Art Market and Connoisseurship Anna Tummers, Koenraad Jonckheere, 2008 The question of whether seventeenth century painters such as Rembrandt and Rubens were exclusively responsible for the paintings later sold under their names has caused many a heated debate Despite the rise of scholarship on the history of the art market much is still unknown about the ways in which paintings were produced assessed priced and marketed during this period which leads to several provocative questions did contemporary connoisseurs expect masters such as Rembrandt to paint works entirely by their own hand Who was credited with the ability to assess paintings as genuine The contributors to this engaging collection Eric Jan Sluijter Hans Van Miegroet and Neil De Marchi among them trace these issues through the booming art market of the seventeenth and eighteenth centuries arriving at fascinating and occasionally unexpected conclusions Peter Paul Rubens. Translated... by Ruth Saunders Magurn Petrus Paulus Rubens, 1955 Rubens's Spirit Alexander Marr, 2021-03-25 Peter Paul Rubens was the most inventive and prolific northern European artist of his age This book discusses his life and work in relation to three interrelated themes spirit ingenuity and genius It argues that Rubens and his reception were pivotal in the transformation of early modern ingenuity into Romantic genius Ranging across the artist s entire career it explores Rubens s engagement with these themes in his art and life Alexander Marr looks at Rubens s forays into altarpiece painting in Italy as well as his collaborations with fellow artists in his hometown of Antwerp and his complex relationship with the spirit of pleasure It concludes with his late landscapes in connection to genius loci the spirit of the place

Imagined Battles Peter Paret,1997 For thousands of years art has interpreted the experience of war_its methods human costs and moral ambiguities_and has offered historians a wealth of testimony that is only beginning to be systematically explored In this wide ranging study Peter Paret discusses forty seven paintings and prints as complex documents of war in Europe since the Renaissance and as examples of the artist s use of war as a metaphor for the human condition The images include works by such major artists as Uccello G ricault and Dix as well as academic history paintings and popular prints By setting each in its historical environment and analyzing it from the perspective of the wars of its time illuminates the place of war in Western consciousness and expands our understanding of works that are too often approached with little concern for the reality they depict or symbolically transform Perhaps the most significant of the themes he traces over five centuries is the gradual change from the prince or general to the common soldier and civilian victim as central figures in the interpretation of war in art

Anthony Van Dyck Natalia Gritsai,2019-12-09 17th century Flemish painter Van Dyck s career was as short as it was dazzling A student of Rubens he very quickly became the favourite painter of princes and kings and was the portraitist of English and Italian families of the high nobility With his rigorous compositions Van Dyck endowed his models with dignity grandeur and spirituality Proud ladies and lords gambolling on their horses Van Dyck knew how to render the nonchalant elegance and the ennui of a refined society A Baroque painter with a shimmering style he played with a light and nuanced palette and reproduced with the greatest virtuosity garments of velour satin and silk Van Dyck is considered the founder of the English school of portraiture He was an influence on Lely Dobson Kneller and most notably Reynolds and Gainsborough as well as French painters of the 18th century News, Memory and the Culture of the Stuart Intervention into the Thirty Years' War, 1624-1630 Tamsin Pritchard, 2025-07-16 Just as Charles I s reign ended upon the scaffold at the close of the British Civil Wars it began in a disastrous entry into the Thirty Years War By studying the movement of people soldiers refugees diplomats exiles merchants and artists and news and ideas between the Stuart kingdoms and the war torn Continent this book argues that the Thirty Years War was the defining issue of the beginning of the young king s reign This interdisciplinary cultural history brings together the words and images of these violent beginnings the bellicose days

examining Peeters's artistry and the material culture reflected in her paintings. This timely volume sheds light on the limitations that Peeters encountered because of her gender and how she responded to them in her art while assessing her importance as a painter of still life King Charles I Pauline Gregg, 1984-01-01 A biography of the British monarch examines his upbringing personality and the events that led to his downfall Seventeenth-century Art & Architecture Ann Sutherland Harris, 2005 Encompassing the socio political cultural background of the period this title takes a look at the careers of the Old Masters and many lesser known artists The book covers artistic developments across six countries and Catalogue of the Works of Art in the Possession of Sir Peter examines in detail many of the artworks on display **Paul Rubens at the Time of His Decease** Peter Paul Rubens, Sir Balthazar Gerbier, 1832 Catalogue of the Works of Art in the Possession of Sir Peter Paul Rubens at the Time of His Decease; Together with a Fac-simile of an Original Unpublished Letter from Himself, and with Two Letters from Sir B. Peter Paul Rubens. 1839 Concepts of Creativity in Seventeenth-century England Rebecca Herissone, Alan Howard, 2013 The first genuinely interdisciplinary study of creativity in early modern EnglandIn the seventeenth century the concept of creativity was far removed from most of the fundamental ideas about the creative act notions of human imagination inspiration originality and genius that developed in the eighteenthand nineteenth centuries Instead in this period students learned their crafts by copying and imitating past masters and did not consciously seek to break away from tradition Most new material was made on the instructions of apatron and had to conform to external expectations and basic tenets that we tend to take for granted such as the primacy and individuality of the author were apparently considered irrelevant in some contexts The aim of this interdisciplinary collection of essays is to explore what it meant to create buildings and works of art music and literature in seventeenth century England and to investigate the processes by which such creations came into existence Through a series of specific case studies the book highlights a wide range of ideas beliefs and approaches to creativity that existed in seventeenth century England and places them in the context of the prevailing intellectual social and cultural trends of the period In so doing it draws into focus the profound changes that were emerging in the understanding of human creativity in early modern society transformations that would eventually lead to the development of a more recognisably modern conception of the notion of creativity. The contributors work in and across the fields of literary studies history musicology history of art and history of architecture and their work collectively explores many of the most fundamental questions about creativity posed by the early modern English creative arts REBECCA HERISSONE is Head of Music and Senior Lecturer in Musicology at the University of Manchester ALAN HOWARD is Lecturer in Music at the University of East Anglia and Reviews Editor for Eighteenth Century Music Contributors Linda Phyllis Austern Stephanie Carter John Cunningham Marina Daiman Kirsten Gibson Raphael Hallett Rebecca Herissone Anne Hultzsch Freyja Cox Jensen Stephen Rose Andrew R Walkling Amanda Eubanks Winkler James A Winn
