**The Overman Culture** Edmund Cooper,1973      **Democracy and the Overman** Charles Zueblin,1910      **The Culture of Time and Space, 1880-1918** Stephen Kern,2003-11-30 Kern writes about sweeping changes in technology and culture between 1880 and World War I that created new modes of understanding and experiencing time and space To mark the book s 20th anniversary Kern provides a new preface about the breakthrough in interpretive approach that has made this a seminal work in interdisciplinary studies      **Towards a Post-Modern Understanding of the Political A.** Bielskis,2005-08-19 While claiming that liberalism is the dominant political theory and practice of modernity this book provides two alternative post modern theoretical approaches to the political Concentrating on Nietzsche s and Foucault s work it offers a novel interpretation of their genealogical projects It argues that genealogy can be applied to analyze different forms of cultural kitsch vis vis the dominant political institutions of consumer capitalism The problem with consumer capitalism is not so much that it exploits individuals but that it fosters cheap human existence saturated with the artefacts of kitsch Contrasting genealogy with hermeneutic philosophy it calls for a renewal of hermeneutics within the Thomistic tradition      **The Culture of Love** Stephen Kern,1992 Kern divides love into its elements and traces profound changes in each Evidence is mainly literature and art including classic novels paintings and sculptures The books conceptual foundation comes from Heidegger s existential philosophy      *Chinese Culture of Intelligence* Keping Wang,2019-02-06 With the rise of China in the 21st century this book offers a trans cultural and thematic study of key Chinese concepts which influence modern day Chinese thinking across the spheres of politics economics and society It reflects on the major schools of Chinese thought including Confucianism Daoism and Zen Buddhism providing a historical perspective on the ideological development of China in terms of the relationship between man and nature social ethics political governance poetry education aesthetic criticism and art theory It also explores primary aspects of Chinese poetics and aesthetics with reference to the interaction between the endogenous theories and their western counterparts Written by a leader in Chinese Aesthetics against the background of both globalization and glocalization at home and abroad this is a key read for all those interested in the cultural philosophical and aesthetic underpinnings of contemporary China      *The Edinburgh Encyclopedia of Continental Philosophy* Simon Glendinning,1999 First Published in 1999 Routledge is an imprint of Taylor Francis an informa company

Summary of Terry Eagleton's Culture and the Death of God Everest Media,2022-06-04T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The modern age is characterized by a decline in religious faith which is not necessarily accompanied by a decline in church attendance or Roman Catholics being childless It is when religion begins to interfere with your everyday life that it is time to give it up 2 The privatisation of the symbolic sphere is a strictly relative matter In modern times one of the most blatant refutations of the claim that religion has disappeared from public life is the United States 3 The eighteenth century Enlightenment in France Germany and elsewhere in continental

Europe was a continuation of the fierce sectarian conflicts that had torn the continent apart in the previous centuries. It was preoccupied with religion and its chief preoccupation was the war against ecclesiastical authority, theological views and religion as an instrument of social and political oppression.<sup>4</sup> The Enlightenment was not anti-religious but it was not especially religious either. It was a movement that sought to replace a benighted version of religious faith with one that might grace coffee house conversation in the Strand.

**The Slaves of Heaven** Edmund Cooper, 2011-09-29

Welcome to Heaven said the voice. The acquisition programme is entirely for females but the occasional enterprising male does not displease us. Berry Chief of his clan knew his people could survive the dangers of the forest and when winter came he made them build barricades against raiders from other clans. But no barricades were strong enough to hold against the Night Comers, huge silver beings of horrifying strength who carried away the womenfolk and were drastically lowering the human population. Were the Night Comers men, monsters or gods? Berry believed they were men and when the inevitable night came when the women of his clan were seized he managed to follow. He followed them to a huge tapering column of metal which took him away from the world he had known to an island in the sky called Heaven. And there Berry realised that he had to defeat the Lords of Heaven if the people on Earth were to survive.

