The Meddling Gods; Four Essays on Classical Themes [By] Hazel E. Barnes Hazel Estella Barnes,1974 The Meddling Gods Hazel E. Barnes,1974-01-01 **The Meddling Gods** Hazel Estella Barnes,1974 MEDDLING GODS,1974 *The Cnidaria, Past, Present and Future* Stefano Goffredo,Zvy Dubinsky,2016-09-07 This volume presents a broad panorama of the current status of research of invertebrate animals considered belonging to the phylum Cnidaria such as hydra jellyfish sea anemone and coral In this book the Cnidarians are traced from the Earth s primordial oceans to their response to the warming and acidifying oceans Due to the role of corals in the carbon and calcium cycles various aspects of cnidarian calcification are discussed The relation of the Cnidaria with Mankind is approached in accordance with the Editors philosophy of bridging the artificial schism between science arts and Humanities Cnidarians encounters with humans result in a broad spectrum of medical emergencies that are reviewed The final section of the volume is devoted to the role of Hydra and Medusa in mythology and art Metamorphoses of Psyche in Psychoanalysis and Ancient Greek Thought Marcia Dobson,2022-12-08 This unusual book explores the transformative power of liminal experiences in ancient Greek texts psychoanalytic theory and the author s own life to demonstrate how a contemporary understanding of ancient thought can illuminate modern psychoanalytic theory and practice especially as it relates to trauma grief and the development of psyche With the understanding that liminal experiencing involves engaging a psychic space outside the boundaries of ego organization Dobson artfully interweaves autobiography literary analysis philosophical ontology and psychoanalysis to formulate a new paradigm for how to construct human beings how to enliven and deepen personal and therapeutic experience and how poetic language is the gateway to this magical realm of transformation Alongside richly detailed case analyses the author uses her dual expertise in psychoanalysis and ancient Greek literature to explore how the maternal and liminal in human life were displaced with the rise of Athens and a new way of being human the rational citizen and how this repression has resulted in diminished constricted experiencing and the suppression of women throughout western history With a deep understanding of classical literature and psychoanalysis and extensive clinical insights this is essential reading for psychoanalysts psychotherapists classicists and historians wishing to understand how ancient thought and modern psychoanalysis can interact **Religion of the Gods** Kimberley Christine Patton,2009 In many of the world s religions both polytheistic and monotheistic a seemingly enigmatic and paradoxical image is found that of the god who worships Various interpretations of this seeming paradox have been advanced Some suggest that it represents sacrifice to a higher deity Proponents of anthropomorphic projection say that the gods are just big people and that images of human religious action are simply projected onto the deities However such explanations do not do justice to the complexity and diversity of this phenomenon In Religion of the Gods Kimberley C Patton uses a comparative approach to take up anew a longstanding challenge in ancient Greek religious iconography why are the Olympian gods depicted on classical pottery making libations

The sacrificing gods in ancient Greece are compared to gods who perform rituals in six other religious traditions the Vedic gods the heterodox god Zurvan of early Zoroastrianism the Old Norse god Odin the Christian God and Christ the God of Judaism and Islam's Allah Patton examines the comparative evidence from a cultural and historical perspective uncovering deep structural resonances while also revealing crucial differences Instead of looking for invisible recipients or lost myths Patton proposes the new category of divine reflexivity Divinely performed ritual is a self reflexive self expressive action that signals the origin of ritual in the divine and not the human realm Above all divine ritual is generative both instigating and inspiring human religious activity The religion practiced by the gods is both like and unlike human religious action Seen from within the religious tradition gods are not big people but other than human Human ritual is directed outward to a divine being but the gods practice ritual on their own behalf Cultic time the symbiotic performance of ritual both in heaven and on earth collapses the distinction between cult and theology each time ritual is performed Offering the first comprehensive study and a new theory of this fascinating phenomenon *Religion of the Gods* is a significant contribution to the fields of classics and comparative religion Patton shows that the god who performs religious action is not an anomaly but holds a meaningful place in the category of ritual and points to a phenomenologically universal structure within religion itself

Classical Myth and Culture in the Cinema Martin M. Winkler, 2001-06-21 *Classical Myth and Culture in the Cinema* is a collection of essays presenting a variety of approaches to films set in ancient Greece and Rome and to films that reflect archetypal features of classical literature The diversity of content and theoretical stances found in this volume will make it required reading for scholars and students interested in interdisciplinary approaches to text and image and for anyone interested in the presence of Greece and Rome in modern popular culture

Bob Dylan and Leonard Cohen David Boucher, Lucy Boucher, 2021-04-08 Both Dylan and Cohen have been a presence on the music and poetry landscape spanning six decades This book begins with a discussion of their contemporary importance and how they have sustained their enduring appeal as performers and recording artists The authors argue that both Dylan and Cohen shared early aspirations that mirrored the Beat Generation They sought to achieve the fame of Dylan Thomas who proved a bohemian poet could thrive outside the academy and to live his life of unconditional social irresponsibility While Dylan's and Cohen's fame fluctuated over the decades it was sustained by self consciously adopted personas used to distance themselves from their public selves This separation of self requires an exploration of the artists relation to religion as an avenue to find and preserve inner identity The relationship between their lyrics and poetry is explored in the context of Federico Garcia Lorca's concept of the poetry of inspiration and the emotional depths of duende Such ideas draw upon the dislocation of the mind and the liberation of the senses that so struck Dylan and Cohen when they first read the poetry and letters of Arthur Rimbaud and Lorca The authors show that performance and the poetry are integral and the duende or passion of the delivery is inseparable from the lyric or poetry and common to Dylan Cohen and the Beat Generation
