The Palestine State A Rational Approach:

The Palestine State Richard Joseph Ward, Don Peretz, Evan M. Wilson, 1977 *Israel and the Creation of a Palestinian State* J. H. H. Weiler, 2024-10-31 To many outside observers of the Israeli Palestinian conflict there would appear to be one eminently sensible solution in exchange for recognition and adequate security guarantees Israel should return the West Bank and the Gaza strip subject to minor boundary modifications to the Palestinians led by a moderate PLO The Palestinians would then exercise their right to self determination and establish an independent state with or without a link to Jordan And yet this solution has found favor neither with successive Israeli governments nor with the PLO First published in 1985 *Israel and the Creation of a Palestinian State* now with a new preface by the author analyses the reasons for the rejection of this solution by the protagonists It then sets up a vision of a possible solution which by taking account of the subjective fears and aspirations of the parties may be regarded as more feasible The author's vision draws inspiration from the experience of reconstructing a new transnational order in Europe after the ravages of the Second World War The underlying theme focuses on the limitations of the purely national context as a framework for resolving the current political problems of the Israeli Palestinian dilemma Palestine and International Law Sanford R. Silverburg, 2009-02-12 This collection of thirteen essays explains and analyzes the conflict between the Government of Israel and the Palestine Authority over the granting of sovereignty to Palestinians from the point of view of international law The dispute emotional so far intractable often violent is of global not merely Middle Eastern concern The essays cover two general topics the political nature of the conflict and the economic issues The collection includes eight respected contributions previously published and five newly written essays The contributors represent a range of political alignments and differing perspectives providing the widest possible scope for understanding the issues and beliefs relating to the conflict Includes bibliography and index **The Economies Of The West Bank And Gaza Strip** Fawzi A Gharaibeh, 2019-05-28 The creation of Israel called for the realignment of the West Bank and Gaza Strip economies with those of Jordan and Egypt Subsequent conflicts have fostered economic uncertainties associated with occupation status making investment in various sectors unattractive and hampering the prospects for development Land expropriation the growing number **The Discourse of Palestinian-Israeli Relations** Sean F. McMahon, 2010-04-15 Many observers have portrayed the Oslo Process as a milestone in the peacemaking process between Palestinians and Israelis In this controversial and groundbreaking new work McMahon challenges the interpretation of the Oslo Process as a breakthrough or new beginning in Palestinian Israeli relations He argues that the Oslo Process affected no discursive or non discursive change and that the Oslo Process in fact institutionalized the analytics practices involved in Israeli and Palestinian relations It should McMahon concludes be no surprise that the process ended with direct Palestinian Israeli violence This book will be crucial reading for scholars of Israeli and Palestinian relations as well as anyone who is interested in understanding what discursive change must occur for peace between Israel and Palestinians to be established

and sustained **The Arab World and Asia between Development and Change** Günter Barthel, Lothar Rathmann, 2022-08-01 No detailed description available for The Arab World and Asia between Development and Change

