The Papers Of George Washington Revolutionary Series 2 September December 1775:

The Papers of George Washington. Revolutionary War Series, [v.] 2 George Washington, 1987 **Washington's Marines** Jason Q. Bohm, 2023-05-04 A history of the US Marine Corps beginnings during the American Revolution Winner 2024 Fraunces Tavern Museum Book Award Bohm has given us an excellent and useful book on the important contribution of Continental Marines and state Marines in pivotal campaigns of the American Revolutionary War Dr David Hackett Fischer acclaimed author of Washington's Crossing Albion's Seed The Great Wave and Paul Revere's Ride The fighting prowess of United States Marines is second to none but few know of the Corps humble beginnings and what it achieved during the early years of the American Revolution Jason Bohm rectifies this oversight with his eye opening Washington's Marines The Origins of the Corps and the American Revolution 1775-1777 The story begins with the oppressive days that drove America into a conflict for which it was ill prepared when thirteen independent colonies commenced a war against the world's most powerful military with nothing more than local militias privateers and other ad hoc units The Continental Congress rushed to form an army and placed George Washington in command but soon realized that to win its freedom America would need men who could fight on the sea and on land Enter the Marines Bohm artfully tells the story of the creation of the Continental Marines and the men who led them during the parallel paths followed by the Army and Marines in the opening years of the war and through the early successes and failures at Lexington and Concord Bunker Hill Canada Boston Charleston and more As General Washington struggled to preserve his command after defeats in New York and New Jersey in 1776 the nascent U S Navy and Marines deployed the first American fleet conducted their first amphibious operation and waged a war on the rivers and seas to block British reinforcements and capture critically needed supplies Desperate times forced Congress to detach the Continental Marines from the Navy to join the embattled army as Washington sought an important stroke to defeat his adversary Washington's Marines joined their fellow soldiers in a protracted land campaign that culminated in turning point victories at Trenton Assunpink Creek and Princeton This chapter of the Continental Marines ends in Morristown New Jersey when Washington granted Henry Knox's request to leverage the Marines expertise with naval guns to fill the depleted ranks of the army's artillery during the Forage War Washington's Marines is the first complete study of its kind to weave the men strategy performance and personalities of the Corps formative early years into a single compelling account The sweeping prose relies heavily on primary research and the author's own extensive military knowledge Enhanced with original maps and illustrations Washington's Marines will take its place as one of the finest studies of its kind **The Papers of George Washington: September-December 1775** George Washington, 1985 The Papers of George Washington a grant funded project was established in 1968 at the University of Virginia under the joint auspices of the University and the Mount Vernon Ladies Association of the Union to publish a comprehensive edition of Washington's correspondence Letters written to Washington as well as letters and documents written by him are being published in the complete edition that will

consist of approximately ninety volumes The work is now 2011 more than two thirds complete The edition is supported financially by grants from the National Endowment for the Humanities the National Historical Publications and Records Commission the Mount Vernon Ladies Association the University of Virginia and gifts from private foundations and individuals Today there are copies of over 135 000 Washington documents in the project s document room This is one of the richest collections of American historical manuscripts extant There is almost no facet of research on life and enterprise in the late colonial and early national periods that will not be enhanced by material from these documents The publication of Washington s papers will make this source material available not only to scholars but to all Americans interested in the founding of their nation Publisher Political Thought and the Origins of the American Presidency Ben Lowe,2024-09-17

How the American executive office was constructed in the Constitution and implemented by the first presidents This volume examines the political ideas behind the construction of the presidency in the U S Constitution as well as how these ideas were implemented by the nation s early presidents The framers of the Constitution disagreed about the scope of the new executive role they were creating and this volume reveals the ways the duties and power of the office developed contrary to many expectations Here leading scholars of the early republic examine principles from European thought and culture that were key to establishing the conceptual language and institutional parameters for the American executive office Unpacking the debates at the 1787 Constitutional Convention these essays describe how the Constitution left room for the first presidents to set patterns of behavior and establish a range of duties to make the office functional within a governmental system of checks and balances Contributors explore how these presidents understood their positions and fleshed out their full responsibilities according to the everyday operations required to succeed As disputes continue to surround the limits of executive power today this volume helps identify and explain the circumstances in which limits can be imposed on presidents who seem to dangerously exceed the constitutional parameters of their office Political Thought and the Origins of the American Presidency demonstrates that this distinctive time tested role developed from a fraught historically contingent and contested process Contributors Claire Rydell Arcenas Lindsay M Chervinsky Francois Furstenberg Jonathan Gienapp Daniel J Hulsebosch Ben Lowe Max Skj nsberg Eric Slauter Caroline Winterer Blair Worden Rosemarie Zagarri A volume in the Alan B and Charna Larkin Series on the American Presidency

