Revolution John Walter, 1999-06-10 This is a critical re evaluation of one of the best known episodes of crowd action in the English Revolution in which crowds in their thousands invaded and plundered the houses of the landed classes The so called Stour Valley riots have become accepted as the paradigm of class hostility determining plebeian behaviour within the Revolution An exercise in micro history the book questions this dominant reading by trying to understand the inter related contexts of local responses to the political and religious counter revolution of the 1630s and the confessional politics of the early 1640s It explains both the outbreak of popular violence and its ultimate containment in terms of a popular and parliamentary political culture that legitimised attacks on the political but not the social order The book also advances a series of general arguments for reading crowd actions and questions how the history of the English Revolution has been written

The English Woollen Industry, c.1200-c.1560 John Oldland, 2019-01-15 This is the first book to describe the early English woollens industry and its dominance of the trade in quality cloth across Europe by the mid sixteenth century as English trade was transformed from dependence on wool to value added woollen cloth It compares English and continental draperies weighs the advantages of urban and rural production and examines both quality and coarse cloths Rural clothiers who made broadcloth to a consistent high quality at relatively low cost Merchant Adventurers who enjoyed a trade monopoly with the Low Countries and Antwerp s artisans who finished cloth to customers needs all eventually combined to make English woollens unbeatable on the continent

Lee, 2018 A clear and accessibly written guide to the medieval cloth making trade in England Cloth making became England s leading industry in the late Middle Ages clothiers co ordinated its different stages in some cases carrying out the processes themselves and found markets for their finished cloth selling to merchants drapers and other traders While many clothiers were of only modest status or jacks of all trades a handful of individuals amassed huge fortunes through the trade becoming the multi millionaires of their day This book offers the first recent survey of this hugely important and significant trade and its practitioners examining the whole range of clothiers across different areas of England and exploring their impact within the industry and in their wider communities Alongside the mechanics of the trade it considers clothiers as entrepreneurs and early capitalists employing workers and even establishing early factories it also looks at their family backgrounds and their
