The Mature Metropolis:

The Mature Metropolis Charles L. Leven, 1978 **194X** Andrew Michael Shanken, 2009 During the Second World War American architecture was in a state of crisis The rationing of building materials and restrictions on nonmilitary construction continued the privations that the profession had endured during the Great Depression At the same time the dramatic events of the 1930s and 1940s led many architects to believe that their profession and society itself would undergo a profound shift once the war ended with private commissions giving way to centrally planned projects The magazine *Architectural Forum* coined the term 194X to encapsulate this wartime vision of postwar architecture and urbanism In a major study of American architecture during World War II Andrew M Shanken focuses on the culture of anticipation that arose in this period as out of work architects turned their energies from the built to the unbuilt redefining themselves as planners and creating original designs to excite the public about postwar architecture Shanken recasts the wartime era as a crucible for the intermingling of modernist architecture and consumer culture Challenging the pervasive idea that corporate capitalism corrupted the idealism of modernist architecture in the postwar era 194X shows instead that architecture's wartime partnership with corporate America was founded on shared anxieties and ideals Business and architecture were brought together in innovative ways as shown by Shanken's persuasive reading of magazine advertisements for Revere Copper and Brass U S Gypsum General Electric and other companies that prominently featured the work of leading progressive architects including Louis I Kahn Eero Saarinen and Walter Gropius Although the unexpected prosperity of the postwar era made the architecture of 194X obsolete before it could be built and led to its exclusion from the story of twentieth century American architecture Shanken makes clear that its anticipatory rhetoric and designs played a crucial role in the widespread acceptance *The Potential for Anthropology and Urban Community Engagement* Jill Florence Lackey, Rick Petrie, 2024-07-01 The relationship between anthropology departments and their surrounding urban communities has been traditional limited by a number of factors *The Potential for Anthropology and Urban Community Engagement* pushes past these limitations developing a firm foundation from which applied anthropology can support grassroots research and lasting community programs Using two partnering Milwaukee organizations as examples this volume explores the need in urban neighborhoods for practicing anthropologists how a high volume of asset building programs can be developed by practicing anthropologists and the potential efficacy of anthropology departments in partnering with urban neighborhoods *The Anthem Companion to Georg Simmel* Thomas Kemple, Olli Pyyhtinen, 2016-10-01 *The Anthem Companion to Georg Simmel* brings together new interpretations of the work of this sociologist and philosopher The companion highlights issues themes and concepts that most concern readers in social and cultural theory today with an emphasis on critical perspectives that show how Simmel's work is relevant interesting and significant for contemporary discussions and debates Also included in this volume is Austin Harrington's translation of selections from Simmel's book on Goethe and a comprehensive list of Simmel's work in English

Developing Frontier Cities Harvey Lithwick, Yehuda Gradus, 2013-04-17 The Unique Nature of Frontier Cities and their Development Challenge Harvey Lithwick and Yehuda Grad us The advent of government downsizing and globalization has led to enormous competitive pressures as well as the opening of new opportunities How cities in remote frontier areas might cope with what for them might appear to be a devastating challenge is the subject of this book Our concern is with frontier cities in particular In our earlier study *Frontiers in Regional Development* Rowman and Littlefield 1996 we examined the distinction between frontiers and peripheries The terms are often used interchangeably but we believe that in fact both in scholarly works and in popular usage very different connotations are conveyed by these concepts Frontiers evoke a strong positive image of sparsely settled territories offering challenges adventure unspoiled natural landscapes and a different and for many an attractive life style Frontiers are lands of opportunity Peripheries conjure up negative images of inaccessibility inadequate services and political and economic marginality They are places to escape from rather than frontiers which is where people escape to Peripheries are places of and for losers

The Crisis Regime Robert W. Bailey, 1985-06-30 *The Simmelian Legacy* Olli Pyyhtinen, 2017-09-20 While Georg Simmel is widely known the impact of his work has been far from straightforward with the ways in which his ideas have been taken up by later thinkers as complex and diverse as the ideas themselves The *Simmelian Legacy* is a comprehensive study of the work of this influential sociologist and philosopher and its reception in the Anglophone German and French intellectual worlds By returning to Simmel and his legacy this text gives voice to a corpus of vast significance and great potential that has lived too much in the shadows It examines how his relational mode of thought transforms the landscape of sociological problems to subvert conventional conceptions of Simmel's oeuvre as well as of sociology's history It not only rediscovers key dimensions of Simmel's thought but also explores its gradual and uneven re-emergence within subsequent scholarship This is an engaging and lucid intellectually illuminating and thoroughly accessible overview of the thought of one of sociology's key thinkers that will be essential reading for both scholars and students of sociology and social theory

Modernist Wastes Caroline Knighton, 2020-06-11 *Modernist Wastes* is a profound new critical reflection on the ways in which women writers and artists have been discarded and recovered in established definitions of modernism Exploring the collaborative autobiographical writings of Djuna Barnes and the artist-poetic and Dada performer Baroness Elsa von Freytag Loringhoven Caroline Knighton reveals how these very processes of discarding recovery and re-use can open up new ways of understanding a distinctively female modernist artistic practice Illustrated throughout with artworks original letters and manuscript facsimiles the book draws on new archival discoveries to place the feminist recovery of neglected female voices at the heart of our understanding of modernist and avant-garde literary culture

Simmel and Since (Routledge Revivals) David Frisby, 2011-03-31 Originally published in 1992 this book written by one of the world's leading experts on Simmel provides a fascinating set of insights into a thinker who is fast becoming recognized as the sociologist of modernity an indispensable resource in confronting post-modernity It examines the

relevance of his work in relation to contemporary debates on culture aesthetics and modernity **Revitalizing America's Cities** Michael H. Schill, Richard P. Nathan, 1984-06-30 In many American cities middle and upper income people are moving into neighborhoods that had previously suffered disinvestment and decay The new residents renovate housing stimulate business and contribute to the tax base These benefits of neighborhood revitalization are in some cases achieved at a potentially serious cost the displacement of existing neighborhood residents by eviction condominium conversion or as a result of rent increases Revitalizing America's Cities investigates the reasons why the affluent move into revitalizing inner city neighborhoods and the ways in which the new residents benefit the city It also examines the resulting displaced households Data are presented on displacement in nine revitalizing neighborhoods of five cities the most comprehensive survey of displaced households conducted to date The study reveals characteristics of displaced households and hardships encountered as a result of being forced from their homes Also featured is an examination of federal state and local policies toward neighborhood reinvestment and displacement including various alternative approaches for dealing with this issue
