Theosophy René Guénon,2004 Since the late nineteenth century the Theosophical Society has been a central force in the movement now known as the New Age Just as the Communist Party was considered old hat by peace activists in the 60s so the Theosophical Society was looked upon by many in the spiritual revolution of those years as cranky uninteresting and pass But the Society like the Party was always there and despite its relatively few members always better organized than anybody else Since then the Society s influence has certainly not waned It plays an important role in today s global interfaith movement and since the flowering of the New Age in the 70s has established increasingly intimate ties with the global elites And its various spinoffs such as Elizabeth Clare Prophet s Summit Lighthouse and Benjamin Creme s continuing attempt to lead a World Teacher Maitreya onto the global stage just as the Society tried to do in the last century with Krishnamurti continue to send waves through the sea of alternative spiritualities Gu non shows how our popular ideas of karma and reincarnation actually owe more to Theosophy than to Hinduism or Buddhism provides a clear picture of the charlatanry that was sometimes a part of the Society s modus operandi and gives the early history of the Society s bid for political power particularly its role as an agent of British imperialism in India It is fitting that this work should finally appear in English just at this moment when the influence of pseudo esoteric spiritualities on global politics is probably greater than ever before in Western history *Theosophical Enlightenment* Joscelyn Godwin,1994-01-01 *Theosophy as the Masters See it* Clara M. Codd,1926 **Theosophical Siftings** ,1891 **The Theosophical Forum** ,1895 The Path of Brotherhood Mark L. Prophet,Elizabeth Clare Prophet,2003 A mystical look at the Twelve Tribes the Twelve Apostles the golden age family and spiritual keys to reaching world brotherhood including the realisation of a spirit of unity and co operation in spiritual organisations **The Path of the Soul After Death** Peter Selg,2010-10 We are separated from the spiritual worlds only by states of consciousness not by spatial circumstances States of consciousness are what separate us Rudolf Steiner Rudolf Steiner saw relationships with the dead as the religious attitude of the future in the highest sense Becoming comfortable with thinking and speaking of the dead as concretely as we speak of the living will profoundly affect human activity To Steiner the enlivening and even the sanctification of earthly existence are not merely connected directly with our relationship to death and to the deceased in fact that relationship deepens these qualities and makes them possible Steiner spoke frequently about death and the human soul s continued existence as well as about the importance of establishing a new kind of community

that unites spiritually active human souls that endure beyond death The Path of the Soul after Death shows how Rudolf Steiner commemorated the dead the words he chose to use and his descriptions sometimes in great detail of the inner processes involved What becomes clear is the extent to which his connections to the deceased shaped his addresses and related to their new stage of existence Inasmuch as his words were in harmony with human soul development after death they not only recapitulated a biography but also assisted the deceased individual along the path after death We cannot understand the true depth and meaning of Steiner s words about those who have died except against the background of an anthropological study of the period immediately after death The second part of the book therefore is a stunningly clear and detailed account of anthroposophic research into the process of dying and the soul s path after death He tells us The phenomenon of death sets in like this In the moment of death the connection of the etheric and astral bodies to the physical bodies dissolves specifically in the heart The heart is illuminated so to speak and then the ether body astral body and I rise above the head Rudolf Steiner described this moment of having died as the consummate event During the individual s time away from Earth this moment is constantly in view It is filled with beauty grandeur and sunny bright warmth related to Christ It is essential to developing and dynamically maintain self awareness adapted specifically to the spiritual world In this connection Rudolf Steiner said Throughout human life between death and a new birth it is possible to look back on the moment of death and therefore that moment provides our consciousness after death We know that we have laid aside our physical body Knowing this and having it constantly before us gives us our self awareness after death just as we derive self awareness here in the physical world from actually having a physical body When we are outside of the physical body with our astral body and I between falling asleep and waking up again we have no consciousness of the physical world When awakening we must re occupy these bodies so that I consciousness can blossom again After death whenever we look back on the moment of dying whenever that whole event which is so grand and beautiful from the perspective of the other side stands before our soul consciousness is rekindled Consciousness after death depends entirely on repeated viewing of this moment Kassel February 18 1916 The Path of the Soul after Death is an important addition to the body of anthroposophic literature on our relationship on Earth to those who have died Peter Selg does a great service in gathering and amplifying much of what Steiner had to say on the subject This book is a translation from German of Rudolf Steiners Toten Gedenken Die Verstorbenen der Dornacher Bau und die Anthroposophische Gesellschaft Verlag Ita Wegman Institut 2009 The Theosophical Movement ,1992
