The Peoples Republic Of China Red Star Of The East:

The People's Republic of China Jane Werner Watson,1976 A geographic historic and social survey of the People's Republic of China **China, a Multimedia Guide** Mary Robinson Sive,1982 Background Information on the People's Republic of China Kenneth R. Whiting,Paul H. B. Godwin,1976 **The Bloomsbury Handbook of North Korean Cinema** Travis Workman,Dong Hoon Kim,Immanuel Kim,2025-01-23 This first handbook on North Korean cinema contests the assumption that North Korean film is unwatchable in terms of both quality and accessibility refusing to reduce North Korean cinema to political propaganda and focusing on its aesthetic forms and cultural meanings Since its founding in 1948 the Democratic People's Republic of Korea North Korea has played diverse roles a Cold War communist threat to the US the other half of a divided nation to South Korea an ally to the Soviet Union and China one model for anti colonialism to national liberation movements an exotic political and cultural anomaly in the era of globalization This handbook provides a solid and diverse foundation for the expanding scholarship on North Korean cinema It is also a road map for connecting this field to broader issues in film and media studies film history affect and ideology genre and transnational cinema cultures By connecting the worlds of North Korean cinema to broader questions in global cinema studies this book explores the complexity of a national cinema too often reduced to a single image People's Republic of China, Volumes I and II Frank N. Pieke,2023-12-31 This title was first published in 2002 This two volume set collects in a conveniently accessible form the most influential articles by leading authorities in the study of China It provides an international reference work combined with an authoritative introduction by the editor **Normalization of Relations with the People's Republic of China--practical Implications** ,1977 **China's Grand Strategy** Andrew Scobell,Edmund J. Burke,Cortez A. Cooper III,Sale Lilly,Chad J. R. Ohlandt,Eric Warner,J.D. Williams,2020-07-27 To explore what extended competition between the United States and China might entail out to 2050 the authors of this report identified and characterized China's grand strategy analyzed its component national strategies diplomacy economics science and technology and military affairs and assessed how successful China might be at implementing these over the next three decades **China and the Persian Gulf** Dr. Mordechai Chaziza,2019-11-14 Since China announced the Belt and Road Initiative BRI in 2013 the Gulf States have regarded it as a means for diversifying their national economies in order to reduce dependence on oil revenues and to achieve their national development strategy The Persian Gulf region has a significant role in the successful implementation of BRI Emerging strategic diplomatic and financial partnerships will enable China to control the flow of its exports to world markets The BRI has five major goals Policy coordination facilities connectivity free trade financial integration and people to people bonds Facilities connectivity which focuses on transportation and energy infrastructure is the initiatives priority The integration between the national development plans of Gulf monarchies the economic reconstruction plans of Iraq and Iran and the new economic goals of Saudi Arabia with Chinas Belt and Road vision have converged to bring forward opportunities

The implementation of the new Silk Road strategy will unleash a regional infrastructure boom by connecting China with Asia Europe and Africa by land and sea boosting renminbi internationalization Nevertheless there are challenges that could complicate the envisaged bilateral partnerships Saudi Arabia The strategic synergy between the BRI and Saudi Vision 2030 has forged a joint economic development path but external conflicts Yemen Iran could derail plans Iran While Tehran has a special geographical status in West Asia Washingtons decision to withdraw from the Iran nuclear agreement might create Sino Iranian trade barriers The UAE In July 2018 bilateral relations were elevated to a comprehensive strategic partnership The synergy between the BRI and UAE Vision 2021 is multifaceted trade energy infrastructure and logistics financial services military ties tourism and cultural cooperation but very complex Most of the Gulf States are governed by monarchies are at the primary stage of industrialization and are susceptible to US and European influence The challenges Chinas ascendancy poses for the US and the inevitable geopolitical fight back in conjunction with Gulf regional turbulence mean that the BRI project will face substantive challenges in the years ahead
