The Paragraph System To Successful Writing:

The Paragraph System for Successful Writing Caulean Vesey, 1990-06-01 Effective Writing Pedro Pak-tao Ng, 2003

This book offers basic guidelines on writing effectively for academic purposes. It reminds students that writing is an integral part of the learning process and shows them how to write clear sentences, coherent paragraphs, and well-organized papers. It explains in detail matters of style and format, including how to quote, cite, and list reference sources using both APA and ASA styles, and how to present quantitative and qualitative research results. Students can also learn how to revise, edit, and proofread to produce a high-quality paper. While this guide is prepared for the use of both undergraduate and postgraduate students in the social sciences, it contains a great deal of useful material that can help students studying other disciplines to write better academic papers. To make the book more helpful, topics such as subject-verb agreement, the use of articles, verb tenses, and punctuation are included in the appendices. Also included are detailed comments on revision of faulty sentences taken from student writing and an extensive appendix on the use of over 300 selected words and phrases with explanatory notes and example sentences.

We learn to speak and understand our native language without any great effort for these are natural aspects of the maturation of every human being. The skills of reading and writing by contrast have to be learned usually in an educational context. Now when it comes to a foreign language all the skills speaking understanding reading and writing have to be learned nothing can be acquired without considerable effort. This learning process does not take place in a vacuum it is heavily influenced by our previous experience of acquiring our native language and learning to read and write it. These facts have been taken as the background to this book. We aim this book at native speakers of Dutch who have learned to read and write their own language and who now wish to add skill in writing English to their repertoire. Since this is our well defined target group we will be continually pointing to those aspects of written English which differ from comparable aspects of written Dutch while also giving a complete guide to the writing process. There are two matters concerning the presentation of information in this book that require clarification in advance. Firstly the book contains hundreds of numbered examples.
