The Life Of The Law Anthropological Projects:

The Life of the Law Laura Nader, 2002-02-28 Nader traces the evolution of the plaintiff's role in the United States in the second half of the twentieth century and convincingly argues that the atrophy of the plaintiff's power during this period undermines democracy *The Future of African Customary Law* Jeanmarie Fenrich, Paolo Galizzi, Tracy E.

Higgins, 2011-07-18 Customary laws and traditional institutions in Africa constitute comprehensive legal systems that regulate the entire spectrum of activities from birth to death Once the sole source of law customary rules now exist in the context of pluralist legal systems with competing bodies of domestic constitutional law statutory law common law and international human rights treaties This book promotes discussion and understanding of customary law and explores its continued relevance in sub-Saharan Africa The volume considers the characteristics of customary law and efforts to ascertain and codify customary law and how this body of law differs in content form and status from legislation and common law It also addresses a number of substantive areas of customary law including the role and power of traditional authorities customary criminal law customary land tenure property rights and intestate succession and the relationship between customary law human rights and gender equality Imagining Landscapes Monica Janowski, Tim Ingold, 2016-05-13 The landscapes of

human habitation are not just perceived they are also imagined What part then does imagining landscapes play in their perception The contributors to this volume drawn from a range of disciplines argue that landscapes are imagined in a sense more fundamental than their symbolic representation in words images and other media Less a means of conjuring up images of what is out there than a way of living creatively in the world imagination is immanent in perception itself revealing the generative potential of a world that is not so much ready made as continually on the brink of formation Describing the ways landscapes are perpetually shaped by the engagements and practices of their inhabitants this innovative volume develops a processual approach to both perception and imagination But it also brings out the ways in which these processes animated by the hopes and dreams of inhabitants increasingly come into conflict with the strategies of external actors empowered to impose their own ready made designs upon the world With a focus on the temporal and kinaesthetic dynamics of imagining *Imagining Landscapes* foregrounds both time and movement in understanding how past present and future are brought together in the creative world shaping endeavours of both inhabitants and scholars The book will appeal to anthropologists sociologists and archaeologists as well as to geographers historians and philosophers with interests in landscape and environment heritage and culture creativity perception and imagination **Fictions of Justice** Kamari Maxine

Clarke, 2009-05-25 This book explores how notions of justice are negotiated through everyday micropractices and grassroots contestations of those practices **Legal Anthropology** James M. Donovan, 2007-12-28 *Legal Anthropology An Introduction* offers an initial overview of the challenging debates surrounding the cross cultural analysis of legal systems Equal parts review and criticism James M Donovan outlines the historical landmarks in the development of the discipline identifying both

strengths and weaknesses of each stage and contribution Legal Anthropology suggests that future progress can be made by looking at the perceived fairness of social regulation rather than sanction or dispute resolution as the distinguishing feature of law

Lawyering an Uncertain Cause Michele Statz, 2021-04-30 Each year a number of youth who migrate alone and clandestinely from China to the United States are apprehended placed in removal proceedings and designated as unaccompanied minors These young migrants represent only a fraction of all unaccompanied minors in the US yet they are in many ways depicted as a preeminent professional and moral cause by immigration advocates In and beyond the legal realm the figure of the vulnerable Chinese child powerfully legitimates legal claims and attorneys efforts At the same time the transnational ambitions and obligations of Chinese youth implicitly unsettle this figure The maneuvers of these youth not only belie attorneys reliance on racialized discourses of childhood and the Chinese family but they also reveal more broad uncertainties around legal frameworks institutional practices health and labor rights and cause lawyering itself Based on three years of fieldwork across the United States Lawyering an Uncertain Cause is a novel study of the complex and often contradictory rights responsibilities and expectations that motivate global youth and the American attorneys who work on their behalf

and observes the unprecedented changes in the law and popular expectations for romantic bonds and the creation of new families *Wives Husbands and Lovers* examines how sexual relationships and marriage are perceived and practiced under new developments within each urban location including the establishment of no fault divorce laws lower rates of childbearing within marriage and the increased tolerance for non marital and non heterosexual intimate relationships The authors also chronicle what happens when states remove themselves from direct involvement in some features of marriage but not others Tracing how the marital rules of the game have changed substantially across the region this book challenges long standing assumptions that marriage is the universally preferred status for all men and women that extramarital sexuality is incompatible with marriage or that marriage necessarily unites a man and a woman This book illustrates the wide range of potential futures for marriage sexuality and family across these societies ***Paths to International Justice*** Marie-Bénédicte Dembour,Tobias Kelly,2007-10-18 This volume examines how international justice can take purchase despite social conflict and political violence ***Facility Siting*** Asa Boholm,2013 From dams to landfill sites and power plants to radioactive waste repositories the siting of facilities is a veritable minefield of conflicts involving industry planners authorities NGOs and citizens This penetrating volume examines risk power and identity in contests over the siting of infrastructure and industrial facilities Going beyond nimby ism experts in a variety of fields bring a multiperspective analysis from science law and media to case studies from the UK USA and Europe and expose the political and cultural dimensions of siting conflicts In the process they show how place attachment and notions of landscape and local identity play a prominent role in resistance to development Topics covered include the importance of context in siting controversies siting methods and social representation siting conflicts the importance of institutional thinking in facility siting risk industrial encroachment and the sense of place siting and sacred places and law and fairness This book is essential reading for academics in social sciences policy planning law and risk policy makers planners and decision makers at all levels of government business and industry particularly energy generation including nuclear and renewables transportation and large dams risk assessment professionals and NGOs and activists ***The Politics of World Heritage*** David Harrison,Michael Hitchcock,2005-01-01 This collection of papers discuss World Trade Law and focus on the contested nature of World Heritage at sites as diverse as The Netherlands Ellis Island USA post colonial Mesoamerica Cambodia Fiji Kyrgyzstan and Vietnam In addition eight research notes explore heritage interpretation in the USA Lebanon Peru Indonesia Singapore Tasmania and India ***Gender Justice and Legal Pluralities*** Rachel Sieder,John McNeish,2013-06-17 *Gender Justice and Legal Pluralities* Latin American and African Perspectives examines the relationship between legal pluralities and the prospects for greater gender justice in developing countries Rather than asking whether legal pluralities are good or bad for women the starting point of this volume is that legal pluralities are a social fact Adopting a more anthropological approach to the issues of gender justice and women s rights it analyzes how gendered rights claims are made and responded to within a range of different cultural social

economic and political contexts By examining the different ways in which legal norms instruments and discourses are being used to challenge or reinforce gendered forms of exclusion contributing authors generate new knowledge about the dynamics at play between the contemporary contexts of legal pluralities and the struggles for gender justice Any consideration of this relationship must be located within a broader historically informed analysis of regimes of governance
