**The Law of Church-state Relations in a Nutshell** Leonard F. Manning, 1981 *The Religious Left and Church-State Relations* Steven H. Shiffrin, 2012-08-26 In *The Religious Left and Church State Relations* noted constitutional law scholar Steven Shiffrin argues that the religious left not the secular left is best equipped to lead the battle against the religious right on questions of church and state in America today Explaining that the chosen rhetoric of secular liberals is poorly equipped to argue against religious conservatives Shiffrin shows that all progressives religious and secular must appeal to broader values promoting religious liberty He demonstrates that the separation of church and state serves to protect religions from political manipulation while tight connections between church and state compromise the integrity of religious institutions Shiffrin discusses the pluralistic foundations of the religion clauses in the First Amendment and asserts that the clauses cannot be confined to the protection of liberty equality or equal liberty He explores the constitutional framework of religious liberalism applying it to controversial examples including the Pledge of Allegiance the government's use of religious symbols the teaching of evolution in public schools and school vouchers Shiffrin examines how the approaches of secular liberalism toward church state relations have been misguided philosophically and politically and he illustrates why theological arguments hold an important democratic position not in courtrooms or halls of government but in the public dialogue The book contends that the great issue of American religious politics is not whether religions should be supported at all but how religions can best be strengthened and preserved Vatican City Foreign Policy and Government Guide Volume 1 Strategic Information and Developments IBP USA, 2013-08 2011 Updated Reprint Updated Annually Vatican City Foreign Policy and Government Guide **Religion and Regimes** Mehran Tamadonfar, Ted G. Jelen, 2013-11-26 This work is a collection of essays that describe and analyze religion and regime relations in various nations in the contemporary world The contributors examine patterns of interaction between religious actors and national governments that include separation support and opposition In general the contributors find that most countries have a majority or plurality religious tradition which will seek a privileged position in public life The nature of the relationship between such traditions and national policy is largely determined by the nature of opposition A pattern of quasi establishment is most common in settings in which opposition to a dominant religious tradition is explicitly religious However in some instances the dominant tradition is associated with a discredited prior regime in which a pattern of legal separation is most common Conversely in some nations a dominant religion is for historical reasons strong associated with national identity Such regimes are often characterized by a lazy monopoly in which the public influence of religion is reduced **New Religious Movements in the Twenty-First Century** Phillip Charles Lucas, Thomas Robbins, 2004-06-01 *New Religious Movements in the 21st Century* is the first volume to examine the urgent and important issues facing new religions in their political legal and religious contexts in global perspective With essays from prominent NRM scholars and usefully organized into four regional areas covering Western

Europe Asia Africa and Australia Russia and Eastern Europe and North and South America as well as a concluding section on the major themes of globalization and terrorist violence this book provides invaluable insight into the challenges facing religion in the twenty first century An introduction by Tom Robbins provides an overview of the major issues and themes discussed in the book

**Democratic Transition in Croatia** Sabrina P. Ramet, 2007 With the fall of communism and the breakup of Yugoslavia the successor states have faced a historic challenge to create separate modern democracies from the ashes of the former authoritarian state Central to the Croatian experience has been the issue of nationalism and whether the Croatian state should be defined as a citizens state with members of all nationality groups treated as equal or as a national state of the Croats with a consequent privileging of Croatian culture and language but also with a quota system for members of national minorities Sabrina P Ramet and Davorica Matić have gathered here a series of studies by important scholars to examine the development of Croatia in the aftermath of communism and the war that marred the transition Sixteen scholars of the region discuss the values and institutions central to Croatia's transformation from communism and toward liberal democracy They discuss economic change political parties and the uses of history since 1989 To understand the patterns in Croatia they examine how civic values have been expressed reinforced and sometimes challenged through religion education and the media The implications of nationalism in its various manifestations are treated thematically in all the analyses This book is a companion volume to a similar study on Slovenia edited by Sabrina P Ramet and Danica Fink Hafner and released in fall 2006 Together these two works form an important case study in comparison and contrast between two countries in the same region going through the transition from communism to liberal democracy Scholars and policy makers will find a wealth of material in these two volumes

*The Russian Orthodox Church and Human Rights* Kristina Stoeckl, 2014-03-05 This book examines the key 2008 publication of the Russian Orthodox Church on human dignity freedom and rights It considers how the document was formed charting the development over time of the Russian Orthodox Church's views on human rights It analyzes the detail of the document and assesses the practical and political impact inside the Church at the national level and in the international arena Overall it shows how the attitude of the Russian Orthodox Church has shifted from outright hostility towards individual human rights to the advocacy of traditional values

