National Library of Medicine Current Catalog National Library of Medicine (U.S.), **St Mary's** Elsbeth Heaman, 2003
An invaluable collection of major thinkers for students and teachers of film and philosophy University of London Negley
Harte, 2000-12-01 The University of London celebrates the 150th anniversary of its first Charter in 186 and this history has
been produced in commemoration of the occasion One of the leading universities in the world and the largest universities in
the United Kingdom the University of London is a many headed federation of different institutions This sketch of its
developing shape structure and role incorporates many well chosen illustrations encapsulating the range of activities and
institutions constituting a great federal university Attention is paid to the earlier teaching institutions especially the medical
schools attached to London's hospitals The activities of the expanding metropolitan and imperial university are surveyed
throughout Victorian times The major reconstruction of 1900 which began the organic link between the various colleges
forming the federal university is covered and all the subsequent changes of the twentieth century are outlined The
background to the present difficult period of cuts and restructuring is indicated This illustrated history is a lively and well
informed overview of a complex institution or more properly an interwoven series of institutions and activities It should prove
of interest and value to all the many students teachers and other members of the University of London past and present as
well as to those who seek to understand the increasingly crucial role of knowledge in modern society **Patrick O'Brian**
