Sbrega, 2015-06-12 With over 5 200 entries this volume remains one of the most extensive annotated bibliographies on the USA's fight against Japan in the Second World War Including books articles and declassified documents up to the end of

1987 the book is organized into six categories Part 1 presents reference works including encyclopedias pictorial accounts military histories East Asian histories hisotriographies Part 2 covers diplomatic political aspects of the war against Japan Part 3 contains sources on the economic and legal aspects of the war against Japan Part 4 presents sources on the military aspects of the war embracing land air and sea forces Religious aspects of the war are covered in Part 5 and Part 6 deals with the social and cultural aspects including substantial sections on the treatment of Japanese minorities in the USA Hawaii Canada and Peru Infantry Journal ,1947 Command Failure At The War Pasquale De Marco, In the annals of American history the surprise attack on Pearl Harbor on December 7 1941 looms as a pivotal moment forever etched in the nation s memory as a day of infamy and a catalyst for its entry into World War II Command Failure At The War delves into the intricate web of events leading up to this devastating assault the catastrophic consequences it unleashed and the profound aftermath that reshaped the course of history With meticulous research and gripping narrative this book transports readers to the volatile geopolitical landscape of the Pacific region in the years preceding the attack The Imperial Japanese Navy s ambitions for expansion and control clashed with American interests setting the stage for a clash of titans As tensions escalated intelligence failures and miscalculations on both sides played a pivotal role in the unfolding tragedy Despite warnings of a potential attack the United States military was caught off guard resulting in catastrophic losses and a profound sense of vulnerability In the aftermath of Pearl Harbor a wave of shock and outrage swept across the nation Investigations and inquiries sought to determine responsibility for the disaster resulting in a heated debate over military preparedness intelligence gathering and the role of individual leaders Beyond the immediate devastation Pearl Harbor left a lasting legacy of lessons learned and reforms implemented It underscored the importance of intelligence sharing coordination between military branches and the need for constant vigilance in a rapidly changing world This book pays tribute to the heroes of Pearl Harbor the survivors who endured unimaginable horrors and the countless individuals who rallied together to defend their nation Their stories of courage resilience and sacrifice serve as a poignant reminder of the indomitable spirit that defines the American people If you like this book write a review Cryptology and the Winds Message Controversy Robert J. Hanyok,2008 War is a Racket II Robert F. Boland,2019-06-27 This is not an anti war book Rather the book is about the bad behavior of the US government in Washington DC in taking the country into military adventures when it is not necessary To state that the country should never go to war would be irresponsible Wars cannot always be avoided A characteristic of the United States foreign policy establishment is their refusal to admit they made a mistake There are never any consequences for invading the wrong country The establishment carries on as if everything is okay and they quickly forget about the dead and crippled Currently the US has approximately 800 bases in seventy countries As of November 2016 the US was dropping bombs on seven different countries This book does not favor either political party However some may disagree In 1935 retired General Smedley Butler published a small book entitled War Is a Racket which explained how and why the US

Government manipulates the country into various wars and military interventions for power and their own selfish interest This is an update on General Butler s 1935 book Most of us have heard or read the following words many times We are forced to go to war or do a military intervention to save our liberty and freedom to make the world safe for democracy a war to end all wars to save the world from communist or whatever to protect American lives to save the world from a country that might possess weapons of mass destruction etc This is a book explaining how the United States government manipulated and lied its way into a number of wars and military interventions This information will not normally be taught in your school history class or viewed on your history channel This is not conspiracy theory stuff You can look it all up This information is available to all citizens if they care to research it Some of this information may shock you **Reassessing the Presidency** David Gordon, Thomas J. DiLorenzo, Thomas E. Woods, Jr, Yuri N. Maltsev, Ralph Raico, Paul Gottfried, Hans-Hermann Hoppe, 2013-09-19 American Despots Amazing low sale price in defense of authentic freedom as versus the presidency that betrayed it Everyone seems to agree that brutal dictators and despotic rulers deserve scorn and worse But why have historians been so willing to overlook the despotic actions of the United States own presidents You can scour libraries from one end to the other and encounter precious few criticisms of America s worst despots The founders imagined that the president would be a collegial leader with precious little power who constantly faced the threat of impeachment Today however the president orders thousands of young men and women to danger and death in foreign lands rubber stamps regulations that throw enterprises into upheaval controls the composition of the powerful Federal Reserve and manages the priorities millions of swarms of bureaucrats that vex the citizenry in every way It is not too much of a stretch to say that the president embodies the Leviathan state as we know it Or more precisely it is not an individual president so much as the very institution of the presidency that has been the major impediment of liberty The presidency as the founders imagined it has been displaced by democratically ratified serial despotism And for that reason it must be stopped Every American president seems to strive to make the historians A list by doing big and dramatic things wars occupations massive programs tyrannies large and small in hopes of being considered among the greats such as Lincoln Wilson and FDR They always imagine themselves as honored by future generations the worse their crimes the more the accolades Well the free ride ends with **Reassessing the Presidency The Rise of the Executive State and the Decline of Freedom** edited by John Denson This remarkable volume 825 pages including index and bibliography is the first full scale revision of the official history of the U S executive state It traces the progression of power exercised by American presidents from the early American Republic up to the eventual reality of the power hungry Caesars which later appear as president in American history Contributors examine the usual judgments of the historical profession to show the ugly side of supposed presidential greatness The mission inherent in this undertaking is to determine how the presidency degenerated into the office of American Caesar Did the character of the man who held the office corrupt it or did the power of the office as it evolved corrupt the man Or was it a

