The Leadership Principle:

The World's Most Powerful Leadership Principle James C. Hunter, 2004-06-29 To lead is not to be the boss the head honcho or the brass To lead is to serve Although serving may imply weakness to some conjuring up a picture of the CEO waiting on the workforce hand and foot servant leadership is actually a robust revolutionary idea that can have significant impact on an organization's performance Jim Hunter champions this hard soft approach to leadership which turns bosses and managers into coaches and mentors By hard Hunter means that servant leaders can be hard nosed even autocratic when it comes to the basics of running the business determining the mission where the company is headed and values what the rules are that govern the journey and setting standards and accountability Servant leaders don't commission a poll or take a vote when it comes to these critical fundamentals After all that's what a leader's job is and people look to the leader to set the course and establish standards But once that direction is provided servant leaders turn the organizational structure upside down They focus on giving employees everything they need to win be it resources time guidance or inspiration Servant leaders know that providing for people and engaging hearts and minds foster a workforce that understands the benefits of striving for the greater good The emphasis is on building authority not power on exerting influence not intimidation While many believe that servant leadership is a wonderful inspiring idea what's been missing is the how to the specifics of implementation Jim Hunter shows how to do the right thing for the people you lead A servant leader or a self-serving leader Which one are you With Jim Hunter's guidance everyone has the potential to develop into a leader with character who leads with authority

The Roots of Nazi Psychology Jay Y. Gonen,2013-07-24 Was Hitler a moral aberration or a man of his people This topic has been hotly argued in recent years and now Jay Gonen brings new answers to the debate using a psychohistorical perspective contending that Hitler reflected the psyche of many Germans of his time Like any charismatic leader Hitler was an expert scanner of the Zeitgeist He possessed an uncanny ability to read the masses correctly and guide them with new ideas that were merely reflections of what the people already believed Gonen argues that Hitler s notions grew from the general fabric of German culture in the years following World War I Basing his work in the

role of ideologies in group psychology Gonen exposes the psychological underpinnings of Nazi Germany's desire to expand its living space and exterminate Jews Hitler responded to the nation's group fantasy of renewing a Holy Roman Empire of the German nation He presented the utopian ideal of one large state where the nation represented one extended family In reality however he desired the triumph of automatism and totalitarian practices that would preempt family autonomy and private action Such a regimented state would become a war machine designed to breed infantile soldiers brainwashed for sacrifice To achieve that aim he unleashed barbaric forces whose utopian features were the very aspects of the state that made it most cruel
