

In going to Oxford I could do something which only a few years before had scarcely seemed possible: I could be both fashionable and please my parents at the same time.

Oxford is a playpen where baubles are dangled in front of the talented undergraduate. It is also a place suffused with a spirit of experimentation, while some are drawn by the rewards of ambition, others are entangled in alcohol and drug abuse.

Fear underlies much of the ambition so much in evidence in today's Oxford: fear of passing unremarked through a university where écart is everything.

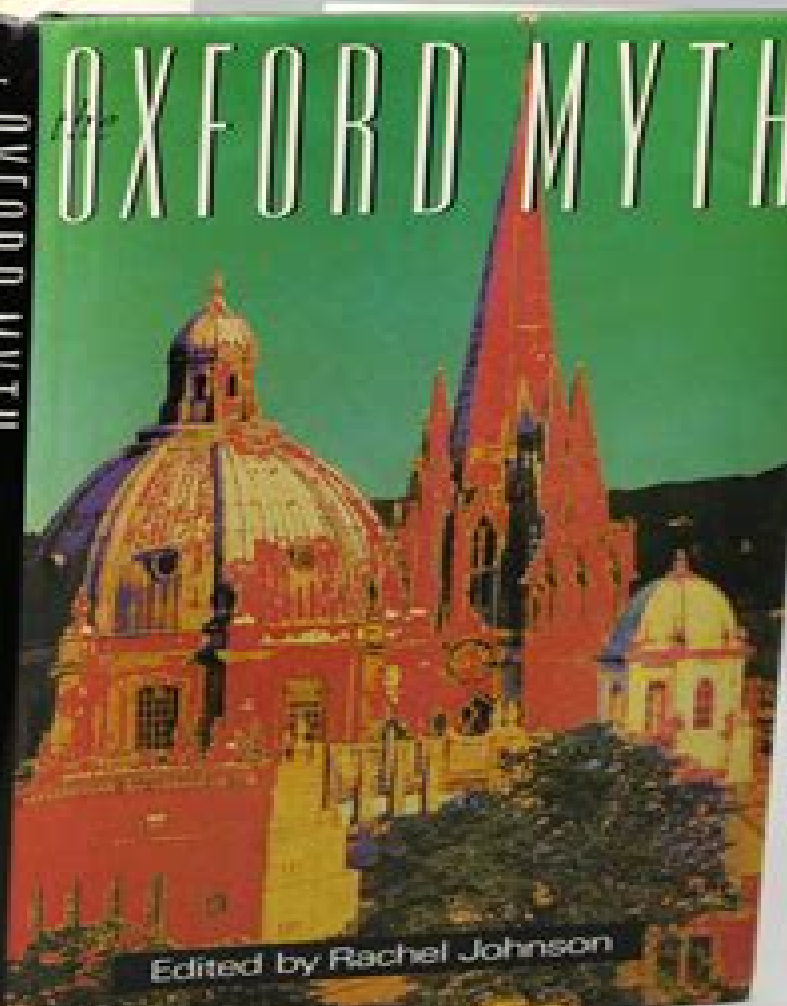

Any attempt to dispel the Oxford myth only serves to reinforce it. To the outsider, we are all insufferable.

The Oxford Myth:

The Oxford Myth Rachel Johnson, 1988 **The Oxford Companion to World Mythology** David Leeming, 2005-11-17

Cave paintings at Lascaux France and Altamira Spain fraught with expression thousands of years later point to an early human desire to form a cultural identity In the Oxford Companion to World Mythology David Leeming explores the role of mythology or myth logic in history and determines that the dreams of specific cultures add up to a larger collective story of humanity Stopping short of attempting to be all inclusive this fascinating volume will nonetheless be comprehensive opening with an introduction exploring the nature and dimensions of myth and proposing a definition as a universal language Briefly dipping into the ways our understanding of myth has changed from Aristotle and Plato to modern scholars such as Joseph Campbell the introduction loosely places the concept in its present context and precedes articles on influential mythologists and mythological approaches that appear later in the Companion The main body of Leeming's work consists of A Z entries covering all aspects of mythology including substantial essays on the world's major mythological traditions Greek Native American Indian Japanese Sumerian Egyptian mythological types and motifs Descent to the Underworld the Hero the Trickster Creation the Quest mythological figures Odysseus Zeus Osiris Spider Woman and Inanna as well as numerous interrelated subjects such as fairy tales and legends The Companion also locates myth in our lives today relating it to language patterns psychology religion politics art and gender attitudes Many of the better known and more significant myths are vividly retold in this volume that will be illustrated with maps more than 70 black and white images and eight pages of color highlighting the central role art has often played in the transmission and perpetuation of myth Following the entries a rich section of appendices will include family trees of the major pantheons equivalency charts for the gods of Greece and Rome Babylon and Sumer as well as other traditions an extensive bibliography and an index

Greek myths have long been admired as beautiful, thrilling stories but dismissed as serious objects of belief. For centuries, scholars have held that Greek epics, tragedies and the other compelling works handed down to us obscure the real myths that supposedly inspired them. Instead of joining in this pursuit of hidden meanings, Sarah Iles Johnston argues that the very nature of myths as stories, as gripping tales starring vivid characters, enabled them to do their most important work: to create and sustain belief in the gods and heroes who formed the basis of Greek religion. By drawing on work in narratology, sociology and folklore studies and by comparing Greek myths not only to the myths of other cultures but also to fairy tales, ghost stories, fantasy works, modern novels and television series, *The Story of Myth* reveals the subtle yet powerful ways in which these ancient Greek tales forged enduring bonds between their characters and their audiences, created coherent story worlds and made it possible to believe in extraordinary gods. Johnston captures what makes Greek myths distinctively Greek but simultaneously brings these myths into a broader conversation about how the stories told by all cultures affect our shared view of the cosmos and the creatures who inhabit it. **The Transformative Potential of Black British and British**

Muslim Literature Lisa Ahrens, 2019-07-03. This study investigates power, belonging and exclusion in British society by analysing representations of the mosque, the University of Oxford and the plantation in novels by Leila Aboulela, Robin Yassin Kassab, Diran Adebayo, David Dabydeen, Andrea Levy and Bernardine Evaristo. Lisa Ahrens combines Foucault's theory of heterotopia with elements of Wolfgang Iser's reader response theory to work out Black British and British Muslim literature's potential for destabilising exclusionary boundaries. In this way, new perspectives open up on the intersections between space

power and literature intertwining and enriching the discourses of Cultural and Literary Studies
