How Sex Got Screwed Up: The Ghosts that Haunt Our Sexual Pleasure - Book One Jon Knowles,2019-03-31 The ghosts that haunt our sexual pleasure were born in the Stone Age Sex and gender taboos were used by tribes to differentiate themselves from one another These taboos filtered into the lives of Bronze and Iron Age men and women who lived in city states and empires For the early Christians all sex play was turned into sin instilled with guilt and punished severely With the invention of sin came the construction of women as subordinate beings to men Despite the birth of romance in the late middle ages Renaissance churches held inquisitions to seek out and destroy sex sinners all of whom it saw as heretics The Age of Reason saw the demise of these inquisitions But it was doctors who would take over the roles of priests and ministers as sex became defined by discourses of crime degeneracy and sickness The middle of the 20th century saw these medical and religious teachings challenged for the first time as activists such as Alfred Kinsey and Margaret Sanger sought to carve out a place for sexual freedom in society However strong opposition to their beliefs and the growing exploitation of sex by the media at the close of the century would ultimately shape 21st century sexual ambivalence Volume I of this two part publication traces the history of sex from the Stone Age to the Enlightenment Interspersed with personal hauntings from his own life and the lives of friends and relatives Knowles reveals how historical discourses of sex continue to haunt us today This book is a page turner in simple and plain language about how sex got screwed up for millennia For Knowles if we know the history of sex we can get over it

A Time to Live Robert Raines, 1998-11-01. In *A Time To Live* Robert Raines explores the spiritual and emotional dimensions of what can be the most rewarding time of life. Drawing on his experiences as an ordained minister and as director of a non denominational retreat center focusing on issues of personal growth, Raines delineates the important passages we must all make from our middle years in the process of growing older. In an approach that is both meditative and inspirational, drawing from a variety of backgrounds, anecdotes and literature, Raines provides a new perspective on the aging process and its implications. To make the most of this ultimate period of life, he argues, we must each confront certain issues: waking up to mortality, embracing sorrow, savoring blessedness, reimagining work, nurturing intimacy, seeking forgiveness, and taking on the mysterious process of exploring what is yet to be done in life with a sense of possibility and hope. For the millions of baby boomers just entering their fifties and others approaching their sixties who are determined to be aware and take advantage of the challenges they face, *A Time To Live* is the only book to directly address their needs. Sure to be a welcome and important spiritual guide for many, it offers the possibility of fulfillment and personal satisfaction.

A Menopausal Memoir Anne C Herrmann, 2014-01-14. The only extended first person narrative about menopause, *A Menopausal Memoir* (Letters from Another Climate) explores the connection between menopause, mourning, and memory through nine fictional letters written to different addressees. The letters explain the author's own experience of having a hysterectomy without her permission during surgery for endometriosis and being thrown into instant menopause. Herrmann expresses her experiences differently in each letter, based on the recipient's gender, sexual identity, and age, revealing the complexities of accepting menopause. Psychotherapists, psychologists, physicians, medical students, academics, and those interested in women's health and women's studies will receive insight into one woman's experience and will learn how our bodies mold our sexual identity and shape many aspects of our lives. Writing these letters from the point of view of a scholar engaged in personal narrative but not in the familiar narrative of a woman married with children, Herrmann examines her journey of loss, recovery, and healing through feminist theory. The letters in *A Menopausal Memoir* reveal many other issues, including the relationship between the female body and the meanings attached to it, the different ways women tell their stories about difficult experiences, negotiating the relationship between growing older and sexual identity, the body's responses to the loss of organs that form

inform its history the connection between body identity and disease A highly personal yet theoretical approach to the experience of menopause A Menopausal Memoir explores how changes in the body affect your sexual identity your relationships and your feelings as a woman *The Power Presenter* Jerry Weissman,2020-12-15 Present with Power Poise and Confidence In Any Environment Live or Virtual To succeed leaders must deliver powerful presentations at every opportunity speeches fireside chats briefings pitches virtual meetings videoconferences podcasts and beyond Whether you are in front of a live audience or a webcam the way you present yourself verbally and non verbally is crucial to your success Top presentation coach Jerry Weissman gives you the same battle tested techniques styles and strategies he has provided to senior executives at thousands of companies His proven methodology has enabled presenters to attract investors sell products propose partnerships and get high stakes projects approved You will follow a step by step plan to shape your content control your nerves master your body language integrate your graphics with your delivery and much more The Power Presenter is packed with proven techniques practical tools and case studies of famous power presenters including many business leaders new to this edition It will help you engage any audience from start to finish and deliver persuasive presentations when it counts most Part of the Jerry Weissman Presentation Trilogy Also look for updated Third Editions of Presenting to Win The Art of Telling Your Story and Designing Your Slides In the Line of Fire How to Handle Tough Questions When it Counts **A Conversation Analysis Approach to French L2 Learning** Clelia König,2019-12-06 This book offers a critical examination of second language L2 learning outside institutional contexts with a focus on the way second language learners introduce close and manage conversational topics in everyday settings König adopts a Conversation Analysis for Second Language Acquisition CA SLA approach in analyzing oral data from a longitudinal study of L2 learners of French au pairs in Swiss families over several years With this approach the author presents insights into the ways in which L2 learners introduce and close conversational topics in ongoing conversations and how these strategies evolve over time setting the stage for future research on this little documented process in second language acquisition This volume contributes toward a greater understanding of L2 learning in the wild making this key reading for students and researchers in second language acquisition applied linguistics and French language learning and teaching **The Feisty Woman's Breast Cancer Book** Elaine Ratner,1999 Addresses the emotional and psychological challenges of fighting breastcancer refutes popular assumptions about treatment and post treatmentptions and offers guidance for making health decisions *Wise Women* Phyllis Freeman,Jan Schmidt,2013-12-02 Wise Women is a collection of autobiographical essays by important and renowned teachers at mid life The essays which are deeply personal will focus on how these women negotiate the psychological physical and social changes brought on by menopause and how the aging process affects their lives as professionals feminists writers mentors and instructors in the academy The book addresses such questions as the following What challenges are left for the feminists who came of age during the women s movement and now have achieved academic