combination of the two Was there too much latent power in the original creation of the office as the Anti Federalists claimed Or was the power externally created and added to the position by corrupt or misguided men There s never been a better guide to everything awful about American presidents No you won t get the civics text approach of see no evil Essay after essay details depredations that will shock you and wonder how American liberty could have ever survived in light of the rule of these people Contributors include George Bittlingmayer John V Denson Marshall L DeRosa Thomas J DiLorenzo Lowell Gallaway Richard M Gamble David Gordon Paul Gottfried Randall G Holcombe Hans Hermann Hoppe Jeffrey Rogers Hummel Michael Levin Yuri N Maltsev William Marina Ralph Raico Joseph Salerno Barry Simpson Joseph Stromberg H Arthur Scott Trask Richard Vedder and Clyde Wilson

**Ultimate Sacrifice** Lamar Waldron,Thom Hartmann,2013-08-22 Drawing on seventeen years of research thousands of recently declassified files and dozens of interviews Ultimate Sacrifice re creates and in many ways rewrites the crucial period of our history leading up to November 22 1963 In the process this groundbreaking account provides the missing pieces to the greatest tragic puzzle of post war America the true circumstances behind the assassination of President John F Kennedy Ultimate Sacrifice details a previously unknown Plan for a Coup in Cuba authorized by President John Kennedy run by Attorney General Robert Kennedy and set for December 1 1963 The Kennedy plan unique and different from ant previously disclosed operation was as detailed in a Joint Chiefs of Staff memo to have included a palace coup a provisional Cuban government and if necessary a full scale invasion by invited US military forces The CIA s code name for their part of the operation AMWORLD has never previously surfaced in any government investigation nor in any book or article making it one of the most covert operations in United States history Ultimate Sacrifice will detail how the Kennedy plan was penetrated by three mafia godfathers Carlos Marcello Santo Trafficante and Johnny Roselli being vigorously pursued by Attorney General Robert Kennedy along with a dozen of their associates six of whom were also working on the Coup plan The crime bosses then used parts of the Coup Plan AMWORLD to arrange JFK s assassination in a way that would prevent a truly thorough government investigation in order to protect the Coup Plan its participants and national security By using the secrecy surrounding the Plan the mob bosses would target JFK not only in Dallas but in two earlier attempts one in Chicago on November 1 and then one in Tampa on November 18 which Ultimate Sacrifice reveals for the first time in any book Ultimate Sacrifice has finally pieced together the whole story by building on the work of the seven governmental committees that have investigated aspects of the assassination on the work of former government investigators and on the four million documents that were declassified in the 1990s in addition to exclusive interviews with dozens of witnesses and participants including Secretary of State Dean Rusk Press Secretary Pierre Salinger and the Kennedys closest Cuban exile aide Harry Ruiz Williams

*Advising Ike* Herbert Brownell, John P. Burke, 1993 In this enlightening volume Brownell the man Dwight D Eisenhower said would make an outstanding president recounts his achievements and trials as the GOP's most successful presidential operative of the 1940s and 50s and as Attorney General at a crucial time in American history Political science professor and coauthor Burke is the author of *The Institutional Presidency* 26 photographs      *Pigweed and Cream of Wheat: The Heart and Mind of A War Prisoner* William Samuel Boston, 2021-03-22 Title *Pigweed and Cream of Wheat The Heart and Mind of a War Prisoner* The eyewitness details of the war inflicted by the Japanese in the Pacific theater particularly in the Philippines have never been captured from beginning to end is indeed a compelling read The unfolding of Japan's ambitious goal to control Asia from the invasion of Manchuria the attack on Pearl Harbor and the conquering of the Philippines are narrated as only someone who experienced the events firsthand could Perhaps lessons could be gleaned from history Presently China is encroaching regions in the South China Sea Below are items quoted from various sources On July 12 2016 a ruling by an international tribunal in The Hague settled the issue of historic rights and maritime entitlements in the South China Sea

based on the 1982 U N Convention on the Law of the Sea The tribunal authoritatively ruled that China s claim of historic rights to resources within the sea had no basis in law The Permanent Court of Arbitration at The Hague issued its ruling on a claim brought against China by the Philippines under UNCLOS ruling in favor of the Philippines on almost every count While China is a signatory to the treaty which established the tribunal it refuses to accept the court s authority In recent years satellite imagery has shown China s increased efforts to reclaim land in the South China Sea by physically increasing the size of islands or creating new islands altogether In addition to piling sand onto existing reefs China has constructed ports military installations and airstrips particularly in the Paracel and Spratly Islands where it has twenty and seven outposts respectively China has militarized Woody Island by deploying fighter jets cruise missiles and a radar system The opinions of the writer reflect the conditions during his time but it won t be a leap to say that some of those conditions still exist today As the world grows older hopefully it becomes wiser
