The Imperial Idea And Its Enemies A Study In British Power:

The Imperial Idea and its Enemies A P Thornton, 1985-06-03 **The Imperial Idea and Its Enemies** Archibald Paton Thornton, 1963 **The Imperial Idea and Its Enemies**, 1963 **The Imperial Idea and Its Enemies** James Gordon Herbert Olle, 1959 **The Six-Day War of 1899** Patrick H. Hase, 2008-01-01 In 1899 a year after the Convention of Peking leased the New Territories to Britain the British moved to establish control This triggered resistance by the some of the population of the New Territories There ensued six days of fighting with heavy Chinese casualties This truly forgotten war has been thoroughly researched for the first time and recounted in lively style by Patrick Hase an expert on the people and history of the New Territories *A Companion to Early Twentieth-Century Britain* Chris Wrigley, 2008-04-15 This Companion brings together 32 new essays by leading historians to provide a reassessment of British history in the early twentieth century The contributors present lucid introductions to the literature and debates on major aspects of the political social and economic history of Britain between 1900 and 1939 Examines controversial issues over the social impact of the First World War especially on women Provides substantial coverage of changes in Wales Scotland and Ireland as well as in England Includes a substantial bibliography which will be a valuable guide to secondary sources *Canada and Colonialism* Jim Reynolds, 2024-05-15 Colonialism endures in Canada today Dismantling it requires an understanding of how colonialism operated across the British Empire and why Canada s colonial experience was unique Whereas colonies such as India were ruled through despotism and violence Canada s white settler population governed itself while oppressing the Indigenous peoples whose lands they were on Canada and Colonialism shows that Canadians support for colonial rule both at home and abroad is the reason colonialism remains entrenched in Canadian law and society today Author Jim Reynolds presents a truly compelling account of Canada s colonial coming of age and its impacts on Indigenous peoples including the settler led internal colonialism behind the Indian Act and those who enforced it As one of the nation s leading experts in Aboriginal law Reynolds provides a vital accounting of the historical underpinnings and contemporary challenges the nation must address to reconcile with Indigenous peoples and move toward decolonization **War in the Modern World** Theodore Ropp, 2000-10-02 From the Renaissance to the Cold War the definitive survey of the social political military and technological aspects of modern warfare returns to print in a new paperback edition Topics include land and sea warfare from the Renaissance to the neoclassical age the Anglo American military tradition the French Revolution and Napoleon the Industrial Revolution and war and the First and Second World Wars and their aftermath *The Origins of World War I* Richard F. Hamilton, Holger H. Herwig, 2003-02-24 This work poses a straightforward yet at the same time perplexing question about World War I Why did it happen Several of the oft cited causes are reviewed and discussed The argument of the alliance systems is inadequate lacking relevance or compelling force The arguments of mass demands those focusing on nationalism militarism and social Darwinism it is argued are insufficient lacking indications of frequency intensity and process how they

influenced the various decisions The work focuses on decision making on the choices made by small coterie in Austria Hungary Germany Russia France Britain and elsewhere The decisions made later by leaders in Japan the Ottoman Empire Italy the Balkans and the United States are also explored The final chapters review the basic causes once again An alternative position is advanced one focused on elites and coterie their backgrounds and training and on their unique agendas

The Need for a New Economic System John Scales Avery, 2016-02-07 It is clear that our present economic system is unsustainable Never ending exponential industrial growth on a finite planet is a logical absurdity We are already using resources at a rate which it would take 1.6 planet earths to replace We are already undermining the ecological systems which support all of life Our present economic system has led to an unbelievable degree of economic inequality To maintain this inequality both between nations and within nations military force is used and democracy is replaced by oligarchy The future of human civilization is endangered both by the threat of thermonuclear war and by the threat of catastrophic climate change and both of the twin threats are results of our present economic system This book documents in detail the serious economic problems of today's world and it also proposes sustainable solutions