The Papers of George Washington: September-December 1775 George Washington,1985 **The Papers of George Washington** George Washington,1987 The Papers of George Washington a grant funded project was established in 1968 at the University of Virginia under the joint auspices of the University and the Mount Vernon Ladies Association of the Union to publish a comprehensive edition of Washington s correspondence Letters written to Washington as well as letters and documents written by him are being published in the complete edition that will consist of approximately ninety volumes The work is now 2011 more than two thirds complete The edition is supported financially by grants from the National Endowment for the Humanities the National Historical

The Painter's Fire Zara Anishanslin,2025-07-01 The Painter s Fire follows a remarkable cohort of transatlantic artists who risked their lives and reputations to promote the patriot cause during the Revolutionary War Their experiences Zara Anishanslin shows testify to both the promise and the limits of liberty in the founding era **The Enslaved and Their Enslavers** Edward Pearson,2023-09-19 In The Enslaved and Their Enslavers Edward Pearson offers a sweeping history of slavery in South Carolina from British settlement in 1670 to the dawn of the Civil War For enslaved peoples the shape of their daily lives depended primarily on the particular environment in which they lived and worked and Pearson examines three distinctive settings in the province the extensive rice and indigo plantations of the coastal plain the streets workshops and wharves of Charleston and the farms and estates of the upcountry In doing so he provides a fine grained analysis of how enslaved laborers interacted with their enslavers in the workplace and other locations where they encountered one another as plantation agriculture came to dominate the colony The Enslaved and Their Enslavers sets this portrait of early South Carolina against broader political events economic developments and social trends that also shaped the development of slavery in the region For example the outbreak of the American Revolution and the subsequent war against the British in the 1770s and early 1780s as well as the French and Haitian revolutions all had a profound impact on the institution s development both in terms of what enslaved people drew from these events and how their enslavers responded to them Throughout South Carolina s long history enslaved people never accepted their enslavement passively and regularly demonstrated their fundamental opposition to the institution by engaging in acts of resistance which ranged from vandalism to arson to escape and on rare occasions organizing collectively against their oppression Their attempts to subvert the institution in which they were held captive not only resulted in slaveowners tightening formal and informal mechanisms of control but also generated new forms of thinking about race and slavery among whites that eventually mutated into pro slavery ideology and the myth of southern exceptionalism **The Presidents of the United States** ,1993 *Washington's Revolutionary War Generals* Stephen R. Taaffe,2019-10-03 When the Revolutionary War began Congress established a national army and appointed George Washington its commander in chief Congress then took it upon itself to choose

numerous subordinate generals to lead the army's various departments, divisions and brigades. How this worked out in the end is well known. Less familiar, however, is how well Congress's choices worked out along the way. Although historians have examined many of Washington's subordinates, *Washington's Revolutionary War Generals* is the first book to look at these men in a collective, integrated manner. A thoroughgoing study of the Revolutionary War careers of the Continental Army's generals, their experience, performance and relationships with Washington and the Continental Congress, this book provides an overview of the politics of command both within and outside the army and a unique perspective on how it affected Washington's prosecution of the war. It is impossible to understand the outcome of the War for Independence without first examining America's military leadership, author Stephen R. Taaffe contends. His description of Washington's generals, who they were, how they received their commissions and how they performed, goes a long way toward explaining how these American officers, who were short on experience and military genius, prevailed over their professional British counterparts. Following these men through the war's most important battles and campaigns, as well as its biggest controversies, such as the Conway Cabal and the Newburgh Conspiracy, Taaffe weaves a narrative in the grand tradition of military history. Against this backdrop, his depiction of the complexities and particulars of character and politics of military command provides a new understanding of George Washington, the War for Independence and the U.S. military's earliest beginnings. A unique combination of biography and institutional history, shot through with political analysis, this book is a thoughtful, deeply researched and an eminently readable contribution to the literature of the Revolution.

