**State of the World's Minorities and Indigenous Peoples 2009** Preti Taneja, 2009-07-16 Education is the most powerful weapon which you can use to change the world Nelson Mandela Education for all is a goal that has been reaffirmed by states the world over many times in the last decade It is meant to be achieved by 2015 But as this book clearly shows a quality education is not reaching the world's most vulnerable communities minorities and indigenous peoples In Central Africa the great majority of indigenous Batwa and Baka have not had access even to primary education In South Asia Dalit girls are prevented from pursuing their education not just because of poverty but through discrimination and sexual violence In many countries in Europe Roma children continue to be placed in segregated classes or in special schools for those with learning disabilities just because of their ethnicity In Latin America millions of indigenous and African descendant children instead of being in school work in fields and plantations in the mines or at home In a unique collaboration with UNICEF Minority Rights Group International reports on what minority and indigenous children around the world face in their struggle to learn State of the World's Minorities and Indigenous Peoples 2009 profiles the programmes that are being developed to help them from better bilingual education to meeting the needs of nomadic populations giving examples of what works and why It describes efforts to overcome exclusion so that education is available accessible acceptable and adaptable for minorities and indigenous peoples and shows how far there is still to go It includes An analysis of available statistics that show that minorities and indigenous peoples are the most likely to suffer discrimination and exclusion in education worldwide First

hand accounts of the difficulties and challenges facing minority and indigenous children in every major world region Coverage of the key issues for promoting the right to education including overcoming the double discrimination faced by minority and indigenous girls the need to collect data by ethnicity and the importance of bilingual or plurilingual education A unique statistical analysis and ranking of Peoples under Threat 2009 State of the World s Minorities and Indigenous Peoples is an invaluable reference for policy makers academics journalists and everyone who is interested in the conditions facing minorities and indigenous peoples around the world *The Pacific in the Age of Early Industrialization* Kenneth Pomeranz, 2017-05-15 The essays selected for this volume show how the Pacific rapidly became part of an industrializing world Its raw materials notably rubber and copper were critical some of its handicraft industries were devastated by mechanized competition others survived and adapted contributing to distinctive patterns of industrialization that made Japan a new center of power and also laid the groundwork for later growth in Taiwan Korea and coastal China The Pacific coast of the Americas was also first drawn into an industrial world largely as an exporter of raw materials but North and South diverged rapidly portending futures even more different than those of Northeast and Southeast Asia By the 1930s when the uneven effects of industrialization would have much to do with plunging the Pacific into war one can already glimpse in outline the structural bases for many of the region s contemporary characteristics All this is set in context in the important introduction by Kenneth Pomeranz World Book Encyclopedia ,1951 The World's History: Pre-history. America and the Pacific ocean Hans Ferdinand Helmolt, 1901 An English adaptation of Helmolt s Weltgeschichte with a rejection of sections which did not seem quite adequate from the point of view of its English readers Publisher s note **Pacific Youth** Helen Lee, 2019-10-31 Pacific populations are becoming younger and this youth bulge is often perceived as a dangerous precursor to civil unrest Yet young people are also a valuable resource holding exciting potential for the future of island nations Addressing these conflicting views of youth this volume presents ethnographic case studies of young people from across the Pacific and the diaspora Moving beyond the typical focus on youth problems in reports by Pacific governments and development agencies the authors examine the highly diverse lives and perspectives of young people in urban and rural locations They celebrate the contributions of youth to their communities while examining the challenges they face The case studies explore the impacts of profound local and global changes and cover a wide sweep of youth experiences across themes of education employment and economic inequalities political and civil engagement and migration and the diaspora Contributors to this volume bring many decades of experience of research with Pacific people as well as fresh perspectives from early career and graduate researchers Most are anthropologists and their chapters contribute to the interdisciplinary fields of youth studies and Pacific studies offering thought provoking insights into the possibilities for Pacific youth as they face uncertain futures **Only in the Pacific Northwest** Nancy Dickmann, 2025-05-06 Natural beauty and quirky culture await in Only in the Pacific Northwest your go to guide to the US and Canadian region that has it all