*Law and Religion in the Liberal State* Md Jahid Hossain Bhuiyan, Darryn Jensen, 2020-05-28 The relationship between law and religion is evident throughout history They have never been completely independent from each other There is no doubt that religion has played an important role in providing the underlying values of modern laws in setting the terms of the relationship between the individual and the state and in demanding a space for the variety of intermediate institutions which stand between individuals and the state However the relationships between law and religion and the state and religious institutions differ significantly from one modern state to another There is not one liberalism but many This work brings together reflections upon the relationship between religion and the law from the perspectives of different sub traditions within the broader liberal

project and in light of some contemporary problems in the accommodation of religious and secular authority

**Religions of the World** J. Gordon Melton, Martin Baumann, 2010-09-21 This masterful six volume encyclopedia provides comprehensive global coverage of religion emphasizing larger religious communities without neglecting the world's smaller religious outposts Religions of the World Second Edition A Comprehensive Encyclopedia of Beliefs and Practices is an extraordinary work bringing together the scholarship of some 225 experts from around the globe The encyclopedia's six volumes offer entries on every country of the world with particular emphasis on the larger nations as well as Indonesia and the Latin American countries that are traditionally given little attention in English language reference works Entries include profiles on religion in the world's smallest countries the Vatican and San Marino profiles on religion in recently established or disputed countries Kosovo and Nagorno Karabakh as well as profiles on religion in some of the world's most remote places Antarctica and Easter Island Religions of the World is unique in that it is based in religion on the ground tracing the development of each of the 16 major world religious traditions through its institutional expressions in the modern world its major geographical sites and its major celebrations Unlike other works the encyclopedia also covers the world of religious unbelief as expressed in atheism humanism and other traditions

**Hungary's Long Nineteenth Century** Laszlo Péter, 2012-03-23 Based on a professional lifetime of research teaching and passionate scholarly debates the author reassesses some of the key events turning points concepts personalities categories institutions and legal framework on which Hungary's constitutional and social progress rested from the mid nineteenth to the early twentieth century

*Natural Law and Religious Freedom* J. Daryl Charles, 2017-07-20 Every successive generation finds fresh reasons for the study of natural law Current interest in the natural law may well be due to a pervasive moral pessimism in the Western cultural context and wider contemporary geopolitical challenges Those geopolitical challenges result from two significant and worrisome global developments unprecedented violent persecution of religious minorities on several continents and a growing climate of secular hostility toward religious faith in Western societies Natural Law and Religious Freedom aims to address what is relatively absent from the literature by demonstrating the importance of natural law ethics in both establishing and preserving basic human rights of which religious freedom has pride of place Probing contemporary challenges to natural law thinking that are both internal and external to religious faith and examining the character and constitution of natural law ethics Natural Law and Religious Freedom will be of interest to theologians ethicists and philosophers as well as policy analysts politicians and activists who are concerned to anchor religious freedom and human rights policy considerations in an enduring way

**Marcos Against the Church** Robert Youngblood, 2019-05-15 The election of Ferdinand Marcos to the presidency of the Republic of the Philippines coincided with the conclusion of the work of Vatican II in 1965 and Marcos's dictatorial policies would inevitably clash with the Vatican's call for the clergy to advocate greater social justice for the poor In this authoritative account of the role of the Catholic Church in the recent history of the Philippines Robert L Youngblood

traces the political engagement of the Church over the twenty years between Marcos's election and his ouster from power in 1986. Drawing upon extensive research, Youngblood explains how although church and state professed to share the goal of improving the welfare of the poor, Marcos's economic development policies and oppressive rule created church opposition which helped accelerate the collapse of his regime. Youngblood considers the evolution of church programs from social action projects such as the organization of cooperatives and credit unions to the development of social justice programs that emphasized the creation of more democratic and caring communities. He examines the dynamics by which the leaders of the Philippine Roman Catholic and Protestant churches moved from a brief period of goodwill toward the Marcos dictatorship to considerable opposition by the late 1970s as church-sponsored work among the poor was increasingly viewed by the regime as subversive. Youngblood shows that after the assassination of Benigno Aquino Jr. in 1983, the deterioration of the standard of living of average Filipinos along with Marcos's repressive policies toward the churches and other abuses in the name of national security were factors which impelled powerful church figures to actively oppose the dictatorship. Tracing the internal deliberations of the Philippine churches as they came to take the lead in opposing human rights abuses, Marcos against the Church deepens our understanding of problematic relations between church and state. Historians and social scientists interested in the Philippines and modern Southeast Asia, historians of religion, political scientists working in comparative politics and political development, and others concerned with issues of human rights will want to read it.

