

Distortive industrial policy drivers

New industrial policy measures are increasingly driven by climate mitigation, supply chain resilience and security.

Share of distortionary industrial policy measures by motive
(percent)

Source: Evenett and others (2024); IMF staff calculations.

Note: Cumulative stock of measures for 2023. For measures with multiple motives, each motive is given equal weight.

The Industrial Policy Of France

Murat A. Yülek

The Industrial Policy Of France:

The Industrial Policy of France Organisation for Economic Co-operation and Development, 1974 *French Industrial Policy* William James Adams, Christian Stoffaës, 1986 Conference report on industrial policy in France and its relevance for economic policy in the USA discusses the merits and limits of industrial planning deregulation protectionism and export promotion in market economies looks at the efficiency of public enterprises examines industrial policy in the energy sector aerospace industry electronics industry iron and steel industry and motor vehicle industry List of participants Graphs references statistical tables Conference held in Washington D C 1984 Sep *Forging Industrial Policy* Frank Dobbin, 1994 This book explores 19th century railroad policies in the United States France and Britain to identify the roots of nations modern industrial policy styles *How Nations Succeed: Manufacturing, Trade, Industrial Policy, and Economic Development* Murat A. Yülek, 2018-08-02 This book assesses developmental experience in different countries as well as British expansion following the industrial revolution from a developmental perspective It explains why some nations are rich and others are poor and discusses how manufacturing made economies flourish and spur economic development It explains how today's governments can design and implement industrial policy and how they can determine economically strategic sectors to break out of Low and Middle Income Traps Closely linked to global trade and imbalances industrialization was never an accident Industrialization explains how some countries experience export led growth and others import led slowdowns Many confuse industrialization with the construction of factory buildings rather than a capacity and skill building process through certain stages Industrial policy helps countries advance through those stages Explaining technical concepts in understandable terms the book discusses the capacity and limits of the developmental state in industrialization and in general in economic development demonstrating how picking the winner type focused industrial policy has worked in different countries It also discusses how industrial policy and science technology and innovation policies should be sequenced for best results **Globalizing Oil** Llewelyn Hughes, 2014-01-16 Oil is the world's most important commodity It is also one of the most politicized with national oil companies controlling most of the world's reserves Contrary to conventional wisdom Llewelyn Hughes shows that governments across the advanced industrial states responded to the politicization of oil in the 1970s by freeing prices lowering barriers to trade and privatizing national oil companies How did this come about And why do some governments continue to support domestic firms In answering these questions Hughes shows that the politicization of oil also led to a transformation in oil market governance by changing the balance of risk and opportunities facing firms He also shows that their ability to benefit from this change was conditioned by previous attempts to shape the competitive landscape in their favor Hughes study has important implications not only for the politics of oil but also for the study of economic liberalization [The Media in France](#) Raymond Kuhn, 2006-04-07 This up to date accessible textbook presents a comprehensive overview of the history present and future prospects of French media and considers the

successes and failures of the French media policy from 1945 to the present day Raymond Kuhn investigates the politics and economics of the press radio and television from the days of state intervention and monopoly provision to current trends towards deregulation and pluralism and discusses the importance of the new media of cable and satellite broadcasting Kuhn explores in particular the changing inter relationship between media and state as ownership and indirect interference decline while the state remains a key part of the media landscape in its policy making and regulatory roles *The Media in France* is essential reading for all students of French European and Media Studies

Restructuring the French Economy William James Adams, 2010-12-01 At the end of World War II experts on both sides of the Atlantic believed that France was doomed to economic stagnation French culture and institutions they argued inhibited the changes in economic structure that sustained growth would require But in spite of these predictions and the occasional volatility of the world economy the French economy grew rapidly Only the Japanese of the major economies has grown faster and by 1975 the French standard of living matched that of West Germany *Restructuring the French Economy* looks at the four decades of the structural changes that fostered growth and explores explanations of why such changes occurred Drawing on many and diverse primary materials including government statistics judicial decisions and professional memoirs Adams examines three different explanations of France's postwar economic success The first downplays the extent of structural change during the surge of growth The second emphasizes the importance of government policies to compensate for inadequate private initiative The third suggests that European economic integration and French decolonization created enough market competition to push the private sector into its own restructuring Adams stresses that if government initiatives worked well they did so in an environment of strong market competition if competition seemed to work wonders it occurred only as a result of government actions He also devotes considerable attention to the implications of his findings for U S policy concerning European protectionism and the health and growth of American industries

Proceedings of the 2022 4th International Conference on Economic Management and Cultural Industry (ICEMCI 2022) Hrushikesh Mallick, Gaikar Vilas B., Ong Tze San, 2023-01-07 This is an open access book 2022 4th International Conference on Economic Management and Cultural Industry ICEMCI 2022 to be held in Chongqing Online on October 14 16 2022 As the leader of the global trend of scientific and technological innovation China is constantly creating a more open scientific and technological innovation environment expanding the depth and breadth of academic cooperation and building a shared innovation community These efforts are making new contributions to globalization and building a community with a shared future for mankind ICEMCI aims to bring together innovative academics and industry experts in Economic Management and Cultural Industry into a common forum We will discuss and research on areas such as International Economics and Trade Sustainable Economic Development Economic Statistics Economic Policy The impact of cultural industries on the economy etc ICEMCI 2022 also aims to provide a platform for experts scholars engineers technicians and technology R D personnel to share scientific research results and cutting edge
