The Palestinians New Directions:

New Directions in the Sociology of Human Rights Patricia Hynes, Michele Lamb, Damien Short, Matthew Waites, 2016-03-23 *New Directions in the Sociology of Human Rights* is a contribution to both sociology and to human rights research particularly where these are directed towards challenging power relations and inequalities in contemporary societies It expands and develops the sociology of human rights as a sub field of sociology and interdisciplinary human rights scholarship The volume suggests new directions for the use of social and sociological theories in the analysis of issues such as torture and genocide and addresses a number of themes which have not previously been a sustained focus in the sociology of human rights literature These range from climate change and the human rights of soldiers to corporate social responsibility and children s rights in relation to residential care The collection is thus multi dimensional examining a range of specific empirical contexts and also considering relationships between sociological analysis and human rights scholarship and activism Hence in a variety of ways it points the way for future analyses and also for human rights activism and practices It is intended to widen our field of vision in the sociology of human rights and to spark both new ideas and new forms of political engagement This book was published as a special issue of *The International Journal of Human Rights*

The Palestinian Diaspora Helena Lindholm Schulz, 2005-07-27 From the refugee camps of the Lebanon to the relative prosperity of life in the USA the Palestinian diaspora has been dispersed across the world In this pioneering study Helena Lindholm Schulz examines the ways in which Palestinian identity has been formed in the diaspora through constant longing for a homeland lost In so doing the author advances the debate on the relationship

between diaspora and the creation of national identity as well as on nationalist politics tied to a particular territory But The Palestinian Diaspora also sheds light on the possibilities opened up by a transnational existence the possibility of new less territorialized identities even in a diaspora as bound to the idea of an idealized homeland as the Palestinian Members of the diaspora form new lives in new settings and the idea of homeland becomes one important but not the only source of identity Ultimately though Schulz argues the strong attachment to Palestine makes the diaspora crucial in any understandings of how to formulate a viable strategy for peace between Israelis and Palestinians

Palestinian Cinema Nurith Gertz, 2008-01-15 Although in recent years the entire world has been increasingly concerned with the Middle East and Israeli Palestinian relationship there are few truly reliable sources of information regarding Palestinian society and culture either concerning its relationship with Israeli society its position between east and west or its stances in times of war and peace One of the best sources for understanding Palestinian culture is its cinema which has devoted itself to serving the national struggle In this book two scholars an Israeli and a Palestinian in a rare and welcome collaboration follow the development of Palestinian cinema commenting on its response to political and social transformations They discover that the more the social political and economic conditions worsen and chaos and pain prevail the more Palestinian cinema becomes involved with the national struggle As expected Palestinian cinema has unfolded its national narrative against the Israeli narrative which tried to silence it

Palestinian Politics After Arafat As'ad Ganim, 2010 Here the author analyzes the internal and external events that unfolded as the Palestinian national movement

became a failed national movement marked by internecine struggle and collapse the failure to secure establishment of a separate state and much more
