The Inner Eye A Guide To Selfawareneb Through Your Dreams:

The Inner Eye Joan Windsor,1998 An introduction to the study of dreams as the gateway to your future in which Joan Windsor discusses Carl Jung s ideas about dreams amplifying the experience gained in her psychological practice To this she has added the psychic dimension of Edgar Cayce s experience with dreams The Mind of Consciousness Ray Morose,2011 The Mind of Consciousness The Mind of Consciousness is a book unfolding a new way with new process methods to evaluate your existence It is an experiential work written in textbook format that analytically delineates how and why consciousness and mind interface and function exposing the inter connective dependency of non biological consciousness and the biologically created mind Knowing how that interconnectivity interrelates provides avenues of exploration that reveal the fundamental nature of existence unveiling an innate purpose and direction embedded within consciousness This book works through all the major questions of existence using reproducible and experiential logic allowing everyone to experience the results of that exploration Throughout your life you have two realities at war with one another the primary I am reality formed from non biological consciousness and the secondary I am this or that reality formed by the biological mind You may not be aware of or even appreciate the internal conflict these two inter connective and inter dependent realities create However you experience the resultant turmoil and confusion their subliminal battles establish by not having an experiential appreciation of how those realities are formed function and potentially control your life The text delineates causation for those ongoing internal battles and outlines processes to help overcome the sense of frustration isolation and discord they generate This experiential method of examination creates empirical processes that afford you the opportunity to make an informed choice rather than a conditioned reaction providing a more secure productive directional and enjoyable life This book takes you into the core of your being turning it inside out exposing who and what you are by revealing a self created shadow world controlling your life without you being aware that control exists **Field Guide to Dreams** Kelly Regan,2015-04-14 At last a field guide to identifying and interpreting dream symbols from falling to flying Dreams can be mysterious exhilarating and terrifying but they don t have to be confusing With Field Guide to Dreams you ll unravel the hidden meanings behind these mysterious subconscious messages For example you may find yourself naked in front of your high school classroom during a time of great change perhaps you re feeling insecure about a decision you recently made Of if you find buried treasure in a dream you may have hidden talents or knowledge Organized by dominant symbol animals caves hospitals teachers and so on each full color image refers to a complete dream description This book gives you clues to a dream s meaning and explains the significance of having the same dream time and again You ll hear what Freud and Jung might say about a particular vision and discover a dream s sometimes strange often illuminating historical and cultural context With Field Guide to Dreams at your bedside you ll never wonder if that cigar was just a cigar The Art of Inner Peace Marvin Titus-Casseus,2023-11-24 The Art of Inner Peace is a transformative journey towards self discovery and
