McAdams, Laura Pincus Hartman, 1997 **Business Regulation and Public Policy** André Nijssen, John Hudson, Christoph Müller, Kees van Paridon, R. Doe V. K-Mart Corporation ,1991 **Corporate Regulation for Climate Change Mitigation in Africa** Kikelomo O. Kila,2022-09-08 This book critically analyses the prospects of overhauling the legal framework of climate change regulation of corporations in African state It adopts the dilute interventionism regulatory framework to tackle the culture of regulatory resistance by corporations in Africa Over the course of this volume Kikelomo O Kila critiques the climate change legal framework in all 53 African states and conducts an in depth case study of the two largest economies in Africa Nigeria and South Africa to highlight the commonality of the problems in Africa and the potential for the dilute interventionism paradigm to significantly address these problems The book establishes why African states should directly intervene through legislative

mechanisms to compel corporations to incorporate climate change mitigation in their business activities It proposes that this direct intervention should comprise a blend of prescriptive and facilitative mechanisms structured in a dilute interventionism regulatory model Overall this volume argues that implementing this model requires the institution of a strong and independent regulator with a veto firewall protection system that guarantees its de facto independence from government and external influences Corporate Regulation for Climate Change Mitigation in Africa will be of great interest to climate change stakeholders at the international regional and domestic levels policymakers regulatory practitioners and legal experts on corporate regulation It will also be an insightful resource for students and scholars of climate change and environmental law policy and governance
