The Owensmouth Baby Catherine Mulholland,1987-01-01 **Mexican American Baseball in the San Fernando Valley** Richard A. Santillan, Victoria C. Norton, Christopher Docter, Monica Ortez, Richard Arroyo ,2015 Mexican American Baseball in the San Fernando Valley explores the teams and players that dotted the valley landscape throughout the 20th century In a time and place where Mexican Americans were closed off from many city recreation centers neighborhoods formed their own teams Baseball and softball reinforced community and regional ties strengthened family bonds instilled discipline and dedication that translated into future professional careers provided women opportunities outside their traditional roles in the home and fostered lifelong friendships These photographs serve as a lens to both local sports history and Mexican American history **San Fernando Valley East- West Transit Corridor Project** ,2001 William Mulholland and the Rise of Los Angeles Catherine Mulholland,2002-05-06 Mulholland presided over the creation of a water system that forever changed the course of Southern California s history In the first full length biography of the water and civil engineer his granddaughter provides insights into the triumphant completion of the Owens Valley Aqueduct and the San Francisquito Dam tragedy that ended his career Archival photos 7 maps **Metropolis in the Making** Tom Sitton,2001-08-01 Los Angeles came of age in the 1920s The great boom of that decade gave shape to the L A of today its vast suburban sprawl and reliance on the automobile its prominence as a financial and industrial center and the rise of Hollywood as the film capital of the world This collection of original essays explores the making of the Los Angeles metropolis during this remarkable decade The authors examine the city s racial political cultural and industrial dynamics making this volume an essential guide to understanding the rise of Los Angeles as one of the most important cities in the world These essays showcase the work of a new generation of scholars who are turning their attention to the history of the City of Angels to create a richer more detailed picture of our urban past The essays provide a fascinating look at life in the new suburbs in the oil fields in the movie studios at church and at the polling place as they reconceptualize the origins of contemporary urban problems and promise in Los Angeles and beyond Adding to its interest the volume is illustrated with period photography much of which has not been published before *California Exposures: Envisioning Myth and History* Richard White,2020-03-17 Winner of the 2021 California Book Award Californiana category A brilliant California history in word and image from an award winning historian and a documentary photographer This is the West sir When the legend becomes fact print the legend This indelible quote from *The Man Who Shot Liberty Valance* applies especially well to California where legend has so thoroughly become fact that it is visible in everyday landscapes Our foremost historian of the West Richard White never content to print the legend collaborates here with his son a talented photographer in excavating the layers of legend built into California s landscapes Together they expose the bedrock of the past and the history they uncover is astonishing Jesse White s evocative photographs illustrate the sites of Richard s historical investigations A vista of Drakes

Estero conjures the darkly amusing story of the Drake Navigators Guild and its dubious efforts to establish an Anglo Saxon heritage for California The restored Spanish missions of Los Angeles frame another origin story in which California s native inhabitants civilized through contact with friars gift their territories to white settlers But the history is not so placid A quiet riverside park in the Tulare Lake Basin belies scenes of horror from when settlers in the 1850s transformed native homelands into American property Near the lake bed stands a small marker commemorating the Mussel Slough massacre the culmination of a violent struggle over land titles between local farmers and the Southern Pacific Railroad in the 1870s Tulare is today a fertile agricultural county but its population is poor and unhealthy The California Dream lives elsewhere The lake itself disappeared when tributary rivers were rerouted to deliver government subsidized water to big agriculture and cities But climate change ensures that it will be back the only question is when

Landscapes of Desire William Alexander McClung,2002-05-31 An imaginative and provocative interpretation of the meaning of Los Angeles carefully thought out and beautifully written Robert Winter editor of *Toward a Simpler Way of Life* The Arts and Crafts Architects of California McClung s sharp eye and his ability to be both critic and analyst combine to make this a book of real timeliness It is unusual and it is smart William Deverell author of *Railroad Crossing Californians and the Railroad 1850 1910* *The Great Thirst* Norris Hundley Jr.,2023-11-15 The story of the great thirst is brought up to date in this revised edition of Norris Hundley s outstanding history with additional photographs and incisive descriptions of the major water policy issues facing California now accelerating urbanization of farmland and open spaces persisting despoliation of water supplies and demands for equity in water allocation for an exploding population People the world over confront these problems and Hundley examines them with clarity and eloquence in the unruly laboratory of California The obsession with water has shaped California to a remarkable extent literally as well as politically and culturally Hundley tells how aboriginal Americans and then early Spanish and Mexican immigrants contrived to use and share the available water and how American settlers arriving in ever increasing numbers after the Gold Rush transformed California into the home of the nation s preeminent water seekers The desire to use profit from manipulate and control water drives the people and events in this fascinating narrative until by the end of the twentieth century a large colorful cast of characters and communities has wheeled and dealt built diverted and connived its way to an entirely different statewide waterscape

The story of the great thirst is brought up to date in this revised edition of Norris Hundley s outstanding history with additional photographs and incisive descriptions of the major water policy issues facing California now accelerating urbanization *Water and the California Dream* David Carle,2016-05-10 In the last one hundred years imported water has transformed the environment of the Golden State and its quality of life with land ownership patterns and real estate boosterism dramatically altering both urban and rural communities The key to this transformation has been expanded access to water from the Eastern Sierra the Colorado River and Northern California rivers Whoever brings the water brings the people wrote engineer William Mulholland under whose
