A Selection in Modern Spelling. Edited with an Introduction, Notes, and Glossary by Norman Davis** Norman DAVIS (M.B.E., M.A.),PASTON LETTERS.,1963 [The Paston Letters](#) Paston,1978 **Paston Letters and Papers** Norman Davis,1963 *The Paston Women* Diane Watt,2004 The Paston letters viewed in the context of medieval women s writing and medieval letter writing The Paston letters form one of only two surviving collections of fifteenth century correspondence in their case especially rich in letters from the women of the family Clandestine love affairs secret marriages violent family rows bickering with neighbours battles and sieges threats of murder and kidnapping fears of plague these are just some of the topics discussed in the letters of the Paston women Diane Watt s introduction seeks to place these letters in the context of medieval women s writing and and medieval letter writing Her interpretive essay reconstructs the lives of these women by examining what the letters reveal about women s literacy and education life in the medieval household religion and piety health and medicine and love marriage family relationships and female friendships in the middle ages Professor Diane Watt is Head of the School of English and Languages University of Surrey **Medieval Women's Writing** Diane Watt,2007-10-22 Medieval Women s Writing is a major new contribution to our understanding of women s writing in England 1100 1500 The most comprehensive account to date it includes writings in

Latin and French as well as English and works for as well as by women Marie de France Clemence of Barking Julian of Norwich Margery Kempe and the Paston women are discussed alongside the Old English lives of women saints The Life of Christina of Markyate the St Albans Psalter and the legends of women saints by Osbern Bokenham Medieval Women s Writing addresses these key questions Who were the first women authors in the English canon What do we mean by women s writing in the Middle Ages What do we mean by authorship How can studying medieval writing contribute to our understanding of women s literary history Diane Watt argues that female patrons audiences readers and even subjects contributed to the production of texts and their meanings whether written by men or women Only an understanding of textual production as collaborative enables us to grasp fully women s engagement with literary culture This radical rethinking of early womens literary history has major implications for all scholars working on medieval literature on ideas of authorship and on women s writing in later periods The book will become standard reading for all students of these debates

From Texts to Bodies Jacqueline Murray, 2025-04-24 From Texts to Bodies Sexes Genders and Sexualities in Premodern Europe reflects the historiographical changes to the study of women gender and sexuality in premodern Europe across the 1990s into the 2010s Developing from post Baby Boom interest in marriage and the family subsequently inspired by feminist theory and cultural studies scholars turned their gaze to the wider field of sex and gender Using an interdisciplinary methodology and a broad cross section of medieval primary sources these articles trace the evolution of medieval studies from the family through women and gender to focus on sex and sexuality concluding with critical analyses of men masculinity and male embodiment Part I focuses on medieval women within the context of marriage family and the church and reveals new approaches to recovering women s

experiences The articles sit at the transition point between recuperative women s history and critical gender history Part II uses an interdisciplinary lens to examine the body sex and sexuality and the intersections of sex sexualities and genders The innovative articles in Part III comprise the foundations for the critical analysis of premodern men masculinity embodiment and male sexuality Together these studies demonstrate the expansion of research from the examination of theoretical texts to the analysis of bodies as lived experience This volume will be of interest to scholars and students of premodern marriage genders sexualities and embodiment as well as those interested in the social and religious contexts of premodern society Clear and accessible this volume also provides an introduction and overview for readers with a broad interest in the Middle Ages

The Oxford History of Literary Translation in English Roger Ellis,2008-03-20 THE OXFORD HISTORY OF LITERARY TRANSLATION IN ENGLISH General Editors Peter France and Stuart Gillespie This groundbreaking five volume history runs from the Middle Ages to the year 2000 It is a critical history treating translations wherever appropriate as literary works in their own right and reveals the vital part played by translators and translation in shaping the literary culture of the English speaking world both for writers and readers It thus offers new and often challenging perspectives on the history of literature in English As well as examining the translations and their wider impact it explores the processes by which they came into being and were disseminated and provides extensive bibliographical and biographical reference material Volume 1 of The Oxford History of Literary Translation in English originates with what medievalists have long known that virtually everything written in the Middle Ages in English can be regarded one way or another as a translation and that medieval understandings of what constitutes literature were significantly more generous than many modern ones It uses modern as well as medieval understandings of translation to inform its discussions the two understandings have a great deal in common and it aims to situate medieval translation in English as fully as possible in its various cultural contexts this includes in particular the complicated inter relations of translation throughout the period into Latin and for the Middle English period of translation in French Since it also understands the Middle Ages of its title as including the first half of the sixteenth century it studies what has survived of nearly a thousand years of translation activity in England *Writing War*

'A Great Effusion of Blood'? Mark D. Meyerson, Daniel Thiery, Oren Falk, 2015-03-27 A great effusion of blood was a phrase used frequently throughout medieval Europe as shorthand to describe the effects of immoderate interpersonal violence Yet the ambiguity of this phrase poses numerous problems for modern readers and scholars in interpreting violence in medieval society and culture and its effect on medieval people Understanding medieval violence is made even more complex by the multiplicity of views that need to be reconciled those of modern scholars regarding the psychology and comportment of medieval people those of the medieval persons themselves as perpetrators or victims of violence those of medieval writers describing the acts and those of medieval readers the audience for these accounts Using historical records artistic representation and theoretical articulation the contributors to this volume attempt to bring together these views and fashion a comprehensive understanding of medieval conceptions of violence Exploring the issue from both historical and literary perspectives the contributors examine violence in a broad variety of genres places and times such as the Late Antique lives of the martyrs Islamic historiography Anglo Saxon poetry and Norse sagas canon law and chronicles English and Scottish ballads the criminal records of fifteenth century Spain and more Taken together the essays offer fresh ways of analysing medieval violence and its representations and bring us closer to an understanding of how it was experienced by the people who lived it
