Michal Rosen-Zvi

The Life Of The Giraffe:

The Life of the Giraffe Bradley Smith, 1972 In this scholarly account the author tells the story of the giraffe It is an action filled book that explains the unusual speed of the giraffe its acute eyesight how the young are born and reared and many other unusual details of its herd life The Life of a Giraffe Katie Smythe, 2015-01-15 This life science title introduces the real world of giraffes to amaze and engage children with nonfiction description Opportunities abound to compare and contrast within the context of the natural world **The Life Heroic** Elizabeth Svoboda, 2019-08-06 Heroes are superhuman Or at least it s easy to assume that when you read ripped from the news stories of derring do But in reality almost anyone who s motivated can be a hero and the heroes who make the biggest impact aren t always the ones who make headlines This approachable research backed guide will equip kids with the tools they need to become everyday heroes Along the way you ll hear from real heroes living out the truth of psychologist Phil Zimbardo s words Most heroes are ordinary It s the act of heroism that s extraordinary Draper's Self Culture: Animal stories and natural history Andrew Sloan Draper, 1918 The Handbook of Child Life Richard H. Thompson, 2018-04-03 Child life is a profession that draws on the insights of history sociology anthropology and psychology to serve children and families in many critical stress points in their lives but especially when they are ill injured or disabled and encounter the hosts of caregivers and institutions that collaborate to make them well Children and their families can become overwhelmed by the task of understanding and navigating the healthcare environment and continue to face challenges through their daily encounters It is the job of child life professionals to provide care and guidance in these negotiations to serve as culture brokers interpreters of the healthcare apparatus to family and child and the child to medical professionals Despite the best efforts to provide quality sensitive psychosocial care to children and their families they remain vulnerable to lingering aftereffects The goal of this revised edition is to help prepare child life specialists to deliver the highest level of care to children and families in the context of these changing realities Each chapter has been substantially revised and two new chapters have been added This book will be a valuable resource for not only child life specialists but also nurses occupational and recreational therapists social workers and other hospital personnel *Virtual Menageries* Jody Berland, 2024-11-26 The close interdependency of animal emissaries and new media from early European colonial encounters with the exotic to today s proliferation of animals in digital networks From cat videos to corporate logos digital screens and spaces are crowded with animal bodies In *Virtual Menageries* Jody Berland examines the role of animals in the spread of global communications Her richly illustrated study links the contemporary proliferation of animals on social media to the collection of exotic animals in the formative years of transcontinental exploration and expansion By tracing previously unseen parallels across the history of exotic and digital menageries Berland shows how and why animals came to bridge peoples territories and technologies in the expansion of colonial and capitalist cultures Berland s genealogy of the virtual menagerie begins in 1414 when a ruler in Bengal sent a Kenyan giraffe to join a

Chinese emperor's menagerie It maps the beaver's role in the colonial conquest of Canada and examines the appearances of animals in early moving pictures The menagerie is reinvented for the digital age when image and sound designers use parts or images of animals to ensure the affective promise and commercial spread of an emergent digital infrastructure These animal images are emissaries that enliven and domesticate the ever expanding field of mediation Virtual Menageries offers a unique account of animals and animal images as mediators that encourage complicated emotional economic and aesthetic investment in changing practices of connection Tall Blondes Lynn Sherr,1997-08 Traces the cultural history of the giraffe includes ancient and contemporary descriptions and studies the impact of giraffes on the human imagination **Gentle Giants: The World Of Giraffes** Nicky Huys,2023-12-17 Gentle Giants The World of Giraffes offers a captivating journey into the fascinating world of these graceful creatures Through stunning photography and insightful narratives this book explores the unique behavior habitats and conservation efforts related to giraffes From the sweeping savannahs of Africa to the intricate social dynamics of giraffe herds readers will gain a deeper understanding and appreciation for these iconic and endangered animals Whether you're a wildlife enthusiast photographer or simply curious about the natural world Gentle Giants is a compelling and visually stunning exploration of giraffes and their captivating world The Secret Lives of Anthropologists Bonnie L. Milo,2019-06-18 Philosopher Daniel Milo offers a vigorous critique of the quasi monopoly that Darwin's natural selection has on our idea of the natural world In popular thought Darwinism has even acquired the trappings of an ethical system focused on optimization competition and innovation Yet in nature imperfect creatures often have the evolutionary edge *Literary*

Adaptation is everything Inge Lohmark is well aware of that after all she s been teaching biology for more than thirty years But nothing will change the fact that her school is going to be closed in four years in this dwindling town in the eastern German countryside there are fewer and fewer children Inge s husband who was a cattle inseminator before the reunification is now breeding ostriches Their daughter Claudia emigrated to the U S years ago and has no intention of having children Everyone is resisting the course of nature the Inge teaches every day in class When Inge finds herself experiencing intense feelings for a 9th grade girl her biologically determined worldview is shaken And in increasingly outlandish ways she tries to save what can no longer be saved **Literary Gazette and Journal of Belles Lettres, Arts, Sciences, Etc** William Jerdan,William Ring Workman,Frederick Arnold,John Morley,Charles Wycliffe Goodwin,1827 **Proceedings of the General Meetings for Scientific Business of the Zoological Society of London** ,1907
