The Intermountain West A Story Of A Place And People:

Intermountain West Reed H. Blake,2001-09-01 **Pioneers in the Attic** Sara M. Patterson,2020 *Pioneers in the Attic* explores the way in which narratives of place came to establish Mormon identity in the twentieth and twenty first centuries and how early understandings of gathering and Zion encouraged individuals to migrate and live communally in the Great Basin region of the American West Patterson looks at how this history has led to a modern day community that grounds itself in the memorialization of early Mormon pioneer identity Islands of Green ,1968 **The Story of Religion in America** James P. Byrd,James Hudnut-Beumler,2021-11-30 Written primarily for undergraduate classes in American religious history and organized chronologically this new textbook presents the broad scope of the story of religion in the American colonies and the United States While following certain central narratives including the long shadow of Puritanism the competition between revival and reason and the defining role of racial and ethnic diversity the book tells the story of American religion in all its historical and moral complexity To appeal to its broad range of readers this textbook includes charts timelines and suggestions for primary source documents that will lead readers into a deeper engagement with the material Unlike similar history books *The Story of Religion in America* pays careful attention to balancing the story of Christianity with the central contributions of other religions **Winged with Longing for Better Things** Sylvia Sweeney,2019-11-17 A Lenten devotional written from an eco feminist perspective Rather than classical penitence this book emphasizes intercession solidarity and preparation Its aim is to help readers learn to view the world incarnationally and sacramentally In rejecting one s own embodiment and the natural world the earth is being irreparably harmed by our destructive actions The book invites readers to move beyond sympathy for those in strife into action and advocacy on the behalf of the earth and its less powerful inhabitants Photographs and poetry enhance the daily devotional readings *The Rise of Multiple-use Management in the Intermountain West* Thomas G. Alexander,1988 **People, Places and Landscapes** Richard S. Krannich,A. E. Luloff,Donald R. Field,2011-05-30 This volume is a cogent empirical analysis of the interplay between a region s natural amenities and its socioeconomic evolution It focuses on the rural sectors of America s Intermountain West region which lies between the Cascades and Sierra Nevada mountains to the west and the Rocky Mountains to the east Coherently structured and meticulously detailed it adds much to our understanding of the ways an area s forests lakes mountains parkland and historic attractions affect residents sense of well being as well as the sociodemographic and economic changes they experience The book examines patterns of growth and change linked to the emergence of New West conditions assessing their implications for the wider community as well as discussing the impact these trends could have on the consumption of natural resources It also points to ways in which communities and their development can be managed sustainably The tight geographical focus of this valuable resource ensures a depth of analysis which can be applied to similar regions worldwide Based on a large scale random sample survey of both full time and seasonal residents it provides a much

needed overview of the macro level economic demographic and social transformations affecting rural communities in America As such the book has relevance for all researchers concerned with rural development the changes impacting rural landscapes and natural resource management Shadowlands Anthony McCann, 2019-07-02 Los Angeles Times Bestseller An epic exploration of the 2016 right wing Oregon Occupation an excellent microcosm by which we might better understand our difficult national history and distressing political moment Maggie Nelson In 2016 a group of armed divinely inspired right wing protestors led by Ammon Bundy occupied the Malheur National Wildlife Refuge in the high desert of eastern Oregon Encamped in the shadowlands of the republic insisting that the Federal government had no right to own public land the occupiers were seen by a divided country as either dangerous extremists dressed up as cowboys or as heroes insisting on restoring the rule of the Constitution From the Occupation s beginnings to the trials of the occupiers in federal court in downtown Portland and their tumultuous aftermaths Shadowlands is the resonant multifaceted story of one of the most dramatic flashpoints in the year that gave us Donald Trump Sharing the expansive stage with the occupiers are a host of others Native American tribal leaders public lands ranchers militia members environmentalists federal defense attorneys and Black Lives Matter activists each contending in their different ways with the meaning of the American promise of Liberty Gathering into its vortex the realities of social media technology history religion race and the environment this piercing work by Anthony McCann offers us a combination of beautiful writing and high stakes analysis of our current cultural and political moment Shadowlands is a clarifying exhilarating story of a nation facing an uncertain future and a murky past in a time of great collective reckoning *Utah Payroll Builder* ,1925 Believing In Place Richard V. Francaviglia, 2016-02-01 The austere landscape of the Great Basin has inspired diverse responses from the people who have moved through or settled in it Author Richard V Francaviglia is interested in the connection between environment and spirituality in the Great Basin for here he says faith and landscape conspire to resurrect old myths and create new ones As a geographer Francaviglia knows that place means more than physical space Human perceptions and interpretations are what give place its meaning In Believing in Place he examines the varying human perceptions of and relationships with the Great Basin landscape from the region s Native American groups to contemporary tourists and politicians to determine the spiritual issues that have shaped our connections with this place In doing so he considers the creation and flood myths of several cultures the impact of the Judeo Christian tradition and individualism Native American animism and shamanist traditions the Mormon landscape the spiritual dimensions of gambling the religious foundations of Cold War ideology stories of UFOs and alien presence and the convergence of science and spirituality Believing in Place is a profound and totally engaging reflection on the ways that human needs and spiritual traditions can shape our perceptions of the land That the Great Basin has inspired such a complex variety of responses is partly due to its enigmatic vastness and isolation partly to the remarkable range of peoples who have found themselves in the region Using not only the materials of traditional geography but folklore anthropology Native

American and Euro American religion contemporary politics and New Age philosophies Francaviglia has produced a fascinating and timely investigation of the role of human conceptions of place in that space we call the Great Basin