Fratricide in the Holy Land Avner Falk, 2005-02-17 This is the first English language book ever to apply psychoanalytic knowledge to the understanding of the most intractable international struggle in our world today the Arab Israeli conflict Two ethnic groups fight over a single territory that both consider to be theirs by historical right essentially a rational matter But close historical examination shows that the two parties to this tragic conflict have missed innumerable opportunities for a rational partition of the territory between them and for a permanent state of peace and prosperity rather than perennial bloodshed and misery Falk suggests that a way to understand and explain such irrational matters is to examine the unconscious aspects of the conflict He examines large group psychology nationalism group narcissism psychogeography the Arab and Israeli minds and suicidal terrorism and he offers psychobiographical studies of Ariel Sharon and Yasser Arafat two key players in this tragic conflict today *The Palestine Problem* H. I. Hussaini, 1980 A History of the Israeli-Palestinian Conflict Mark A. Tessler, 1994 Mark Tessler's highly praised comprehensive and balanced history of the Israeli Palestinian conflict from the earliest times to the present updated to the first decade of the twenty first century provides a constructive framework for understanding recent developments and assessing the prospects for future peace New chapters elucidate the Oslo peace process including the reasons for its failure and the political dynamics in Israel the West Bank and Gaza at a critical time of transition Jacket **In Search of Leadership** Emile Sahliyeh, 2010-12-01 For much of the past decade all diplomatic initiatives designed to advance the Arab Israeli peace process have had in common a concern for the future of the West Bank This region along with the Gaza Strip has often been discussed but rarely studied Palestinians living under occupation were often seen as passive and leaderless This view is no longer tenable The uprising or intifadah that began in the West Bank and Gaza in late 1987 and continued into 1988 represents a new phase of the Palestinian resistance to occupation and search for self determination Palestinians in these areas especially the youth are politically mobilized and highly nationalistic The uprising needs to be seen in perspective It is the product of profound political social and economic changes that have taken place over the past twenty years Emile Sayliyeh analyzes in detail and with great personal knowledge the internal politics of the West Bank Palestinians and their international implications Traditionally West Bank politics had been the domain of elite prominent families used by the Ottomans the British and the Jordanians to control local politics Recent social changes such as the growing trend toward higher education exposure to the mass media and labor mobility have coincided with recent political changes the consolidation of the communist movement the radicalization of the student population and the resurgence of Islam to challenge the political order and give more power to the mass supported local politicians In Search of Leadership offers the first comprehensive look at the social and political bases of the factions and groups in the West Bank and suggests how they will affect Palestinian politics in the years ahead The West Bank Ian

Lustick, Donald Peretz, Emile A Nakhleh, Vivian Bull, 2019-08-22 First published in 1986 This study of the West Bank was originally undertaken for the Middle East Institute in Washington D C under the terms of its contract with the U S Defense Intelligence Agency The study was compiled from a series of draft working papers Covering The Late Ottoman period to 1967 and the second part looks at the West Bank under Israeli Occupation after 1967 **Countries and Territories of the World**, Journal of Palestine Studies, 1979 **The Palestinian Economy (RLE Economy of Middle East)** George T. Abed, 2015-05-15 This volume brings together the results of the symposium on Economic Development under Prolonged Occupation held at Oxford University in January 1986 The basic aim of the symposium was to stimulate research and discussion on issues of economic development by a prolonged occupation It brought together a number of development economists representatives from development assistance organisations and other individuals engaged in one facet or another of social and economic development in the occupied areas The papers presented here reflect the wide range of thought on the issues surrounding the Palestinian Economy *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office, 1978 *Who Owns the Land?* Stanley A. Ellisen, Charles H. Dyer, 2003 Who Owns the land is an update of Stanley Ellisen's 1191 book examining Middle East conflict in light of the biblical prophecies concerning a Jewish state It traces the Jews journey through history and the events that led to their determined stand in Palestine today as well as the case made by the Palestinians themselves **Palestinian Resistance** John W. Amos, 2013-10-22 Palestinian Resistance Organization of a Nationalist Movement presents the Palestinian conflict as a consequence of the emergence of Arab and Jewish nationalism in the 19th century This book discusses the variables that intersect to produce Resistance politics Organized into 11 chapters this book begins with an overview of the increasing threat to international stability of Middle Eastern conflicts in terms of global impact and military destructiveness This text then examines the emergence of Palestinian nationalism that is connected with the appearance and growth of the Palestinian Resistance Movement Other chapters consider the more complex relationships that developed over time between the various guerilla groups and established Arab governments This book discusses as well the importance of the ANM in providing an infrastructure of political and logistic support that extend throughout the Arab world The final chapter deals with the concept of protracted social conflict This book is a valuable resource for politicians teachers and students *Concise Biographical Companion to Index Islamicus* Wolfgang Behn, 2004-12-01 This third and last of the three volume Who's Who in Islamic Studies presents the scholarly world at long last with its own biographical encyclopaedia Taking as a starting point the inventory of authors from the renowned Index Islamicus the author Wolfgang Behn Berlin has systematically collected numerous data on the lives and works of the tens of thousands of authors listed in the Index Islamicus from 1665 to 1980 This Biographical Companion will be an indispensable reference tool for the serious student and scholar of Islamic Studies It enables the user to quickly gain knowledge on the life work and professional background of almost every major and minor author and thus to place each
