The Middle East Gary S. Gregg, 2005-07-21 For over a decade the Middle East has monopolized news headlines in the West Journalists and commentators regularly speculate that the region's turmoil may stem from the psychological momentum of its cultural traditions or of a tribal or fatalistic mentality Yet few studies of the region's cultural psychology have provided a critical synthesis of psychological research on Middle Eastern societies Drawing on autobiographies literary works ethnographic accounts and life history interviews *The Middle East A Cultural Psychology* offers the first comprehensive summary of psychological writings on the region reviewing works by psychologists anthropologists and sociologists that have been written in English Arabic and French Rejecting stereotypical descriptions of the Arab mind or Muslim mentality Gary Gregg adopts a life span development framework examining influences on development in infancy early childhood late childhood and adolescence as well as on identity formation in early and mature adulthood He views patterns of development

in the context of recent work in cultural psychology and compares Middle Eastern patterns less with Western middle class norms than with those described for the region's neighbors Hindu India sub Saharan Africa and the Mediterranean shore of Europe The research presented in this volume overwhelmingly suggests that the region's strife stems much less from a stubborn adherence to tradition and resistance to modernity than from widespread frustration with broken promises of modernization with the slow and halting pace of economic progress and democratization A sophisticated account of the Middle East's cultural psychology The Middle East provides students researchers policy makers and all those interested in the culture and psychology of the region with invaluable insight into the lives families and social relationships of Middle Easterners as they struggle to reconcile the lure of Westernized life styles with traditional values *Transnational Crime*

Fiction Maarit Piipponen, Helen Mäntymäki, Marinella Rodi-Risberg, 2020-10-27 Focusing on contemporary crime narratives from different parts of the world this collection of essays explores the mobility of crimes criminals and investigators across social cultural and national borders The essays argue that such border crossings reflect on recent sociocultural transformations and geopolitical anxieties to create an image of networked and interconnected societies where crime is not easily contained The book further analyses crime texts wider sociocultural and affective significance by examining the global mobility of the genre itself across cultures languages and media Underlining the global reach and mobility of the crime genre the collection analyses types and representations of mobility in literary and visual crime narratives inviting comparisons between texts crimes and mobilities in a geographically diverse context The collection ultimately understands mobility as an object of study and a critical lens through which transformations in our globalised world can be examined **The**

Routledge Introduction to Canadian Crime Fiction Pamela Bedore, 2024-02-27 Who are the most important Canadian crime and detective writers How do they help represent Canada as a nation How do they distinguish Canada's approach to questions of crime detection and social justice from those of other countries The Routledge Introduction to Canadian Crime Fiction provides a much needed investigation into how crime and detection have been are and will be represented within Canada's national literature with an attention to contemporary popular and literary texts The book draws together a representative set of established Canadian authors who would appear in most courses on Canadian crime and detective fiction while also introducing a few authors less established in the field Ultimately the book argues that crime fiction is a space of enormously productive hybridity that offers fresh new approaches to considering questions of national identity gender race sexuality and even genre *Contemporary German Crime Fiction* Thomas W.