The Papers of George Washington: September-December 1775 George Washington, 1985 Historical Documentary Editions, 1986 **Black Founders** Cassandra Pybus, 2006 *Black Founders* changes the way we think about the foundation of Australia. In an evocative and compelling narrative, distinguished historian and prize-winning author Cassandra Pybus reveals how the settlement of Australia was a multi-racial process from the outset. Pybus has uncovered that our black founders were originally slaves from America who sought freedom with the British during the American Revolution, only to find themselves abandoned and unemployed in England once the war was over. **BOOK JACKET** The Remarkable Cause Jean C. O'Connor, 2021-02-16 In icy March winds, pounded by the Americans' cannon, General Howe evacuates British troops and Loyalists from Boston. James Lovell is forced into a ship bound for Halifax, while his father and family take passage for the British stronghold in the ship's upper berth. In jail in Halifax, James can only write letters and pray for release, hoping General George Washington will hear his appeal. In *The Remarkable Cause*, experience, conflict and courage in the roots of the American Revolution: protests over the Stamp Act and Townshend Acts, hanging in effigy, tar and feathering, tension of the Boston Massacre, trials, troops charging Bunker Hill, dreadful conditions in British jails for James and his fellow prisoners, the strength of a friend, Ethan Allen of the Green Mountain Boys. James's passion for his family in his own words. Jean C. O'Connor, a high school English teacher for over thirty years, researched this story using letters, journals and documents written by James Lovell and his

contemporaries Inspired by a few sentences in her grandmother s journal Jean discovered details of that time far away yet still relevant Images from early newspapers and pictures enliven the narrative s pages America, History and Life ,1993

Rebels Rising Benjamin L. Carp,2007-08-22 The cities of eighteenth century America packed together tens of thousands of colonists who met each other in back rooms and plotted political tactics debated the issues of the day in taverns and mingled together on the wharves or in the streets In this fascinating work historian Benjamin L Carp shows how these various urban meeting places provided the tinder and spark for the American Revolution Carp focuses closely on political activity in colonial America s five most populous cities in particular he examines Boston s waterfront community New York tavern goers Newport congregations Charleston s elite patriarchy and the common people who gathered outside Philadelphia s State House He shows how because of their tight concentrations of people and diverse mixture of inhabitants the largest cities offered fertile ground for political consciousness political persuasion and political action The book traces how everyday interactions in taverns wharves and elsewhere slowly developed into more serious political activity Ultimately the residents of cities became the first to voice their discontent Merchants began meeting to discuss the repercussions of new laws printers fired up provocative pamphlets and protesters took to the streets Indeed the cities became the flashpoints for legislative protests committee meetings massive outdoor gatherings newspaper harangues boycotts customs evasion violence and riots all of which laid the groundwork for war Ranging from 1740 to 1780 this groundbreaking work contributes significantly to our understanding of the American Revolution By focusing on some of the most pivotal events of the eighteenth century as they unfolded in the most dynamic places in America this book illuminates how city dwellers joined in various forms of political activity that helped make the Revolution possible

Embracing the Song of Phrase: An Mental Symphony within **The Papers Of George Washington Revolutionary Series 2 September December 1775**

In some sort of used by displays and the ceaseless chatter of fast interaction, the melodic splendor and emotional symphony produced by the published term usually diminish in to the background, eclipsed by the relentless noise and disruptions that permeate our lives. But, set within the pages of **The Papers Of George Washington Revolutionary Series 2 September December 1775** an enchanting fictional value full of organic feelings, lies an immersive symphony waiting to be embraced. Constructed by an outstanding composer of language, that interesting masterpiece conducts viewers on an emotional journey, skillfully unraveling the concealed tunes and profound affect resonating within each carefully constructed phrase. Within the depths with this poignant analysis, we will explore the book is key harmonies, analyze their enthralling writing design, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