*Nietzsche: On morality* Daniel W. Conway, Peter S. Groff, 1998

*Dialogue with Nietzsche* Gianni Vattimo, 2006

For more than forty years Gianni Vattimo, one of Europe's most important and influential philosophers, has been a leading participant in the postwar turn that has brought Nietzsche back to the center of philosophical enquiry. In this collection of his essays on the subject, which is a dialogue both with Nietzsche and with the Nietzschean tradition, Vattimo explores the German philosopher's most important works and discusses his views on the Übermensch, time, history, truth, hermeneutics, ethics, and aesthetics. He also presents a different, more Italian Nietzsche, one that diverges from German and French characterizations. Many contemporary French and poststructuralist philosophers offer literary or aesthetic readings of Nietzsche's work that downplay its political import. Shaped by the revolutionary tradition of 1968, Vattimo's interpretations take Nietzsche seriously as a political philosopher and argue for and defend his relevance to projects for social and political change. He emphasizes the hermeneutic aspect of Nietzsche's philosophy, characterizing the Nietzschean project as a political hermeneutics. Vattimo also grapples with Heidegger, a philosopher who has had a profound influence on the interpretation and understanding of Nietzsche. Vattimo examines Heidegger's philosophy through its complex relationship to Nietzsche's and he produces a Heideggerian understanding of Nietzsche that paradoxically goes against Heidegger's own readings of Nietzsche's work. Heidegger believed Nietzsche was the ultimate metaphysician. Vattimo sees him as the founder of postmetaphysical philosophy. Throughout these essays, Vattimo draws on and quotes extensively from fragments in Nietzsche's notebooks, many of which have never before been translated into English. His writing is clear, elegant, and accessible, and for the first time Vattimo's own intellectual developments, shifts, and continuities can be clearly discerned. The loyal testimony and unique perspective in *Dialogue with Nietzsche* makes a convincing case for another

orientation in Nietzsche scholarship      *The New Materialism* J.K. Feibleman, 2012-12-06 A wholly new theory of matter has been advanced in the last half century by modern physics but there has been no new theory of materialism to match it The occurrence of a revolution of such magnitude in science will have to be understood as calling for a corresponding one in philosophy The present work is an attempt to make a start in that direction Grateful acknowledgment is hereby made to the Editors of the following journals for permission to reprint articles which first appeared in their pages to Darshana for Human Nature and Institutions to Diogenes for Full Concreteness and the Re-Materialization of Matter to Perspectives in Biology and Medicine for The Ambivalence of Aggression and the Moralization of Man to Philosophy and Phenomenological Research for Formal Materialism Reconfirmed which appears here revised and extended as Formal Materialism The New Version and for Artifactualism The Origin of Man and His Tools to Philosophy Today for How Abstract Objects Survive to Religious Studies for A Religion for the New Materialism and to Tulane Studies in Philosophy for A Material Theory of Reference PART ONE INTRODUCTION AND METHOD CHAPTER I THE SUBJECTIVE DIGRESSION Every philosophy endeavors to be as comprehensive as possible and when philosophers speak they do so for the whole world      **Infinite Autonomy** Jeffrey Church, 2011-02-01 G W F Hegel and Friedrich Nietzsche are often considered the philosophical antipodes of the nineteenth century In Infinite Autonomy Jeffrey Church draws on the thinking of both Hegel and Nietzsche to assess the modern Western defense of individuality to consider whether we were right to reject the ancient model of community above the individual The theoretical and practical implications of this project are important because the proper defense of the individual allows for the survival of modern liberal institutions in the face of non Western critics who value communal goals at the expense of individual rights By drawing from Hegelian and Nietzschean ideas of autonomy Church finds a third way for the individual what he calls the historical individual which goes beyond the disagreements of the ancients and the moderns while nonetheless incorporating their distinctive contributions      *Nietzsche and the Modern Crisis of the Humanities* Peter Levine, 1995-01-01 This is a critique of Nietzsche's theory of culture that proposes an alternative paradigm allowing a defense of the humanities against such Nietzscheans as Leo Strauss and Derrida      *Philosophical Currents of the Present Day* Ludwig Stein, 1918      Social Theory Peter Beilharz, 2020-07-22 An alluvial goldfield of social theorists nuggets lying around all over the place Bob Connell Who's who in the social theory zoo This book introduces some of the leading social theorists in short lively entries by leading Australian scholars Social Theory covers thinkers from Althusser to Williams by locals from Alexander to Yeatman For beginner and enthusiast alike it gives a sense of the state of the art in classical and modern social theory Social Theory is an indispensable reference for undergraduates postgraduates academics and anyone else interested in the ideas behind social and political theory and cultural studies today      *Nietzsche and the Earth* Henk Manschot, 2020-11-12 Friedrich Nietzsche 1844 1900 loved nature and his daily walks in the Swiss Mountains and by the Mediterranean Sea heavily influenced his writing and particularly his most famous book Thus Spoke Zarathustra By following

