## **The Medieval Family The Pastons Of Fifteenth Century England:**

*A Medieval Family* Frances Gies, Joseph Gies, 2010-09-21 The fascinating story of the fortunes of one medieval family over the course of a century from bestselling historians Frances and Joseph Gies The Pastons were members of the English gentry a tiny group of roughly 1 000 households sandwiched between the ruling nobility and the peasants and a rough analog for the contemporary middle class Their existence was fairly typical but for the fact that it was recorded in an extraordinary collection of nearly 1 000 letters which have survived to this day Through these letters which cover the years from 1421 to 1484 and the lives of three generations of Pastons bestselling historians Frances and Joseph Gies provide a rare window into the day to day life of this family and the broader political and social goings on of medieval England *A Medieval Family* first tells the story of Judge William Paston 1378 1444 the patriarch of the family a lawyer and judge who bought up land in Norfolk and left his son a sizeable estate which was later forcibly seized by a neighboring baron We then follow the family through its ups and downs over several generations learning of their feuds with neighbors the frequent instability of 15th century England and significant historical events such as the Siege of Caister and the Battle of Barnet There are also many letters of more personal significance including a series of Valentines sent to John Paston III The work of acclaimed historians Frances and Joseph Gies has been used by George R R Martin in his research for *Game of Thrones* In *A Medieval Family* they have woven a compelling intergenerational saga that is essential reading for anyone seeking insight into the medieval period The Gieses who specialize in making the Middle Ages accessible to nonspecialists have done a wonderful job of linking and amplifying the Pastons words *New Yorker* **Medieval Family** Frances Gies, Joseph Gies, 1999-01-01 Presents letters from a middle class English family of the late Middle Ages Paston Letters and Papers of the Fifteenth Century Norman Davis, Richard Beadle, Colin Richmond, 2004 The Paston family papers have long been consulted for their information about social history and politics in the fifteenth century both within East Anglia and also nationally Parts I and II of *Paston Letters and Papers of the Fifteenth Century* edited by Norman Davis were originally published by the Clarendon Press in 1971 and 1976 and were reissued with corrections by EETS in 2004 Part III completes the edition It contains the texts of 120 additional letters and papers many of them relating to Sir John Fastolf and his circle These texts are previously unprinted or printed only in part some only came to light after the publication of Parts I and II The texts have been edited according to the principles established by Norman Davis and are accompanied by an Introduction and Bibliography as well as a consolidated index to all three parts of the edition a glossary to the entire edition a concordance of the principal editions and original sources and a working chronology of the documents Richard Beadle is Reader in English Literature and Historical Bibliography at the University of Cambridge Colin Richmond is Emeritus Professor of Medieval History at the University of Keele *Encyclopedia of the Wars of the Roses* John A. Wagner, 2001-07-12 This authoritative A Z encyclopedia of the Wars of the Roses provides accurate and concise descriptions of the major battles and events and the principal historical figures

and issues involved For centuries historians agreed about the Wars of the Roses seeing them as four decades of medieval darkness and chaos when the royal family and the nobility destroyed themselves fighting for control of the royal government Even Shakespeare got into the act dramatizing popularizing and darkening this viewpoint in eight plays Today based on new research this has become one of the most hotly controversial periods in English history Historians disagree on fundamental issues such as dates and facts as well as interpretation Most argue that the effects of the wars were not as widespread as once thought and some see the traditional view of the era as merely Tudor propaganda A few even claim that England during the late 15th century was a society organized for peace Historian John A Wagner brings readers up to date on the latest research and thinking about this crucial period of England's history *The Paston Family in the Fifteenth Century* Colin Richmond, 2000 This is the third and final volume in the trilogy by Colin Richmond on the Paston family in the 15th century completing the sequence which began with *The First Phase* and continued with *Fastolf's Will* This volume deals with the later years of the century and those topics and themes which arise at that point in the family's history The principal characters are John Paston II his younger brother John Paston III and their mother Margaret Paston Richmond deals with a variety of issues some of which have arisen in previous volumes and attempts some judgements on the role of the English gentry in the later middle ages *Reading Families* Rebecca L. Krug, 2018-09-05 Rebecca Krug argues that in the later Middle Ages people defined themselves in terms of family relationships but increasingly saw their social circumstances as being connected to the written word Complex family dynamics and social configurations motivated women to engage in text based activities Although not all or even the majority of women could read and write it became natural for women to think of writing as a part of everyday life *Reading Families* looks at the literate practice of two individual women Margaret Paston and Margaret Beaufort and of two communities in which women were central the Norwich Lollards and the Bridgettines at Syon Abbey The book begins with Paston's letters which were written at her husband's request and ends with devotional texts that describe the spiritual daughterhood of the Bridgettine readers Scholars often assume that medieval women's participation in literate culture constituted a rejection of patriarchal authority Krug maintains however that for most women learning to engage with the written word served as a practical response to social changes and was not necessarily a revolutionary act **The Late Medieval Age of Crisis and Renewal, 1300-1500** Clayton J. Drees, 2000-11-30 As part of a unique series covering the grand sweep of Western civilization from ancient to present times this biographical dictionary provides introductory information on 315 leading cultural figures of late medieval and early modern Europe Taking a cultural approach not typically found in general biographical dictionaries the work includes literary philosophical artistic military religious humanistic musical economic and exploratory figures Political figures are included only if they patronized the arts and coverage focuses on their cultural impact Figures from western European countries such as Italy France England Iberia the Low Countries and the Holy Roman Empire predominate but outlying areas such as Scotland Scandinavia and Eastern
