The Midwest:

Religion and Public Life in the Midwest Philip L. Barlow, Mark Silk, 2004 Not just in the middle geographically the Midwest represents the American average in terms of beliefs attitudes and values The region's religious portrait matches the national religious portrait more closely than any other region But far from making the Midwest dull average means most every religious group and religious issue are represented in this region Unlike other volumes in the series Religion and Public Life in the Midwest includes a chapter devoted to a single city Chicago a chapter on a single Mainline Protestant denomination Lutherans and a chapter on religious variations in urban suburban and rural settings This fourth book in the Religion by Region series does not neglect the pervasive image of the typical Midwesterner but it does let the region's marbled religious diversity come through