the philosopher on these ramblings and reflecting on Zarathustra's Nietzsche's alter ego surprising interactions with the animals he meets on his way Henk Manschot cleverly shows how all these experiences were reflected in the philosopher's thinking on the relationship between human beings and the Earth Working at the intersection of philosophy and environmental studies Manschot presents key Nietzschean concepts as the foundations of an ecological art of living for the twenty-first century In a unique contribution to the field he also introduces the concept of terra sophy which combines the notions of terra earth and sophy wisdom to contend that humans should reimagine themselves as in a reciprocal relationship with the planet For Manschot Nietzsche's thought can inspire humanity to move from a human to an Earth-focused relationship to the world a shift in thought that would considerably benefit a generation facing an unprecedented ecological crisis

**Lu Xun's Affirmative Biopolitics** Wenjin Cui, 2021-11-29 This book explores an extraordinary case of affirmative biopolitics through the study of Lu Xun 1881-1936 the most prominent cultural figure of modern China Diverging from the Enlightenment humanist framework in reference to which Lu Xun is commonly interpreted it demonstrates how his thinking is defined by a naturalistic conception of culture that is best understood in the global context of what Foucault defines as the biological turn of modernity In comparison to ontologically grounded modern Western theories of life it brings to light the deep connection between Lu Xun's affirmative biopolitics and the epistemic ground of Chinese tradition what is known as correlative thinking Combining close readings of literary texts with a theoretical consideration of broader issues of culture this book is an essential read for scholars and students who are interested in Lu Xun modern Chinese intellectual history comparative studies of Chinese and Western thought and the question of affirmative biopolitics

**The Unreasonable Silence of the World** Gary Sauer-Thompson, Joseph Wayne Smith, 2019-05-23 Published in 1997 This book develops a postmodernist critique of philosophy although not the postmodernism of literary philosophers such as Derrida This postmodernism is one of ecological limitationism coupled with a practical common sense realism The authors affirm the reality of life world and the primacy of practice against materialists physicalists and reductionists They attempt to show that orthodox Anglo-American analytic philosophy is not merely incapable of completing its own quest to supply a regionally justified system of reality but more importantly it fails as well to meet the challenges of the age

**Dictionary Of Atheism Skepticism & Humanism** Bill Cooke, 2009-12-30 In the tradition of Voltaire's Philosophical Dictionary Ambrose Bierce's Devil's Dictionary and Joseph McCabe's Rationalist Encyclopedia this accessible dictionary addresses the contemporary need for a reference book that succinctly summarizes the key concepts current terminology and major contributions of influential thinkers broadly associated with atheism skepticism and humanism In the preface author Bill Cooke notes that his work is intended for freethinkers in the broadest sense of the word people who like to think for themselves and not according to the preplanned routes set by others This dictionary will serve as a guide for all those people striving to lead fulfilling morally responsible lives without religious belief Readers are offered a wide range of concepts from ancient well-known notions such as God free

will and evil to new concepts such as eupraxsophy Also included are current buzzwords that have some bearing on the freethought worldview such as metrosexual The names of many people whose lives or work reflect freethought principles form a major portion of the entries Finally a humanist calendar is included on which events of interest to freethinkers are noted This unique accessible and highly informative work will be a welcome addition to the libraries of open minded people of all philosophic persuasions
