The Parent Test How To Measure And Develop Your Talent For Parenthood:

The Parent Test Ellen Peck, William Granzig, 1978 *The Baby Matrix* Laura Carroll, 2012-05-17 In the movie *The Matrix* the character Morpheus offers two pills to Neo if he takes the blue pill he will go on with life as he has before believing what he has always believed If he takes the red pill he will find out what the matrix really is and many of his earlier beliefs will be shattered When it comes to taking a hard look at a specific set of beliefs about parenthood and reproduction that has driven our society for generations *The Baby Matrix* is the red pill *The Baby Matrix* looks at long held beliefs about parenthood and reproduction and unravels why we believe what we believe It lays out We commonly think our desire to have children boils down to our biological wiring but author Laura Carroll says it s much more than that Unlike other books on parenthood *The Baby Matrix* Why Freeing Our Minds From Outmoded Thinking About Parenthood Reproduction Will Create a Better World takes a serious look at powerful social and cultural influences that drive the desire for the parenthood experience and lays out why we need to be very aware of these influences to make the most informed decisions about parenthood the historical origins of beliefs about parenthood and reproduction why many of these beliefs no longer work for society or were never true in the first place why we continue to believe them anyway the prices society pays as a result *The Baby Matrix* shows us how we got here brings to light what is true which includes knowing about the powerful influence of pronatalism and explains why society can no longer afford to leave pronatalism unquestioned This is not a book about convincing people not to have children says Carroll I want people to be very aware of the long held social and cultural pressures and be able to free themselves from those pressures when making parenthood choices This will result in more people making the best decisions for themselves will foster a society in which those who are best suited to become parents are the ones who have children and one that knows what it means to bring a child into the world today This book will make you examine your own intentions and beliefs will rile you and might just change your mind Whether you are already a parent want to become a parent are still making up your mind or know you don t want children you ll never think about parenthood in the same way *The Baby Matrix* is a must read for anyone interested in psychology sociology anthropology parenting issues environmentalism and social justice But most of all it s for anyone parent or not who reveres the truth and wants the best for themselves their families and our world
