The Peers The Parties And The People The General Elections Of 191:

Peers, the Parties and the People Neal Blewett, 1972-06-18 London Politics, 1760-1914 M. Cragoe, A. Taylor, 2005-11-14 This collection offers the first detailed investigation of political life in nineteenth century London London politics did not share the free trade and civil equality preoccupations of the provinces which currently dominate scholarly literature As these essays reveal the capital remained more concerned with older struggles for political independence By highlighting the inability of existing accounts to accommodate metropolitan distinctiveness the collection aims to stimulate a major reappraisal not of London politics alone but of Victorian political history more generally *The Politics of Reappraisal 1918-1939* Gillian Peele, Chris Cook, 1975-06-18 The Longman Companion to Britain in the Era of the Two World Wars 1914-45 Andrew Thorpe, 2014-09-19 In the momentous period barely 30 years covered by this systematic reference guide the Edwardian world was transformed unrecognisably through war technological progress and social change into the Nuclear Age It saw the coming of mass democracy the apogee of empire the Depression the threat of fascism the development of suburban society and as yet scarcely understood the end of Britain's international hegemony Andrew Thorpe's superb contribution to the Companions series illuminates all this and much else It will be indispensable to anyone interested in the history and politics of modern Britain **The First Labour Party 1906-1914** K. D. Brown, 2018-12-07 First published in 1985 The essays in this book pull together the diverse strands of research to give a comprehensive picture of the Labour Party which strived to carve out for itself a niche within an existing political framework The first part of the book examines the composition the national local and regional organisation of the party and its relations with the working classes the TUC and the Liberals In the second part the contributors discuss the party's stand on the main political issues of the day education the suffragettes Ireland and other major areas of concern in the political arena at the beginning of the century

Land and Society in Edwardian Britain Brian Short, 1997-04-07 This 1997 book is a standard reference to the 1910 New Domesday data essential for historians of Edwardian Britain *Age of Promises* David Thackeray, Richard Toye, 2021-03-25 *Age of Promises* explores the issue of electoral promises in twentieth century Britain how they were made how they were understood and how they evolved across time through a study of general election manifestos and election addresses The authors argue that a history of the act of making promises which is central to the political process but which has not been sufficiently analysed illuminates the development of political communication and democratic representation The twentieth century saw a broad shift away from politics viewed as a discursive process whereby at elections it was enough to set out broad principles with detailed policymaking to follow once in office following reflection and discussion Over the first part of the century parties increasingly felt required to compile lists of specific policies to offer to voters which they were then considered to have an obligation to carry out come what may From 1945 onwards moreover there was even more focus on detailed costed pledges We live in an age of growing uncertainty over the authority and status of political promises In the

wake of the 2016 EU referendum controversy erupted over parliamentary sovereignty Should the will of the people as manifested in the referendum result be supreme or did MPs owe a primary responsibility to their constituents and or to the party manifestos on which they had been elected Age of Promises demonstrates that these debates build on a long history of differing understandings about what status of manifestos and addresses should have in shaping the actions of government

Lloyd George, Liberalism and the Land Ian Packer, 2001 Table of contents *A New England?* G. R. Searle, 2005 G R Searle s narrative history breaks conventional chronological barriers to carry the reader from England in 1886 the apogee of the Victorian era with the nation poised to celebrate the empress queen s golden jubilee to 1918 as the war to end all wars drew to a close *A New England?* G. R. Searle, 2005-07-29 G R Searle s absorbing narrative history breaks conventional chronological barriers to carry the reader from England in 1886 the apogee of the Victorian era with the nation poised to celebrate the empress queen s golden jubilee to 1918 as the war to end all wars drew to a close leaving England to come to term with its price above all in terms of human life but also in the general sense that things would never be the same again This was an age of extremes a period of imperial pomp and circumstance with a political elite preoccupied with display and ceremony alongside the growing cult of the simple life the zenith of imperialism with its idealization of war on the one hand the start of the Labour Party a socialist renaissance and welfare politics on the other and a radical challenging of traditional gender stereotypes in the face of the prevailing cult of masculinity Under Professor Searle s historical microscope all the details of daily life spring into sharp relief Half forgotten figures such as Edward Carpenter Vesta Tilley and Sir Henry Campbell Bannerman take their place on stage beside Oscar Wilde the Pankhursts and Lloyd George Motoring and aviation to become such an intrinsic part of life within the next decades had their beginnings in this period as pastimes for the rich From the wretched slums of England s great cities to their bustling docks and factories from the grand portals of Westminster to the violent political challenges of the Ulster Unionists and the militant suffrage movement from Blackpool s tower and beach packed with holidaymakers to the trenches of the Western Front the energy creativity and often destructive turmoil of the years 1886 1918 are brought into focus in this magisterial history THE NEW OXFORD HISTORY OF ENGLAND The aim of the New Oxford History of England is to give an account of the development of the country over time It is hard to treat that development as just the history which unfolds within the precise boundaries of England and a mistake to suggest that this implies a neglect of the histories of the Scots Irish and Welsh Yet the institutional core of the story which runs from Anglo Saxon times to our own is the story of a state structure built round the English monarchy and its effective successor the Crown in Parliament While the emphasis of individual volumes in the series will vary the ultimate outcome is intended to be a set of standard and authoritative histories embodying the scholarship of a generation
