### **Reading Song**

**Lyrics** Glenn Fosbraey, 2025-08-05 This book will provide an exploration of how popular songs have been analysed in the past before detailing how an interdisciplinary approach is necessary to appreciate the multimodal format of the medium

Beginning by examining what we can gain from staying inside the song it will explore the role the listener has in determining meaning within a song before moving on to how through their lyrics songwriters can persuade their audience to react in the desired ways Lyrical storytelling will also be analysed in terms of the narratives we find within individual songs but also through song sequences where the story spans multiple songs across different projects and also the concept album format As we move outside the song we see what can be offered in terms of cultural significance the difference between real events and their lyrical representations how the format we listen to music in influences our readings and to what extent visual materials affect our relationships with songs