**Religious Liberty and the Hermeneutic of Continuity: Conservation and Development of Doctrine at Vatican II** R. Michael Dunnigan, 2023-10-24 The Second Vatican Council's declaration *Dignitatis Humanae* marks a significant advance over prior magisterial teaching about the right to religious liberty, yet the nature of this advance has long been subject to controversy. Is it a true development conserving and extending what came before? Or does it instead chart a new course entirely rejecting and replacing the older teaching? In *Religious Liberty and the Hermeneutic of Continuity*, R. Michael Dunnigan takes up these pressing questions and offers a careful examination of how the claims of *Dignitatis Humanae* relate to the magisterial precedents set by the papacy in the nineteenth century. With precision and nuance, Dunnigan analyzes the object, scope, and foundation of the right to religious liberty itself, and his analysis culminates in the proposal that the right endorsed by Vatican II is not identical with the rights condemned by previous popes. Beyond establishing the claims of *Dignitatis Humanae* as a true development of prior teaching, Dunnigan shows that its contribution to the question of religious liberty has not yet received full appreciation. Indeed, Dunnigan demonstrates how the Vatican II declaration reaffirms, reinforces, and even revivifies prior magisterial teaching on religious liberty through its emphasis on human integrity, which emerges as a foundational but often overlooked principle of continuity.

**Religion and the State in American Law** Boris I. Bittker, Scott C. Idleman, Frank S. Ravitch, 2015-10-06 This book provides a comprehensive overview of religion and government in the United States, providing historical context to contemporary issues.

**The Legal Treatment of Muslim**

**Minorities in Italy** Andrea Pin, 2017-05-15 Islam is a growing presence practically everywhere in Europe. In Italy, however, Islam has met a unique model of state neutrality, religious freedom, and church and state collaboration. This book gives a detailed description of the legal treatment of Muslims in Italy, contrasting it with other European states and jurisprudence and with wider global tendencies that characterize the treatment of Islam. Through focusing on a series of case studies, the author argues that the relationship between church and state in Italy and more broadly in Europe should be reconsidered both to secure religious freedom and general welfare. Working on the concepts of religious freedom, state neutrality, and relationship between church and state, Andrea Pin develops a theoretical framework that combines the state level with the supranational level in the form of the European Convention of Human Rights, which ultimately shapes a unitary but flexible understanding of pluralism. This approach should better accommodate not just Muslims' needs but religious needs in general in Italy and elsewhere.

**Religion, Rights and Secular Society** Peter Cumper, Tom Lewis, 2012-01-01 Religion, Rights and Secular Society by Peter Cumper and Tom Lewis is a both timely and important publication. In a series of highly interesting and well-written essays, some of which are case studies covering many different European nations, whereas others are more theoretical, the book looks at a key paradox in contemporary Europe: the relatively high levels of secularity in most European countries on the one hand and the marked resurgence of religion in public debates on the other. While never pretending that there are ready answers to the problems of reconciling secular and religious values in Europe, the contributors make it quite clear that Europeans need to return to questions about religion that they had previously regarded as being settled. This is food for thought at a very high level. Helle Porsdam, University of Copenhagen, Denmark. This topical collection of chapters examines secular society and the legal protection of religion and belief across Europe, both in general and more nation-specific terms. The expectations of many that religion in modern Europe would be swept away by the powerful current of secularization have not been realised, and today few topics generate more controversy than the complex relationship between religious and secular values. The religious/secular relationship is examined in this book, which brings together scholars from different parts of Europe and beyond to provide insights into the methods by which religion and equivalent beliefs have been and continue to be protected in the legal systems and constitutions of European nations. The contributors' chapters reveal that the oft-tumultuous legacy of Europe's relationship with religion still resonates across a continent where legal, political, and social contours have been powerfully shaped by faith and religious difference. Covering recent controversies such as the Islamic headscarf and the presence of the crucifix in school classrooms, this book will appeal to academics and students in law, human rights, and the social sciences, as well as law and policy makers and NGOs in the field of human rights.
