonition in ecumenical conversation exemplified by the ambivalence towards sacrifice in a genuinely Catholic theology and the need to avoid the excesses of univocity equivocality or an all too facile analogy in the determination of interreligious relationalities Trinity and Incarnation Steven Nemes,2023-08-28 This book argues that the doctrine of God taken for granted in the catholic tradition divine transcendence creatio ex nihilo divine simplicity makes it impossible to give an intelligible and coherent interpretation of the verbal formulas of the catholic dogmas of Trinity and incarnation By way of response to this apparent incoherence at the heart of the catholic theological tradition it proposes an alternative post catholic take on these central doctrines in the light of a qualified monistic conception of God and a Spirit Christological interpretation of Jesus s relation to God the Father as presented in the New Testament **Philosophy of Religion in Latin America and Europe** Michael Schulz,Roberto Hofmeister Pich,2021-04-12 The title of this publication suggests a double meaning on the one hand most of the contributions outline philosophies of religion relevant for Latin America without however betraying an explicit Latin American perspective Does not philosophical reason always articulate itself in the same way whether in Berlin or Rio de Janeiro On the other hand the title refers to a specific form of philosophy that has developed regionally and bears explicit traces of its origins that differentiate it from philosophy in Europe Does not philosophical reason always articulate itself in a specific cultural context The charm of the book lies in the encounter of these two variants to think philosophically
