**Encyclopedia of Nineteenth-Century Photography** John Hannavy, 2013-12-16 The Encyclopedia of Nineteenth Century Photography is the first comprehensive encyclopedia of world photography up to the beginning of the twentieth century. It sets out to be the standard definitive reference work on the subject for years to come. Its coverage is global, an important first in that authorities from all over the world have contributed their expertise and scholarship towards making this a truly comprehensive publication. The Encyclopedia presents new and ground breaking research alongside accounts of the major established figures in the nineteenth century arena. Coverage includes all the key people, processes, equipment, movements, styles, debates, and groupings which helped photography develop from being a solution in search of a problem when first invented to the essential communication tool, creative medium, and recorder of everyday life which it had become by the dawn of the twentieth century. The sheer breadth of coverage in the 1200 essays makes the Encyclopedia of Nineteenth Century Photography an essential reference source for academics, students, researchers, and libraries worldwide.

**Twenty-First-Century Gothic** Maisha Wester, 2019-05-22 This resource in contemporary Gothic literature, film, and television takes a thematic approach, providing insights into the many forms the Gothic has taken in the twenty-first century.

**Feeling Photography** Elspeth H. Brown, Thy Phu, 2014-09-09 This innovative collection demonstrates the profound effects of feeling on our experiences and understanding of photography. It includes essays on the tactile nature of photos, the relation of photography to sentiment and intimacy, and the ways that affect pervades the photographic archive. Concerns associated with the affective turn, intimacy, alterity, and ephemerality, as well as queerness, modernity, and loss, run through the essays. At the same time, the contributions are informed by developments in critical race theory, postcolonial studies, and feminist theory. As the contributors bring affect theory to bear on photography, some interpret the work of contemporary artists such as Catherine Opie, Tammy Rae Carland, Christian Boltanski, Marcelo Brodsky, Zoe Leonard, and Rea Tajiri. Others look back, whether to the work of the American Pictorialist F. Holland Day or to the discontent masked by the smiles of black families posing for cartes de visite in a Kodak marketing campaign. With more than sixty photographs, including twenty in color, this collection changes how we see, think about, and feel photography past and present. Contributors: Elizabeth Abel, Elspeth H. Brown, Kimberly Juanita Brown, Lisa Cartwright, Lily Cho, Ann Cvetkovich, David L. Eng, Marianne Hirsch, Thy Phu, Christopher Pinney, Marlis Schweitzer, Dana Seitler, Tanya Sheehan, Shawn Michelle Smith, Leo Spitzer, Diana Taylor. **Russian Realisms** Molly Brunson, 2016-09-10 One fall evening in 1880, Russian painter Ilya Repin welcomed an unexpected visitor to his home: Lev Tolstoy. The renowned realists talked for hours, and Tolstoy turned his critical eye to the sketches in Repin's studio. Tolstoy's criticisms would later prompt Repin to reflect on the question of creative expression and conclude that the path to artistic truth is relative, dependent on the mode and medium of representation. In this original study, Molly Brunson traces many such paths that converged to form the tradition of nineteenth-century Russian realism, a tradition that spanned almost half a century, from the youthful projects of the Natural School and the critical realism of the age of reform to the mature

masterpieces of Tolstoy Fyodor Dostoevsky and the paintings of the Wanderers Repin chief among them By examining the classics of the tradition Brunson explores the emergence of multiple realisms from the gaps disruptions and doubts that accompany the self conscious project of representing reality These manifestations of realism are united not by how they look or what they describe but by their shared awareness of the fraught yet critical task of representation By tracing the engagement of literature and painting with aesthetic debates on the sister arts Brunson argues for a conceptualization of realism that transcends artistic media Russian Realisms integrates the lesser known tradition of Russian painting with the familiar masterpieces of Russia s great novelists highlighting both the common ground in their struggles for artistic realism and their cultural autonomy and legitimacy This erudite study will appeal to scholars interested in Russian literature and art comparative literature art history and nineteenth century realist movements Photography and Cinema Teresa M.
