The Marvels Beyond Science - Being a Record of Progress Made in the Reduction of Occult Phenomena to a Scientific Basis Joseph Grasset, 2021-01-08 Spiritualism is a religious movement based on the belief that spirits of the deceased exist and are able to communicate with living people It began to develop in the 1840s and had reached its peak of popularity by the 1920s particularly in English speaking countries This vintage book contains a record of the progress made in the explanation of occult phenomenon through scientific reasoning by Joseph Grasset 1849 1918 a French parapsychological investigator and neurologist Contents include Definitions Historical Account Difficulties in Making this Survey A Definition of Occultism and Occult Phenomena Historical Account The Period of Animal Magnetism The Period of Spiritualism The Present Period Occultism the Promised Land of Science What Occultism is Not etc Many vintage books such as this are becoming increasingly scarce and expensive It is with this in mind that we are republishing this volume now in an affordable modern high quality edition complete with the original text and artwork

The Marvels Beyond Science Joseph Grasset, 1910 *The Secret Doctrine: The Synthesis of Science, Religion, and Philosophy (Complete)* Helena Petrovna Blavatsky, 2020-09-28 Since the appearance of Theosophical literature in England it has become customary to call its teachings Esoteric Buddhism And having become a habit as an old proverb based on daily experience has it Error runs down an inclined plane while Truth has to laboriously climb its way up hill Old truisms are often the wisest The human mind can hardly remain entirely free from bias and decisive opinions are often formed before a thorough examination of a subject from all its aspects has been made This is said with reference to the prevailing double mistake a of limiting Theosophy to Buddhism and b of confounding the tenets of the religious philosophy preached by Gautama the Buddha with the doctrines broadly outlined in Esoteric Buddhism Any thing more erroneous than this could hardly be imagined It has enabled our enemies to find an effective weapon against Theosophy because as an eminent P li scholar very pointedly expressed it there was in the volume named neither Esotericism nor Buddhism The esoteric truths presented in Mr Sinnett s work ceased to be esoteric from the moment they were made public nor did the book contain the religion of Buddha but simply a few tenets from a hitherto hidden teaching which are now explained and supplemented by many more in the present volumes And even the latter though giving out many fundamental tenets from the Secret Doctrine of the East raise but a small corner of the dark veil For no one not even the greatest living Adept would be permitted to or could even if he would give out promiscuously to a mocking unbelieving world that which has been so effectually concealed

from it for long on and ages Esoteric Buddhism was an excellent work with a very unfortunate title though it meant no more than does the title of this work The Secret Doctrine It proved unfortunate because people are always in the habit of judging things by their appearance rather than by their meaning and because the error has now become so universal that even most of the Fellows of the Theosophical Society have fallen victims to the same misconception From the first however protests were raised by Brahmans and others against the title and in justice to myself I must add that Esoteric Buddhism was presented to me as a completed volume and that I was entirely unaware of the manner in which the author intended to spell the word Budh ism **The Secret Doctrine: The Synthesis of Science, Religion, and Philosophy Volume I:**
